| 1 | 9 | DART | Dallas Central Business Distric <br> (CBD) LRT Traffic Signal <br> Priority | CBD LRT Traffic Signal Priority - Provide transit signal priority in the Dallas CBD. Traffic signal retiming, installation of program logic controllers, LRT detection system, call placement and communications | \$3,500,000 | \$2,646,560 | \$2,117,248 |  | \$529,312 | 2006 | 0 | 1 | 2 | 2 | 5 | Reduced cost to remove signa retiming portion. This portion will be completed through Thoroughfare Assessment Program ( $\sim 838,000$ ). Project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 3 | 10 | City of Frisco | Software Link to Regional Center-to-Center | The City of Frisco wishes to exchange data with the regional center-to-center infrastructure. This project will provide a plug-in that will allow data to either be injected nto the center-to-center infrastructure or extracted from the center-to-center infrastructure. | \$200,000 |  |  |  |  | 2006 | 2 | 2 | 1 | 0 | 5 | Recommend funding with TXDOT earmark funds and grouped with regional center-to-center project \#3. |
| 2 | 11 | TxDOT Dallas | IH 35E from SH 121 to FM 1171; ITS Deployment | This project will include the installation of conduit trunked system containing fiber optic cable as well as other required cabling necessary for the transport of video and data. Field equipment will include closed circuit television cameras, dynamic message signs as well as vehicle detection units. This system will greatly enhance both TxDOT's as well as DART's ability to manage traffic on the general purpose lanes. This will also greatly enhance the gathering of real-time traffic information on the NAFTA corridor. (IH 35 E from SH 121 to FM 1171) | \$2,285,750 | \$2,162,385 | \$1,729,908 | \$432,477 |  | 2007 Jul 2007 | 2 | 1 | 2 | 0 | 5 | TxDOT reduced project cost by $\$ 110,750$ and project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 4 |  | TxDOT Dallas | IH 35E from US 67 to IH 20; ITS Deployment | This project will include the installation of conduit trunked system containing fiber optic cable as well as other required cabling necessary for the transport of video and data. Field equipment will include closed circuit television cameras, dynamic message signs, and vehicle detection units. The project will also be beneficial to TxDOT as it will connect two existing ITS systems that are currently in operation at the IH35E/US67 interchange and the $\mathrm{IH} 35 \mathrm{E} / \mathrm{IH} 20$ interchange. (IH 35 E from US 67 to IH 20 ) | \$2,146,375 | \$2,038,110 | \$1,630,488 | \$407,622 |  | 2007 Aug 2007 | 2 | 0 | 2 | 1 | 5 | TxDOT reduced project cost by $\$ 96,375$ and project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 1 |  | City of Farmers Branch | Software and Hardware Link to Regional Center-to-Center | Replacement of video communication Infrastructure, Traveler Information hardware and software and develop City-TxDOT Communication Infrastructure | \$300,000 | \$198,840 | \$159,072 |  | \$39,768 | 2007 | 1 | 2 | 1 | 0 | 4 | Total cost was reduced to $\$ 200,000$ Center-to-center portion removed and grouped with regional center-tocenter project \#3 ( $-\$ 100,000$ ). Project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 1 |  | City of Frisco | Frisco/NTTA Fiber Optic Connection | This project will involve the design and installation of fiber optic for communications with the region and within the city. This project will provide a fiber connection from City of Frisco TMC to the NTTA fiber on the Dallas North Tollway. | \$328,000 | \$326,098 | \$260,878 |  | \$65,220 | 2007 | 1 | 2 | 1 | 0 | 4 | Project cost reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 1 a |  | TxDOT Dallas | Mobility Assistance Patrols Eastern Subregion | The continuation of the Mobility Assistance Patrol Program throughout Dallas County and possible expansion into Collin and Denton Counties. | \$10,000,000 | \$8,000,000 | \$6,080,000 | \$1,920,000 |  | 2007-2009 | 1 | 1 | 2 | 0 | 4 | Reduced cost to $\$ 8,000,000$, the additional funds added to the ITS program to fund mobility assistance patrols. Program will also expanded to include portions of Collin and Denton Counties. |
