

TRANSPORTATION PUBLIC MEETINGS

Unified Planning Work Program (UPWP) Modifications

The UPWP for regional transportation planning provides a summary of the transportation and related air quality planning tasks to be conducted by the metropolitan planning organization. Proposed modifications to the FY2018 and FY2019 UPWP will be presented.

Local Bond Program Partnerships

Over the last several months, NCTCOG staff have reached out to agencies that are undergoing local bond efforts. The goal of the effort is to leverage bond funds for projects of strategic importance to local governments and the region. Staff will present projects recommended for federal mobility and air quality funds through the Local Bond Program partnerships effort.

Call for Projects Recommendations: Federal Transit Administration Funding Programs

NCTCOG issued a Call for Projects to competitively award Federal Transit Administration funding from two programs that support transportation services for seniors, persons with disabilities and low-income individuals. Approximately \$6.5 million in funding was available to award in the Dallas-Fort Worth-Arlington and Denton-Lewisville Urbanized areas. Staff will present recommendations to award ten projects the available federal funding.

Electric Vehicles in North Texas Update

Electric vehicle sales are on the rise due to a number of factors, including the renewed EV rebate program, new makes and models, and educational events. Staff will highlight elements of this year's National Drive Electric Week celebration as well as other information about regional EV trends and resources. For more information, visit www.dfwcleancities.org/evnt.

Other Information to be Highlighted at the Meetings:

- Mobility 2045 Survey
- Proposed Modifications to the List of Funded Projects
- Public Transportation Agency Programs of Projects
- AirCheckTexas Drive A Clean Machine Program

The Arlington meeting will be live streamed at www.nctcog.org/video (click on the "live" tab). A video recording of this meeting will also be posted online at www.nctcog.org/input.

For anyone wanting to ride transit to the Sept. 13 public meeting, NCTCOG will offer a free connection to the meeting upon request on a first-come, first-served basis. For more information, contact Carli Baylor at least 72 hours prior to the meeting.

MPO and Local Governments Training:

Strava Crowdsourced Bicycle and Pedestrian Demand Data

TxDOT's Public Transportation Division (PTN) – Statewide Bicycle and Pedestrian Program is excited to bring [Strava Metro](#)'s crowd-sourced bicycle and pedestrian data to its local government partners! TxDOT-PTN recently purchased two years of Strava bicycle and pedestrian data and will be sharing this data with local government entities (including MPOs, cities, counties, management districts, etc.) at no cost.

Regional and Local Partners Training Details

Strava staff will provide 3-hour informational training sessions geared toward local government and MPO use of Strava data that will be made available through TxDOT. Training will focus on how to access and use Strava data for planning and project development, including correlating Strava data with bicycle count data.

Having direct access to the Strava experts will be valuable! In person attendance is strongly encouraged. Registration for in person training is necessary to ensure a seat. A Webex option will be available for those unable to attend in person and when room capacity becomes full (see details below).

Feel free to share this invitation with others who may be interested in working with the data, such as:

- Bicycle/Pedestrian/Transportation Planners
- GIS analysts
- Traffic modelers
- Traffic signal engineers
- Driveway permitting staff

Corpus Christi - September 19, 2017, 9AM – 12PM
