Renewal of the General Permit for Phase II (Small) MS4s

Danielle Cochran
Environmental Compliance Assistance Specialist
Texas Commission on Environmental Quality
Compliance Assistance Specialist

DFW– Region 4

• Danielle Cochran
  817-588-5927
  Danielle.Cochran@TCEQ.Texas.Gov
Technical Assistance

- Free and Confidential.
- Multi-media.
- Compliance Hotline.
- One-on-one help from regional staff.
- EnviroMentor Program (if eligible)
Who does SBLGA help?

- Airports.
- Auto Body / Repair.
- Building Contractors.
- Car Washes.
- Compost Operations.
- Concrete Batch Plants.
- Drinking Water Plants.
- Dry Cleaners.
- Foundries
- **Local Governments**

- Marinas
- Metal Finishers/Fabricators
- PST Facilities (fuel)
- Print Shops
- Manufacturing Facilities
- Reinforced Plastics
- Surface Coaters
- Trade Associations
- Transportation/Distribution
- Wastewater Plants
- Wood Products
How can SBLGA help me?

- Provide training for MS4 employees
- Set up a Workshop for CGP or MSGP
- Review Guidance created by MS4 ex. mobile car washes or Power washing
- Assist with STEERS questions or Regional issues.
Compliance resources can be searched by industry, issue, or special topics.

EPA
National Pollutant Discharge Elimination System

TCEQ
Texas Pollutant Discharge Elimination System

Phase I and II MS4s
(Municipalities, et al)

MSGP
(Industrial)

CGP
(Construction)
TPDES

- Multi-Sector General Permit (MSGP).
  - TXR050000 (August 14, 2016-2021).

- Construction General Permit (CGP).
  - TXR150000 (March 5, 2018-2023).

- Municipal Separate Storm Sewer Systems (MS4s).
  - Phase I – large and medium cities.
    - Individual / customized.
  - Phase II – small cities.
    - General Permit TXR040000 (Jan. 16?, 2019-2024)
What is an MS4?

• Publicly owned or operated drainage system that conveys stormwater.
• Not wastewater collection or sewer lines.
• Includes many non-traditional entities such as military bases, transportation systems, hospitals, universities, correctional facilities and a variety of districts.
• Located fully or partially within UA.
• “Once in, always in.”
What is an Urbanized Area?

- High density of residential population:
  - at least 1,000 people per square mile and
  - at least 50,000 total population.

- U.S. Census Bureau.
  - Collects data every 10 years (2010).
  - Develops UA maps, boundaries.

- MS4 required to regulate only the portion within UA.

- UA Maps also located on TCEQ and EPA web sites
PII MS4 Applications

• Deadline 180 days permit is issued.

• Options for authorization include:
  o Full permit coverage.
  o Waiver.
Administrative Requirements

- Application for permit coverage.
- Stormwater Management Program.
  - Maintain records evaluating efforts.
  - Implement SWMP by end of permit term.
- Annual Report.
  - Submit within 90 days of end of each permit year.
Annual Report Contents

• Status of compliance with permit conditions
• Progress towards reducing pollutants
• Summary of information and monitoring data
• Evaluation of the BMPs
• Assessment of efforts toward goals
• Statement of planned activities
Annual Report Form Changes

• Review and update SWMP and MCM annually

• Any Changes must be reflected in Annual Report

• Written procedures must be maintained on site or in SWMP
Annual Report Form Changes

- Check for the latest EPA approved 303(d) list
- Or Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d)
- Post SWMP and Annual Reports to public website within 30 days
SWMP

Includes a map and six Minimum Control Measures:

1. Public Education, Outreach and Involvement
2. Illicit Discharge Detection and Elimination
3. Construction Site Runoff Control
4. Post-Construction Mgmt. in New & Redevelopment
5. Pollution Prevention and Good Housekeeping for Municipal Operations
6. Industrial Sources
7. Optional – Construction by MS4
Sharing a SWMP.