| 2 |  | dart | Train Detector and Alert System | Train Detector and Alert System - Communications between buses arriving at stations and trains to enhance/coordinate transfers. This project will be applied to arterial stations, park lane, Walnut Hill, Forest Lane and Spring Valley. | \$200,000 | \$198,840 | \$159,072 |  | \$39,768 | 2007 | 0 | 0 | 2 | 2 | 4 | Project cost reduced by $0.58 \%$ to meet ITS Programs allocated budget. |

| 1 | 17 | City of Iving | ITS Communications Upgrade | Install fiber optic to communicate to traffic signals and ITS devices where the City's wireless communication system is deficient and will not work due to terrain or buildings. Updated scope would include filling in communication gaps on our major thoroughfares and designated detour routes with point to point wireless communications and fiber to get communications for intersections that do not currently have communications. The City of Irving has a lot of intersections that communicate with the TOC and the City also have isolated groups or intersections on Macarthur, Belt Line, O'Connor, and Irving Blvd that can not reach the communication backbone to communicate with the TOC. | \$1,090,000 | \$497,100 | \$347,970 |  | \$149,130 | 2007 | 1 | 0 | 1 | 1 | 3 | City of Irving reduced cost to $\$ 500,000$ and expanded the scope of the project. Project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 1 | 18 | DART | ITS System Integration | DART ITS System Integration - DART System Interconnection LRT - TRE - HOV -Paratransit-Bus into same system. | \$2,000,000 | \$1,988,400 | \$1,590,720 |  | \$397,680 | 2008 | 0 | 0 | 1 | 1 | 2 | DART requested this project be exchanged with project $\# 20$. Project cost also reduced by $0.58 \%$ to meet ITS Programs allocated budget. |
| 1 | 19 | City of Grand Praire | Utility Software Development | Utility software development to coordinate traffic movement during recurring and nonrecurring incidents. This project will provide network data, traffic signal data, traffic condition data in accordance with the Interface Control Document. The project will provide the core software with a base map that will display center-to-center information on map such as incidents and road closure information. The system will be configured with a key objective of facilitating exchange of data and features with other transportation agencies in the Dallas/Fort Worth area. CCTV video and computer-generated graphic displays (road closures and incident) will be the primary tools that operators use to evaluate traffic-related roadway conditions. | \$367,000 | \$387,738 | \$310,190 |  | \$77,548 | 2006 | 0 | 1 | 1 | 0 | 2 | Project cost reduce by $0.58 \%$ to meet the ITS Programs allocated budget. |
|  |  |  |  | Total Dollars Recommended | \$34,239,725 | \$30,136,874 | \$22,619,790 | \$4,160,927 | \$1,956,158 |  |  |  |  |  |  |  |
|  |  |  |  | Total Dollars Available for 2005-2009 | \$28,275,000 | \$28,275,000 | \$22,620,000 |  |  |  |  |  |  |  |  |  |
| 3 | 20 | DART | Regional Integration | Regional Integration - Expand fiber optic network to link with Regional System | \$800,000 |  |  |  |  | 2006 | 2 | 2 | 1 | 2 | 7 | DART requested this project be exchanged with project \# 18. |
| 2 | 21 | nctcog | ITS Data Archiving Project (DAP) | The North Central Texas Council of Governments, the Metropolitan Planning Organization for the Dallas Fort Worth area, desires to enhance its information system for monitoring transportation system infrastructure and performance as part of the Congestion Management System. ITS Data Archiving Project (DAP) will archive traffic related information at a regional level by gathering data from multiple agencies using the center-to-center software through the regional communication network. | \$300,000 |  |  |  |  | 2006 | 0 | 2 | 1 | 1 | 4 | Project removed, NCTCOG has dollars in existing program to fund through 2009. |
| 1 | 22 | City of Mckinney | US 75/SH 121 Collin County Mobility Assistance Patrol | Collin County Mobility Assistance Patrol (From US 75 to SH 121 in Collin County) | \$502,108 |  |  |  |  |  | 1 | 1 | 2 | 0 | 4 | Funded as part of the TxDOT Mobility Assistance Patrols Program project \#15. |
| 5 | 23 | TxDOT Dallas | Dallas County Microwave Vehicle Detectors | This project will include the installation of microwave vehicle detectors throughout Dallas County necessary for the transport of data. Field equipment will include vehicle detection units and communication equipment necessary for transmittal of traffic data. A microwave vehicle detection system throughout the county will be very beneficial to the traveling public. When operating in conjunction with the Dallas District's dynamic message signs, it will allow TxDOT to post travel time messages on signs. | \$1,338,000 |  |  |  |  |  | 1 | 0 | 2 | 1 | 4 |  |
