Making New Places for Play: Joint Use Agreements between Schools and Parks

Speakers will provide an overview of national trends in developing joint-use agreements, discuss how the California Department of Health is promoting joint-use through a mini-grant program, and show how joint-use agreements developed in the City of Los Angeles offer lessons for any school system or parks agency contemplating joint-use agreements of their own.

Rich Dolesh, Chief of Public Policy, National Recreation and Park Association; Joanne Gooley, MA, RD, Physical Activity Specialist, California Project LEAN, California Department of Health; Michael Shull, Superintendent of Planning and Construction, Department of Recreation and Parks, City of Los Angeles

The 10th Annual New Partners for Smart Growth Conference

- **February 3-5, 2011, Charlotte, NC:** The conference will draw an audience of local elected officials, city and county staff, planners, transportation professionals and traffic engineers.
- Three-day schedule includes a dynamic mix of plenaries, breakouts, implementation workshops, specialized trainings, mobile tours, peer-to-peer learning opportunities, and coordinated networking activities.
- There will be something for everybody, from veteran experts to smart-growth novices, with over 100 sessions and workshops to choose from.
 - The program will be infused with sessions and case studies focusing on important equity and environmental justice issues.

NCTCOG to host Designing for Pedestrian Safety Webinar Series

February 28 – March 4, 2011, NCTCOG Offices: NCTCOG will be hosting the FHWA Pedestrian Safety Courses for the DFW Region. Two courses will be offered:

1. Designing for Pedestrian Safety

Target Audience: Engineers, planners, traffic safety and enforcement professionals, public health and injury prevention professionals, and decision-makers who are seeking ideas and solutions for making changes to the physical environment that improve safety for pedestrians.

2. Designing a Pedestrian Safety Action Plan

Target Audience: Engineers, planners, traffic safety and enforcement professionals, public health and injury prevention professionals, and decision-makers who have the responsibility of improving pedestrian safety at the state or local level.
