Conservation Assistance Available Through the USDA-NRCS

NCTCOG Water Resource Council
Arlington, TX
January 2017
Helping People Help the Land

NRCS works with farmers, ranchers and forest landowners across the country to help boost agricultural productivity and protect our natural resources through conservation.
The NRCS Approach To Conservation
Agricultural Act of 2014 Conservation Programs

ACEP ALE

EQIP

ACEP WRE

RCPP

CTA
Through RCPP, NRCS and state, local and regional partners coordinate resources to help producers install and maintain conservation activities in selected project areas.

Partners leverage RCPP funding in project areas and report on the benefits achieved.
More Partners bring innovation, new ideas, resources and local expertise to solve problems.
What Do We Value About a Stream?

- Clean Water
- Fish and Aquatic Habitat
- Natural Scenic Beauty
- Recreation
- Wildlife Habitat
- Abundant Forage for Livestock
- Reliable Water Source
Hindrances to a Healthy Stream

- Land Disturbances
- Excessive Concentration of Animals
- Artificial Manipulations
- Excessive Traffic
- Woody Removal
- Excessive Withdrawals
Anything that we do in the riparian and/or stream will cause a change in the dynamics of the stream.
It’s Complicated

• The environment is basically one large complex system. It is all interconnected.

• Problems Should be Addressed at the Watershed Scale.

• We can try to “localize” the problem to reduce complexity, however the variables at play are probably still innumerable.

• All projects that we undertake in a stream or riparian area must be carefully studied.
When considering water quality, select practices that address the concept for Avoiding, Controlling, or Trapping pollutants, or “ACT.”
Healthy Soils Are The Foundation of Healthy Ecosystems
Healthy soil gives us clean air and water, bountiful crops and forests, productive grazing lands, diverse wildlife, and beautiful landscapes. Soil does all this by performing five essential functions:

1. Regulate and partition water
2. Sustains plant and animal life
3. Filters and buffers potential pollutants
4. Cycling of nutrients
5. Physical stability and support
In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA’s TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English. To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992.
