1/12		<p>Happy Birthday to those born in January! As you celebrate your pup getting one year older, make sure you are feeding them dog safe birthday cake and treats! Feeding your pup toxic food could result in tummy troubles. Possible options include making them a meat pie or fruit salad, and use carob instead of chocolate if you decide to make a cake.</p> <p>Meet Protector Beauregard! 1/14		<p>Happy National Dress Up Your Pet Day! After your pup patiently lets you dress them up, be sure to toss them a treat. Show them off on a walk or on social media (tag us if you do @DooNorthTexas). When out and about, be sure to grab some doggie bags to pick up the poo! When you do, you are helping keep our local waters clean and your community healthy.</p> <p>Don't know how picking up dog waste affects our water and community health? <p>1/19</p>		<p>#DYK dog poop left on the sidewalk doesn't stay on the sidewalk? It will wash into a storm drain, releasing fecal bacteria into local watersheds. This water feeds into streams, rivers and lakes, which is then used as the source for your drinking water. “Doo” your part and pick up your dog’s waste! Learn more at www.DfwStormwater.com/Petwaste.</p> <p>Meet Defender Zeus! <p>1/24</p>		<p>Today is Change a Pet’s Life Day. This day was made to encourage the adoption of shelter pets. How have you changed your pet’s life? One thing that affects every pet and owner is our local water quality. When you leave behind pet waste, you are polluting local watersheds with fecal bacteria. In excess, this can cause an outbreak of disease. Learn more at www.DfwStormwater.com/Petwaste.</p> <p>Meet Protector Rex!