| 4 | 24 | DART | Dallas Central Business District (CBD) Transit Mall LRT Station | CBD Transit Mall LRT Station - Passenger Information Message Signage/Related Communications Improvements (LRT infrastructure - operations). | \$1,500,000 |  |  |  |  |  | 0 | 0 | 1 | 2 | 3 |  |

|  |  |  |  |  |  |  |  |  |  |  | Emphasis Areas |  |  |  |  |  |

| 2 | 25 | City of Dallas | Arterial Drive Information System | Arterial Drive Information System - Install 11 Arterial Dynamic Message Signs on high volume arterials to display travel time conditions on freeways. Installation of these signs will complete city ITS master plan for DMS. Average cost per sign is $\$ 100,000$. | \$1,126,000 |  |  |  |  |  | 0 | 1 | 1 | 1 | 3 |  |
| 3 | 26 | City of Dallas | Fair Park Communications Network | Fair Park Communications Network - This project will fund approximately 10 miles if fiber optic network and communications equipment for 64 field devices. The City requires increased communications capacity and reliability to traffic signals, DMS and cameras surrounding Fair Park to control traffic during special events. Last year Fair Park had over 170 days requiring special event management. The current CATV franchise does not allow for the capacity required to return simultaneous video images during events. | \$850,400 |  |  |  |  |  | 0 | 0 | 2 | 1 | 3 |  |
| 1 | 27 | City of Mesquite | Fiber Optic Connection with TxDOT and Traffic Signal Progression | Traffic signal progression program along Galloway Avenue from Grubb Drive to Town East Blvd along Town East Blva from Del Norte to US Highway 80. Interconnect conduit from the City's TMC to US 80 , will allow city to complete a fiber optic connection with TxDOT's DalTrans Facility. | \$1,164,112 |  |  |  |  |  | 1 | 1 | 1 | 0 | 3 | Recommend submitting through Local Air Quality Program. |
| 2 | 28 | City of Mckinney | US 75 from McKinney Ranch to Parkview; Fiber Optic Backbone | Installing fiber optic cable along US 75 (From McKinney Ranch to Parkview). The purposed project will complete our outer fiber optic backbone ring for traffic signal communications (includes conduit, 96 fiber, 1 hub cabinet, and 4 CCTV). | \$768,800 |  |  |  |  |  | 1 | 0 | 2 | 0 | 3 |  |
| 1 | 29 | City of Carrollon | Citywide Traffic Signal Uprgrades; Controller Upgrade | Replacement of traffic signal controllers with Ethernet compatible signals controller at 105 locations throughout the city and the replacement of traffic signal cabinets at 20 major intersections in the city. Ethernet compatible controllers will allow signal communications to be conducted over the citywide computer network. Cabinet upgrades are needed at major intersections to allow for additional overlap phases that will enable more efficient traffic operations at diamond intersections. | \$625,000 |  |  |  |  |  | 0 | 0 | 1 | 1 | 2 | Recommend submitting through Local Air Quality Program. |
| 2 | 30 | City of Dallas | Special Event Management | Special Event Management - Install 2 DMS and 2 overhead static signs with dynamic turn-lanes approaching AA center parking areas. Inbound traffic congestion around the AA center will be reduced using DMS to separate traffic into the correct lane on the four lane approaches to parking areas. Parking areas related to prepaid and cash change depending on the event. Outbound traffic congestion will be reduced by installing 2 overhead static signs with dynamic turn lanes to allow dual turns to freeway system. | \$388,850 |  |  |  |  |  | 0 | 0 | 1 | 1 | 2 |  |
| 1 | 31 | City of Denton | CCTV Cameras | Install CCTV cameras along major corridors at key intersections within the City. The installation of CCTV cameras at these 64 intersections will allow the City of Denton to implement an ATMS. | \$1,427,200 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |
| 4 | 32 | City of Denton | Fiber Optic Communication Lines | Install fiber optic communication lines along major corridors within the city. The installation of fiber optic lines along major corridors is the first step in connecting the transportation system to a central monitoring location. | \$685,500 |  |  |  |  |  | 0 | 0 | 1 | 1 | 2 |  |