• Form a coalition with other MS4s sharing a boundary or watershed
• Divide program elements
• Identify responsibilities for each entity

• Each MS4 responsible for:
  o Applying for permit coverage
  o Compliance with SWMP
Authorization Process

- Submit NOI, proposed Stormwater Management Program, and application fee
- Administrative review by the TCEQ
  - Additional information from applicant
- Technical Review of SWMP
  - Additional information from applicant
- Public Notice published in newspaper
  - Public Meeting
- Approved by the TCEQ
TCEQ Investigations

• Becoming more comprehensive over time
• Recordkeeping and Reporting
  o Notice of Intent/SWMP
  o Annual Reports
  o Supporting data
  o Noncompliance Notification – 30 TAC 305.125(9)
• Submitted on time
• Met signatory requirements
• Included required elements
• Used SWMP as reference
• NOC/revised SWMP if needed
How to be in compliance...

• Know the applicable sections of the permit
• Communicate throughout organization
• Use available resources and partners
• Implement and maintain appropriate controls
• Request to change SWMP when necessary
• Contact the TCEQ for guidance if needed
Read the permit... and the SWMP!
Phase II MS4 Permit Renewal

- Renewal process began: Feb. 2017
- Stakeholder meeting: March 21, 2017
- Development of draft permit: April through August 2017
- Draft permit sent to EPA: August 29, 2017
- Publish notice: Aug 24, 2018
- 30 day comment period from Aug 24 - September 24, 2018
Phase II MS4 Permit Renewal

• Public meeting: September 24, 2018
• Draft permit was adopted by the Commission on January 16, 2019
• Draft permit and fact sheet can be accessed on our webpage
Significant Changes

• Electronic submittal of application and reports will be required by December 21, 2020
• Minimum Control Measure 7 has a lower benchmark value for total suspended solids (TSS) from 100 mg/L to 50 mg/L
• The definition of construction activity is revised to include stockpiling of fill material and demolition
Significant Changes

• Implementation of the MS4 Remand Rule, which modifies the permit language so it becomes clear, specific, and measurable

• A requirement for the MS4 to post its annual reports and the SWMP on its website, if the MS4 has one

• Addition of a public notice process for certain Notice of Changes
Significant Changes

• Level 4 MS4s must control the discharge of floatables in the MS4s and evaluate new and existing flood management projects to determine their impact on water quality
• The application fee will now be $400 instead of $100
Renewing Your MS4 Authorization

- Submit a revised SWMP with the NOI within 180 days
- Address all requirements in the General Permit
- TCEQ will review and provide feedback and then draft a public notice
- Publish notice in local newspaper with 30-day comment period
  - Send proof to TCEQ
Renewing Your MS4 Authorization

- Public meeting held, if requested
- TCEQ responds to public comments
- TCEQ approves/renews the MS4 Authorization
Electronic Reporting Rule

• Effective Dec. 21, 2015
• Requires electronic submittal of applications and reports
• Phase 2 of Rule: General permit applications (NOIs) and MS4 reports need to be submitted electronically by Dec. 21, 2020
• Waiver is available
Texas Water Development Board

• **Clean Water State Revolving Fund.**
  - Public entities - cities, counties, districts.
  - Eligible projects include:
    - Stormwater pollution control.
    - Wastewater recycling, reuse, treatment.
    - Non-point source pollution control.
  - Low interest rate loans and loan forgiveness.
  - Projects added throughout the year.

Regulatory/Legislative Updates

Small (Phase II) Municipal Separate Storm Sewer Systems (MS4) General Permit, TXR040000 Renewal

• 2019 TPDES general permit for small MS4s, TXR040000 - January 24, 2019 effective date
• This general permit authorizes the discharge of stormwater from small MS4s located in urbanized areas state-wide and certain non-stormwater discharges into surface water in the state.
• Permittees have 180 days to submit a Notice of Intent (NOI) with an updated Stormwater Management Program (SWMP), or if applicable a Waiver application.
• [Link](https://www.tceq.texas.gov/permitting/stormwater/ms4/WQ_ms4_small_TXRO4.html)

