Q1. What is your core financial system?
   A1. CostPoint by Deltek

Q2. Is there a current cost model? If so, what technology is used?
   A2. Yes, Excel

Q3. Are there current IT Service or Project rates that you can share?
   A3. Our costs are basically allocated by employee

Q4. Is there a current IT Catalog? If so, can you share it?
   A4. Yes, the Service Catalog does not include costs allocations by service (an issue we want to resolve)

Q5. Do you have current IT Service reports that you can share?
   A5. No

Q6. Are there any weightings applied to the evaluation criteria or are they equally weighted?
   A6. They are listed in the order of importance. References and functionally will carry the highest weights. We have a small department, so it is important not to adopt a system that requires a significant of on-going internal resources. Obviously, it has to be affordable. However, cost is not the primary consideration.

Q7. What is the budget of NCTCOG and how are you funded?
   A7. Our budget is $173,164,000. We are primarily grant funded but we also have fee-for-service contracts and we receive membership dues from our member governments comprised of cities, counties, school districts and special districts.

Q8. Is there an incumbent?
   A8. No

Q9. Has a similar study been done before?
   A9. No. We are not looking for a study, we are looking for a system that can be used on an ongoing basis.