| 5 | 33 | City of Frisco | Trafic Management Center (TMC) | The City of Frisco had dedicated office space for a traftic management center in the new public works building. The City is requesting funding for building out this center with equipment necessary to have a fully functional TMC (includes video display, communications, operator stations, computer equipment, and racks.) | \$395,000 |  |  |  |  |  | 1 | 0 | 1 | 0 | 2 |  |
| 2 | 34 | City of Frisco | Video Detection Upgrades on State Routes | The City of Frisco recently took over the maintenance and operation of 19 signals along the state routes in Frisco from TXDOT. Out of these 19 signalized intersections, 12 do not have video detection. This project includes video detection equipment installation, video server equipment and communications back to TMC | \$205,000 |  |  |  |  |  | 1 | 0 | 1 | 0 | 2 | Recommend submitting through Local Air Quality Program. |

| 3 | 35 | City of Garland | Fiber Optic Cable and Communications Equipment | Design and installation of fiber optic cable and communication equipment along additiona critical corridors to improve communications to the City's traffic signal controllers, CCTV camera, future DMS and other future ITS field devices. The new fiber optic cable plant will terminate at the Traffic Operation Center | \$2,000,000 |  |  |  |  |  | 0 | 0 | 1 | 1 | 2 |  |
| 3 | 36 | City of Grand Prairie | SH 161 Frontage Roads from Pioneer Pkwy to Dalworth; Communication Infrastructure | Communication infrastructure to connect SH 161 Frontage Road Signals to City of Grand Prairie TMC, and CCTV installations for incident management (From Pioneer Parkway to Dalworth) | \$820,291 |  |  |  |  |  | 1 | 0 | 1 | 0 | 2 |  |
| 3 | 37 | City of Grand Prairie | SH 161 Frontage Roads from Dalworth to Carrier Pkwy; Communication Intrastructure | Communication infrastructure to connect SH 161 Frontage Road Signals to City of Grand Prairie TMC, and CCTV installations for incident management (From Dalworth to Carrier Parkway) | \$858,884 |  |  |  |  |  | 1 | 0 | 1 | 0 | 2 |  |
| 3 | 38 | City of IVving | Arterial ITS Deployment | Installing and integrating CCTV systems, roadway sensors and dynamic message signs along major thoroughfares. | \$595,000 |  |  |  |  |  | 0 | 0 | 1 | 1 | 2 |  |
| 6 |  | TxDOT Dallas | IH 45 from Freestone County Line to IH 20; ITS Deployment | This project will include the installation of ITS field equipment along the entire IH 45 corridor located in the Dallas District south of IH20. Field equipment will include closed circuit television cameras, dynamic message signs, and telecommunications equipment necessary for the transmittal of video and data. A video surveillance and travel information system along this corridor will be greatly beneficial to the traveling public in the event of a natural disaster in the heavily populated Houston and Beaumont areas. IH 45 from Freestone County Line to IH 20 | \$1,923,375 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |
| 1 |  | Dallas County Utilities \& Reclamation District - Las Colinas Area Personal Transit | Restoration of Automated Operation; Phase 1 - Design Engineering and Engineering Support | Restoration of the automated operation. Phase 1 - Design engineering and engineering support will need to be accomplished prior to the development of a procurement request for various automation and station display equipment. | \$860,000 |  |  |  |  |  | 0 | 0 | 0 | 1 | 1 |  |
| 2 |  | Dallas County Utilities <br> \& Reclamation <br> District - Las Colinas <br> Area Personal <br> Transit | Restoration of Automated Operation; Phase 2 Refurbishment and Restoration of the APT | Restoration of the automated operation. Phase 2 - Refurbishment and restoration of the APT to automated operations including automatic train control \& communication system, station equipment, and station information monitors. | \$3,514,880 |  |  |  |  |  | 0 | 0 | 0 | 1 | 1 |  |
| 5 |  | City of Dallas | Adaptive Signal System | Adaptive Signal System - Installation of traffic detectors and cameras to create an adaptive signal system to measure traffic flow and implement signal timings related to time of day flow or freeway incidents. Key locations will also allow annual review of traffic growth citywide and directional travel flow profiles. | \$407,000 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 | Recommend submitting through Local Air Quality Program. |
