

Regional Value Pricing Corridor Evaluation and Feasibility Study

North Central Texas Council of Governments

Table of Contents

1	Executive Summary.....	5
1.1	Project Initiation.....	5
1.2	Definition of Value Pricing and Managed Lanes	5
1.3	Mobility in the Dallas Fort-Worth Region.....	5
1.4	Potential Application of Value Pricing in the Dallas-Fort Worth Region	7
1.5	Study Methodology and Steps	8
2	Value Pricing History and experience	9
2.1	History.....	9
2.2	Value Pricing Facilities and Experience	10
2.3	Lessons Learned.....	18
3	Guide for Applying Value Pricing in the Dallas-Fort Worth Region.....	22
3.1	Value Pricing Strategies	22
3.2	Guiding Principles for this Study.....	24
3.3	Screening Criteria for Short-term or Long-Term Consideration	26
3.4	10 Facility Evaluation Criteria for Short-Term and Long-Term Consideration	27
3.5	Other Considerations for Implementing Value Pricing.....	43
4	Application of Criteria to Select a Short-Term Demonstration Project.....	45
4.1	Introduction.....	45
4.2	Screening Process to Identify Potential Projects	45
4.3	Application of the 10 Evaluation Criteria to Identify a Demonstration Project	48
5	Application of the 10 Criteria for the Long-Term Consideration of Value Pricing.....	55
5.1	The “Universe” of Facilities in the Dallas-Fort Worth Region.....	55
5.2	Applying the 10 Evaluation Criteria	56
