Staff Training

This task force could help coordinate similar sized MS4's to conduct more interactive staff training, such as ride-alongs, site visits, or show-and-tell style presentations so that we can see what other inspectors encounter in the field and how we address it.

 1  4  2  0  0

Development of a training series. Knowledge based training for entry level personnel. Cohorts, specialty training, lunch and learns focused on the construction and post construction.

Workshops for cities that want to update their ordinances or become an iSWM city, where vital members from different departments are present and contribute to form a better system for their city as a whole.

Align training with CEUs, PDHs, etc.

 1  1  0  0  0

Site visits to neighboring cities to view post construction measures (if city owned) to assist with inspection procedures, etc.

 1  3  1  0  0

An introduction powerpoint or presentation going over the permit requirements, visuals of what PCSWQM look like and how they operate. Let's start with the basics, what does everyone need to know to be effective, what would a new staff hire being onboarded need to know.

 0  2  0  0  0

NCTCOG should continue to utilize Training & Development Institute training

 2  0  0  0  0

Public Education

Shared resources like a loose calendar of monthly stormwater topics, images, talking points so that each City can customize the message for their needs but be on the same page with seasonal messaging to residents.

Template for Post Construction owners to help them understand their site specific BMPs, maintenance requirements and a additional resources to help them be compliant

Maintenance FAQs sheets/brochures for owners...ex: proper maintenance for ponds, etc.

Better Guidance/ Regulations

Development of regional procedures or model ordinances for post-construction regulation to specifically meet the TCEQ general permit requirements.

Creation of standardized post-construction inspection forms