| 2 |  | City of Frisco | Special Event Management | Special Event Management - The City of Frisco has two sporting venues and a mall area that are major traffic generators in the area. This project will design and construct two cameras near Pizza Hut Park and three near the Roughriders Stadium to monitor the inflow and outflow of traffic to these events. The video will be viewed in the TMC to adjust signal timing, detect and verify incidents, and monitor overall traffic conditions. | \$175,000 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 |  |
| 4 |  | City of Grand Prairie | Belt Line Rd and Lone Star <br> Pkwy; Dynamic Lane <br> Assignment Signal Installation | Dynamic lane assignment signal installation at Bettine Road and Lone Star Parkway intersection. Allow for dual left turns. | \$45,650 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 |  |

Total
\$62,579,326

| 1 | Regional Partners | Regional Data and Video Communication System | This project will develop a regional data and video communication system to aid in the flow of regional ITS information to partners in the DFW region. This project will include a detailed design of data and video communication system, including individual agency connections and hardware needs for the regional network. The project cost estimate below will also include funds to begin network deployment. | \$330,000 | \$297,000 | \$237,600 |  | \$59,400 | 2007 | 2 | 2 | 1 | 1 | 6 | Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 2 | TxDOT Fort Worth | CCTV-Equipped Video Trailers and DMS | This project proposes to purchase and deploy CCTV equipped video trailers and DMS to support data collection for traffic studies and support traffic monitoring for special events, up to and including disaster related evacuation. | \$120,000 | \$108,000 | \$86,400 | \$21,600 |  | 2007 | 2 | 2 | 1 | 0 | 5 | Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 3 | Regional Partners | Regional ITS Software Plug-In | ITS software plug-in will assist in automated sharing of traffic information through center-tocenter using the regional communication network. The software plug-in will have two components: data-pulling component and data-pushing component. | \$511,115 | \$988,304 | \$790,643 |  | \$197,661 | 2007-2008 | 1 | 2 | 1 | 1 | 5 | Regional center-to-center project, cost increased by -\$587,000 to incorporate center-to-center work for projects \# 5, 6 and 9 . Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 4 | TxDOT Fort Worth | Advanced Traveler Information System | This project proposes, in cooperation with concurrent center-to-center plug-in and infrastructure projects by the City of Fort Worth and the City of Arlington, to develop the center-to-center plug in and deploy the center-to-center infrastructure necessary to implement a multi-agency Advanced Traveler Information System delivering real-time information on TxDOT's freeways and both cities' major arterials. | \$1,900,000 | \$1,440,000 | \$1,152,000 | \$288,000 |  | 2008 | 1 | 2 | 1 | 1 | 5 | TXDOT reduced original project cost by $\$ 300,000$. Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 5 | City of Fort Worth | Integrated Traveler Information System | Integrated Traveler Information System: This project is arranged into three primary tasks, that together provide a comprehensive and integrated traveler information system. Pilot routes and arterial congestion map (design and implement a series of arterial routes for which flow conditions and congestion will be measured and displayed in real time), citywide roadway information system (provide an automatically updated system to tabulate and display roadway closures, incidents, and special events citywide, and center-to-center plug-in software. | \$900,000 | \$837,000 | \$669,600 |  | \$167,400 | 2007 | 1 | 1 | 1 | 1 | 4 | Cost was increased to $\$ 1,000,000$. Center-to-center portion removed from this project and grouped with regional center-to-center project \#3 (-\$70,000). Projec cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 6 | City of Arington | Center-to-Center Communication System | Center-to-Center Communication System. This project would provide software and hardware (and integration) for center-to-center communication. This would enable the City of Arlington to exchange traffic management data with TxDOT, the City of Fort Worth, City of Grand Prairie and other agencies. It will also create a new system that would enable the City to provide web based area traffic condition, such as road closures and special events, to the general public. | \$515,000 | \$178,200 | \$142,560 |  | \$35,640 | 2008 | 1 | 1 | 1 | 1 | 4 | Center-to-center portion removed from this project and grouped with regional center-to-center project \#3 $(-\$ 317,000)$. Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
