

ROUSH CleanTech 2011 Ride-n-Drive Program

ROUSH will be conducting a Demo Program that will be offered to all Dallas-Fort Worth (DFW) Clean Cities Stakeholders. The Program will give stakeholders the opportunity to utilize a ROUSH CleanTech Vehicle for a specified amount of time. Currently the Ford vehicles that would be available are: F-250, E-250 Cargo Van and E-350 Passenger Van. The Program is designed to assist DFW Clean Cities by using these vehicles in alternative-fuel events, educate fleets and the public on the advantages of alternative-fuel vehicles, and help stakeholders develop partnerships and better identify funding opportunities.

Propane Basics:

Propane powers over 270,000 vehicles in the United States and more than 15 million worldwide. Propane is the 3rd most common engine fuel, behind gasoline and diesel. Propane vehicles are a good choice for many fleet applications, including school buses, shuttle buses, taxis and light-duty trucks. The advantages of propane as an alternative fuel include its domestic availability, performance, safety, and clean-burning qualities.

Propane Fueling Station Locations:

There are over 500 Propane fueling stations located in Texas, with 35 of them being within a 25 mile radius in the Dallas-Fort Worth area. For a full list of Propane stations visit [Alternative Fueling Station Locator](#).

Propane Worldwide:

Other countries embrace this technology because they are less addicted to gasoline, and were forced into higher gasoline prices years ago. In the Australian Ford Plant, one out of every three vehicles produced is powered by propane. There are more than seven million propane powered vehicles in Europe alone.

Ride-n-Drive Program Survey

1. I am a/an:

<input type="checkbox"/> Elected Official	<input type="checkbox"/> Fleet Owner/Manager	<input type="checkbox"/> Auto Consumer/Buyer
<input type="checkbox"/> Governmental Agency	<input type="checkbox"/> Auto Dealer	<input type="checkbox"/> Other: _____
<input type="checkbox"/> Educational Professional	<input type="checkbox"/> Auto Manufacturer	_____
<input type="checkbox"/> Health Field Representative	<input type="checkbox"/> Student	_____

2. Interested in participating in the ROUSH Ride-n-Drive Program:

Not at all Somewhat Very Interested

3. Please select which vehicle(s) would be more beneficial to your needs:

F-250
 E-250 Cargo Van
 E-350 Passenger Van
 No preference
 None of these

4. Please select the desired amount of time to have the vehicle(s) to your availability:

1-2 weeks 3-4 weeks 5-6 months 6+ Months

5. Would you like to see an expanded loaner program in the future?

Yes No

If so, what vehicles would you like to have available?

6. Are you a fuel or vehicle manufacturer/provider?

Yes No

If so, would you be interested in providing vehicles for a future loaner program?

Yes No
