

10. Scyene

GENERAL DESCRIPTION

The Scyene Road Corridor is a corridor that consists of two segments of extension. One extension is from Lawnview Drive to Masters Drive in Southeast Dallas, an approximate 4.3-mile double-track light rail within the Scyene Road Corridor. The Southeast Corridor Major Investment Study (May 2000) recommended that Dallas Area Rapid Transit (DART) consider light rail in this segment of the Scyene Road Corridor during its next Transit System Plan update. The other extension is from Masters Drive to the Dallas/Kaufman County line, which is recommended for further evaluation in Mobility 2030. The analysis for future

extension from the Dallas/Kaufman County line to Forney is under study and further extension across Kaufman County along the existing freight line is identified for further evaluation in Mobility 2030.

The Scyene Road Corridor presents an opportunity to interline with the planned Irving/DFW Corridor through downtown Dallas. A new Scyene Corridor line provides additional, needed capacity in the Baylor/Fair Park areas, while also serves a new travel market in the northern part of Southeast Dallas.

RECOMMENDED IMPROVEMENTS

Scyene							
MTP TIP Segment ID	Limits	Agency	Status	Mode	Length (Miles)	Source of Recommendation	Cost
10345.1	Lawnview to Masters	DART	Future	Light Rail	4.3	DART 2030 System Plan	\$249 million
10345.2	Masters to Dallas/Kaufman County Line	East-Other		Light Rail -C	7.5	NCTCOG	\$127 million