| 7 |  | Mobility Assistance Patrols Western Subregion | Mobility Assistance Patrols throughout Tarrant County. | \$8,563,514 | \$4,132,000 | \$3,305,600 | \$826,400 |  | 2007-2009 | 1 | 1 | 2 | 0 | 4 | TxDOT reduced scope and cost of project by $\$ 4,431,514$. |
| 8 | TxDOT Fort Worth | IH 20 from Hulen to IH 820, IH 820 from IH 20 to IH 30 , and IH 30 from IH 820 to Bryant Irvin; ITS deployment | ITS Deployment to fill in gaps in existing system. Project includes fiber, CCTV, DMS, and rada detection. Limits include: IH 20 from Hulen to $\mathrm{IH} 820, \mathrm{IH} 820$ from IH 20 to $\mathrm{IH} 30, \mathrm{IH} 30$ from It 820 to Bryant Irvin. | \$3,600,000 | \$3,060,000 | \$2,448,000 | \$612,000 |  | 2007 | 2 | 0 | 2 | 0 | 4 | TxDOT reduced original project cost by $\$ 200,000$. TxDOT requested that this project be exchanged with project \#10. Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |

|  |  |  |  |  |  |  |  |  |  | Emphasis Area |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| 9 | City of Grapevine | Advanced Transportation Management System (ATMS) | Advanced Transportation Management System (ATMS): The project encompasses all the major arterials in the City of Grapevine. The ATMS system will provide real time network video surveillance on the major arterials in the city and will relay this real time information to the City' Traffic Operations Center (TOC). These arterials serve as alternate routes to the area freeways when the freeways experience severe congestion. | \$1,171,332 | \$765,000 | \$612,000 |  | \$153,000 | 2008 | 0 | 1 | 1 | 0 | 2 | Center-to-center portion removed from this project and grouped with regional center-to-center project \#3 ( $-\$ 200,000$ ). Project cost reduced by $10 \%$ to meet ITS Programs allocated budget. |
|  |  |  | Total Dollars Recommended | \$17,490,961 | \$11,805,504 | \$9,444,403 | \$1,748,000 | \$613,101 |  |  |  |  |  |  |  |
|  |  |  | Total Dollars Available for 2005-2009 | \$8,212,500 | \$8,212,500 | \$6,570,000 |  |  |  |  |  |  |  |  |  |
|  |  |  | Future Regional Funds (2010-2015) | - $99,278,461$ | - $\$ 3,593,004$ | - $\mathbf{2}$ 2,874,403 |  |  |  |  |  |  |  |  |  |
| 10 | TxDOT Fort Worth | SH 114 from Denton/Tarrant County Line to SH 121 and SH 121 from SH 114 to SH 183; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS and rada detection. Limits include: SH 114 from Denton C/L to SH 121 and SH 121 from SH 114 to SH 183. | \$2,900,000 |  |  |  |  | 2007 | 2 | 2 | 2 | 0 | 6 | TXDOT requested that this project be exchanged with project \#8. |
| 11 | nCTCOG | ITS Data Archiving Project (DAP) | The North Central Texas Council of Governments, the Metropolitan Planning Organization for the Dallas Fort Worth area, desires to enhance its information system for monitoring transportation system infrastructure and performance as part of the Congestion Management System. ITS Data Archiving Project (DAP) will archive traffic related information at a regional level by gathering data from multiple agencies using the center-to-center software through the regional communication network. | \$100,000 |  |  |  |  | 2006 | 1 | 1 | 1 | 1 | 4 | Project removed, NCTCOG has dollars in existing program to fund through 2009. |
| 12 | TxDOT Fort Worth | IH 35W from Alta Mesa to SH 174; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS and rada detection. Limits include: 1 HH 35 W from Altamesa to SH 174. | \$2,100,000 |  |  |  |  |  | 2 | 0 | 2 | 0 | 4 |  |
| 13 | TxDOT Fort Worth | US 287 from IH 35 W to IH 820 and US 287 from IH 20 to Johnson/Tarrant County Line; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS, and radar detection. Limits include: US 287 from IH 35 W to IH 820 and US 287 from IH 20 to Johnson/Tarrant C/L. | \$4,800,000 |  |  |  |  |  | 2 | 0 | 2 | 0 | 4 |  |