Revised Definition of “Waters of the United States” – Federal Register, February 14, 2019

• [www.epa.gov/wotus-rule](https://www.epa.gov/wotus-rule)
• Comments are due on the proposed rule on April 15, 2019

NCTCOG Stormwater Legislative Update:

• **HB 1059 (Lucio) – relating to a biennial report on stormwater infrastructure in this state**
  • define “green stormwater infrastructure” and “low impact development;”
  • create a Green Stormwater Infrastructure and Low Impact Development Report Group
  • require the Group to prepare a biennial report on the use of GSI and LID
FY2019 Work Program Update
Has anyone used this? → Ordinance Template for Post-construction Stormwater Management

- Template for local governments to consider when adopting new or revised provisions of local law to implement and enforce a post-construction stormwater program
- Assists in the fulfillment of the requirements set forth in the Texas Commission on Environmental Quality (TCEQ) Phase II MS4 General Permit (TXR040000) Minimum Control Measure (MCM) 4: *Post-construction Stormwater Management in New Development and Redevelopment.*
- Available at:  
  https://www.nctcog.org/envir/watershed-management/stormwater/construction

Any Next Steps?
- Workshop/workshop series?
- Carry work forward into FY2020 Work Program – discussion later

Stormwater Cooperative Purchase – Issued February 14, 2019

1. Commonly requested promotional items with prices quoted to NCTCOG can be found here: FY2019 NCTCOG Cooperative Purchase Items. For these items, no Deadline to Order, other than your own internal deadline.

2. A guide listing vendor contacts and detailed notes by vendor to aid you in the purchasing process can be found here: Vendor and Purchasing Guide.

3. To order any of the below listed items not supplied through a Choice Partner contract, please fill out this Order Form and submit to Crysta Guzman by March 1, 2019. After all orders have been received and compiled, we will obtain new quotes and confirm pricing, and follow up with any final instructions.

- Fat Trapper Boxes
- Curb Marker Adhesive
- Fat Trapper Refill Bags
- Duracast Curb Markers
- Aluminum Curb Markers

Contact: Crysta Guzman at cguzman@nctcog.org or 817-695-9107
FY2019 Work Program

PUBLIC EDUCATION TASK FORCE UPDATE

FY19 Project: Social Media PSAs
- Short 30-90 second informational videos
  - Specific topics selected
  - Development of scripts and selection of vendor underway
  - Working cooperatively with WATER group

POLLUTION PREVENTION (P2) TASK FORCE UPDATE

Training Modules
- NCTCOG staff is still seeking footage to film for the “Preventing Stormwater Pollution” videos
  - For a detailed shot list, or arrange filming, please contact Crysta Guzman
Automotive Related Business Literature
A flyer and tri-fold for automotive related businesses are currently under development. A second draft for review will be available at the March IDDE Task Force Meeting.

Basic and Advanced Dry Weather Field Screening Training will be held in June and September of this year. The City of Carrollton has offered to host both trainings. Firm dates will be determined in the near future.
FY2019 Work Program

STORMWATER MONITORING PROGRAM UPDATE

Year 2 of Permit Term 4 began January 1, 2019
• Wet Weather Monitoring is ongoing

• 2018 data for all four quarters is now available
• NCTCOG will be updating the website map and data
• The Stormwater Monitoring Task Force will be meeting February 21, 2019 to review Draft Report
• Submit Final Report to TCEQ - March 1, 2019 to TCEQ
FY2019 Regional Stormwater Program Budget Update

56% of FY2019 Budget has been committed

FY2019 Budget: $314,000
FY2019 Budget Committed (as of 2/18/19): $174,381

Expect followup contact from NCTCOG for those historic participants and those who have outstanding invoices.

Still taking FY2019 Commitments
• https://www.nctcog.org/envir/watershed-management/stormwater/cost-share

FY2020 Regional Stormwater Program Budget Update
• At this time, for budget purposes, expect the same cost-share amount as FY2019
