

North Central Texas Council of Governments

TO: Mayors, City Managers, City Administrators, County Judges, and Building Officials

DATE: July 9, 2026

SUBJECT: 2026 National Electrical Code and Regional Code Amendments for North Central Texas

Upon recommendation of the Regional Codes Coordinating Committee (RCCC) and its Electrical Advisory Board, the North Central Texas Council of Governments (NCTCOG) Executive Board endorsed regional amendments to the 2026 National Electrical Code on May 28, 2026. The Executive Board encourages your jurisdiction to consider adoption of the 2026 National Electrical Code and Regional Amendments.

NCTCOG's RCCC recommends consideration of adopting the 2026 National Electrical Code with no local amendments other than the regional amendments, as expeditiously as possible. The ultimate goal is regional uniformity of building codes for the North Central Texas region. Achieving the goal of standardization of building codes across the region will result in positive economic impacts and other benefits for municipalities, contractors, architects, builders, and manufacturers.

NCTCOG appreciates your local government's support of our continued efforts toward regional code uniformity. To learn more about the Regional Codes Work Program, or to obtain a copy of the recommended regional amendments, please visit the Regional Building Codes webpage at <https://www.nctcog.org/envir/regional-building-codes/amendments>.

For more information about the Regional Codes Program, to participate in the program, or to ask questions regarding Regional Codes, please contact Caralyn Dawson, Environment & Development Planner II, at cdawson@nctcog.org or (817) 608-2377.