| 14 | TxDOT Fort Worth | TRANSVISION System Applications Update | This project is proposed to upgrade the TRANSVISION system applications and add support fo new technologies, such as travel times, that were not included or envisioned during the initial TMC development. | \$2,000,000 |  |  |  |  |  | 1 | 0 | 2 | 1 | 4 |  |
| 15 | TxDOT Fort Worth | IH 35W from Denton/Tarrant County Line to IH 820 North; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS and rada detection. Limits include: IH 35 W from Denton C/L to IH 820 North. | \$2,500,000 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |
| 16 | TxDOT Fort Worth | IH 820 from IH 30 to IH 35 W ; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS and rada detection. Limits include: IH 820 from IH 30 to IH 35 W . | \$4,000,000 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |
| 17 | TxDOT Fort Worth | IH 30 from IH 820 West to FM 1187 in Parker County and IH 20 from IH 820 West to IH 30 ; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS, radar detection, and weather stations. Limits include: 1 H 30 from IH 820 west to FM 1187 (Parker County), IH 20 from IH 820 west to IH 30 . | \$4,300,000 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |
| 18 | TxDOT Fort Worth | US 287 from Wise/Tarrant County Line to IH 35 W ; ITS Deployment | ITS deployment to fill in gaps and extend system. Project includes fiber, CCTV, DMS, and radar detection. Limits include: US 287 from Wise/Tarrant C/L to IH 35 W . | \$2,900,000 |  |  |  |  |  | 0 | 0 | 2 | 0 | 2 |  |

| 19 | City of Arlington | Advanced Traveler Information System | Advanced Traveler Information System. This project will use dynamic message signs at strategic locations on the City's arterial network to provide timely routing and road/lane closure information to motorists. This information will allow motorists to avoid trouble spots, thereby reducing delay and improving the level of service to our citizens. | \$600,000 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 |  |
| 20 | City of Fort Worth | Traffic Management Center Back-Up | Creation of a backup Traffic Management Center (TMC) at the City's new James Avenue Service Center. The primary tasks are to install computer, communication and video equipmer at the new service center and to arrange the area to serve as a backup to the City's TMC in downtown Fort Worth. | \$100,000 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 |  |
| 21 | City of Fort Worth | Fiber Optic Installation | Fiber installation to connect ITS devices citywide to the City's Traffic Management Center usind the recommendations from the City's ITS Communication Master Plan (CMP). The CMP recommends a Phase 1 and Phase 2 approach to support ITS communication requirements: Phase 1 will continue to use the existing low-cost coaxial/fiber-based communication system provided through the City's cable TV franchise. Phase 2 is to construct high-bandwidth fiber optic communication trunks to selected hub sites to support high-quality video and other ITS equipment. | \$1,500,000 |  |  |  |  |  | 0 | 0 | 1 | 0 | 1 |  |
| 22 | City of North Richland Hills | Rumfield Rd at Precinct Line Rd and Amundson Dr at Precinct Line Rd; Traffic Signal Improvements | Rumfield Road / Precinct Line Road intersection and Amundson Drive / Precinct Line Road intersection two new traffic signals installation. This project will also include communication synchronization of these signals with other signalized intersections in the area of Precinct Line Road. | \$206,480 |  |  |  |  |  | 0 | 0 | 0 | 0 | 0 | Recommend submitting under Local Air Quality Program. |
| 23 | City of North Richland Hills | Davis Blvd at Bursey Rd; Traffic Signal Improvements | Davis Blvd / Bursey Road intersection new traffic signal installation. This project will also include communication synchronization of these signals with other signalized intersections in the area of Precinct Line Road. | \$110,200 |  |  |  |  |  | 0 | 0 | 0 | 0 | 0 | Recommend submitting under Local Air Quality Program. |
| 24 | City of North Richland Hills | Davis Blvd at Northeast Pkwy; Traffic Signal Improvements | Davis Blvd / Northeast Parkway intersection new traffic signal installation. This project will also nclude communication synchronization of these signals with other signalized intersections in the area of Precinct Line Road. | \$110,200 |  |  |  |  |  | 0 | 0 | 0 | 0 | 0 | Recommend submitting under Local Air Quality Program. |
