Tiffany Melkoski
Management / Marketing

Daniela Pedraja
Economics

Kylie Sosa
Communications

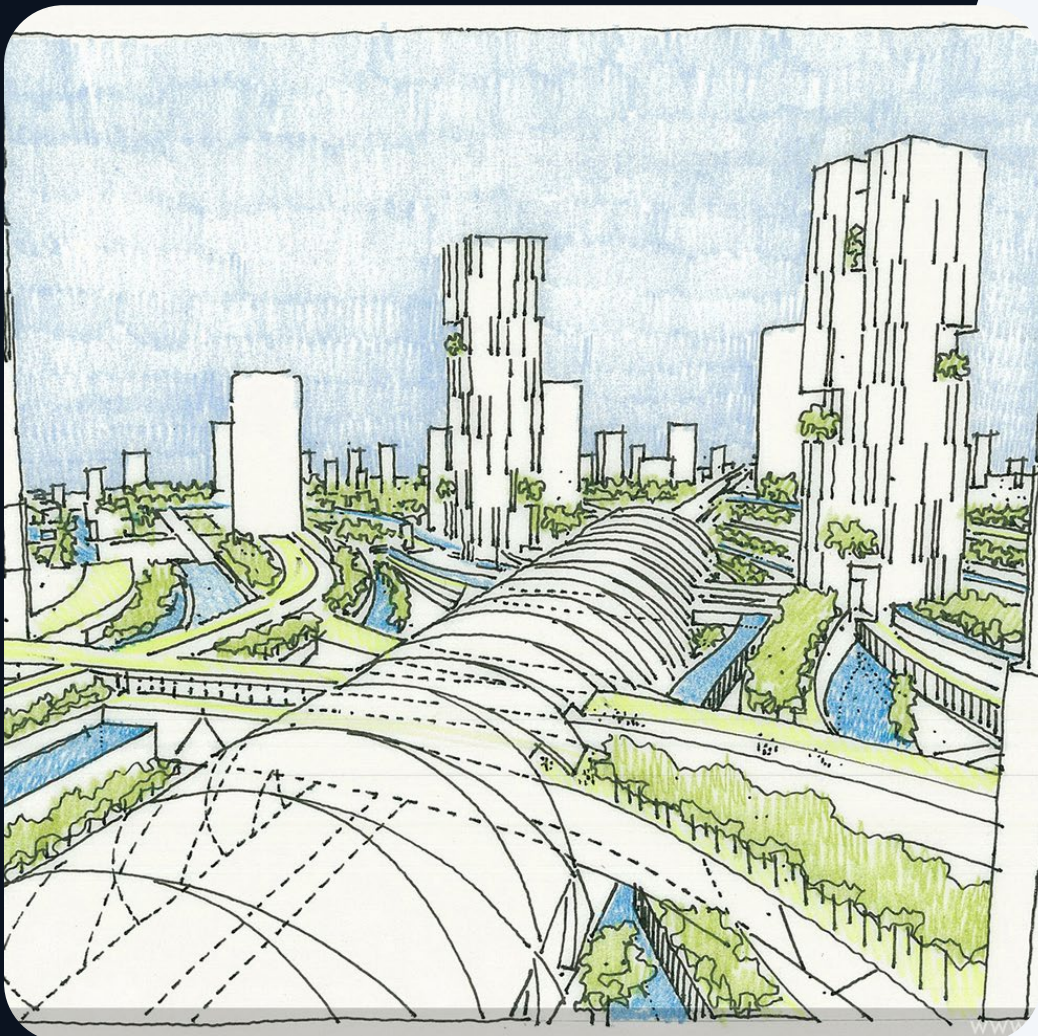

Scope of Work

UNIVERSITY OF
TEXAS
ARLINGTON

Develop an innovative outreach strategy for recruitment focused on reaching the next generation to address current and future workforce gaps in technical and field positions within public works. Design outreach with a sustainable marketing campaign to raise awareness about public works careers among students at high schools, technical colleges, and community colleges. Alongside traditional marketing best practices, students will consider incorporating user experience, user interface, video, virtual reality, augmented reality, marketing, and/or technology for effective outreach and high engagement with potential candidates interested in these fields of work.

Agenda

- Our Team
- Scope of Work
- Survey
- Paper Campaign
- Commercial Campaign
- Virtual Reality
- Q & A

Student Survey

Upon receiving feedback from the high school students, we can:

- Better understand our target demographic.
- Analyze survey results to understand trends.
- Create engaging content on students' preferred social media platform(s).
- Publicize benefits of these careers with topics that most engage and attract students.

What are your top 3 requirements for employment? *

Your answer

Has your school provided information about possible career opportunities in public works? *

☐ yes

☐ no

Are you aware of Public Work opportunities? *

☐ yes

☐ no

How will we keep the students engaged?

Print Ad Campaign

- QR Code
- Printed pamphlets highlighting career opportunities and standout employees
- Super Bowl ad

Hear Their Stories

[Insert Name Here]
started off with a career in
water maintenance. He
was able to climb up the
ranks and find a career in
management while
serving on the North

4. Bridge Asset Condition Improvement through Logical and Cost-Effective Intervention

Presented by:

Dr. Nur Yazdani, Professor, Department of Civil Engineering, UTA

North Central Texas
Council of Governments
Environment & Development

NCTCOG Bridge Asset Condition Maintenance and Improvement through Logical and Cost-Effective Intervention

Public Works Meeting: May 16, 2024

Nur Yazdani, Ph.D. P.E.

Professor, Department of Civil Engineering

Naima Zenika

Graduate Assistant, Department of Civil Engineering

UNIVERSITY OF
TEXAS
ARLINGTON

North Central Texas
Council of Governments

Outline

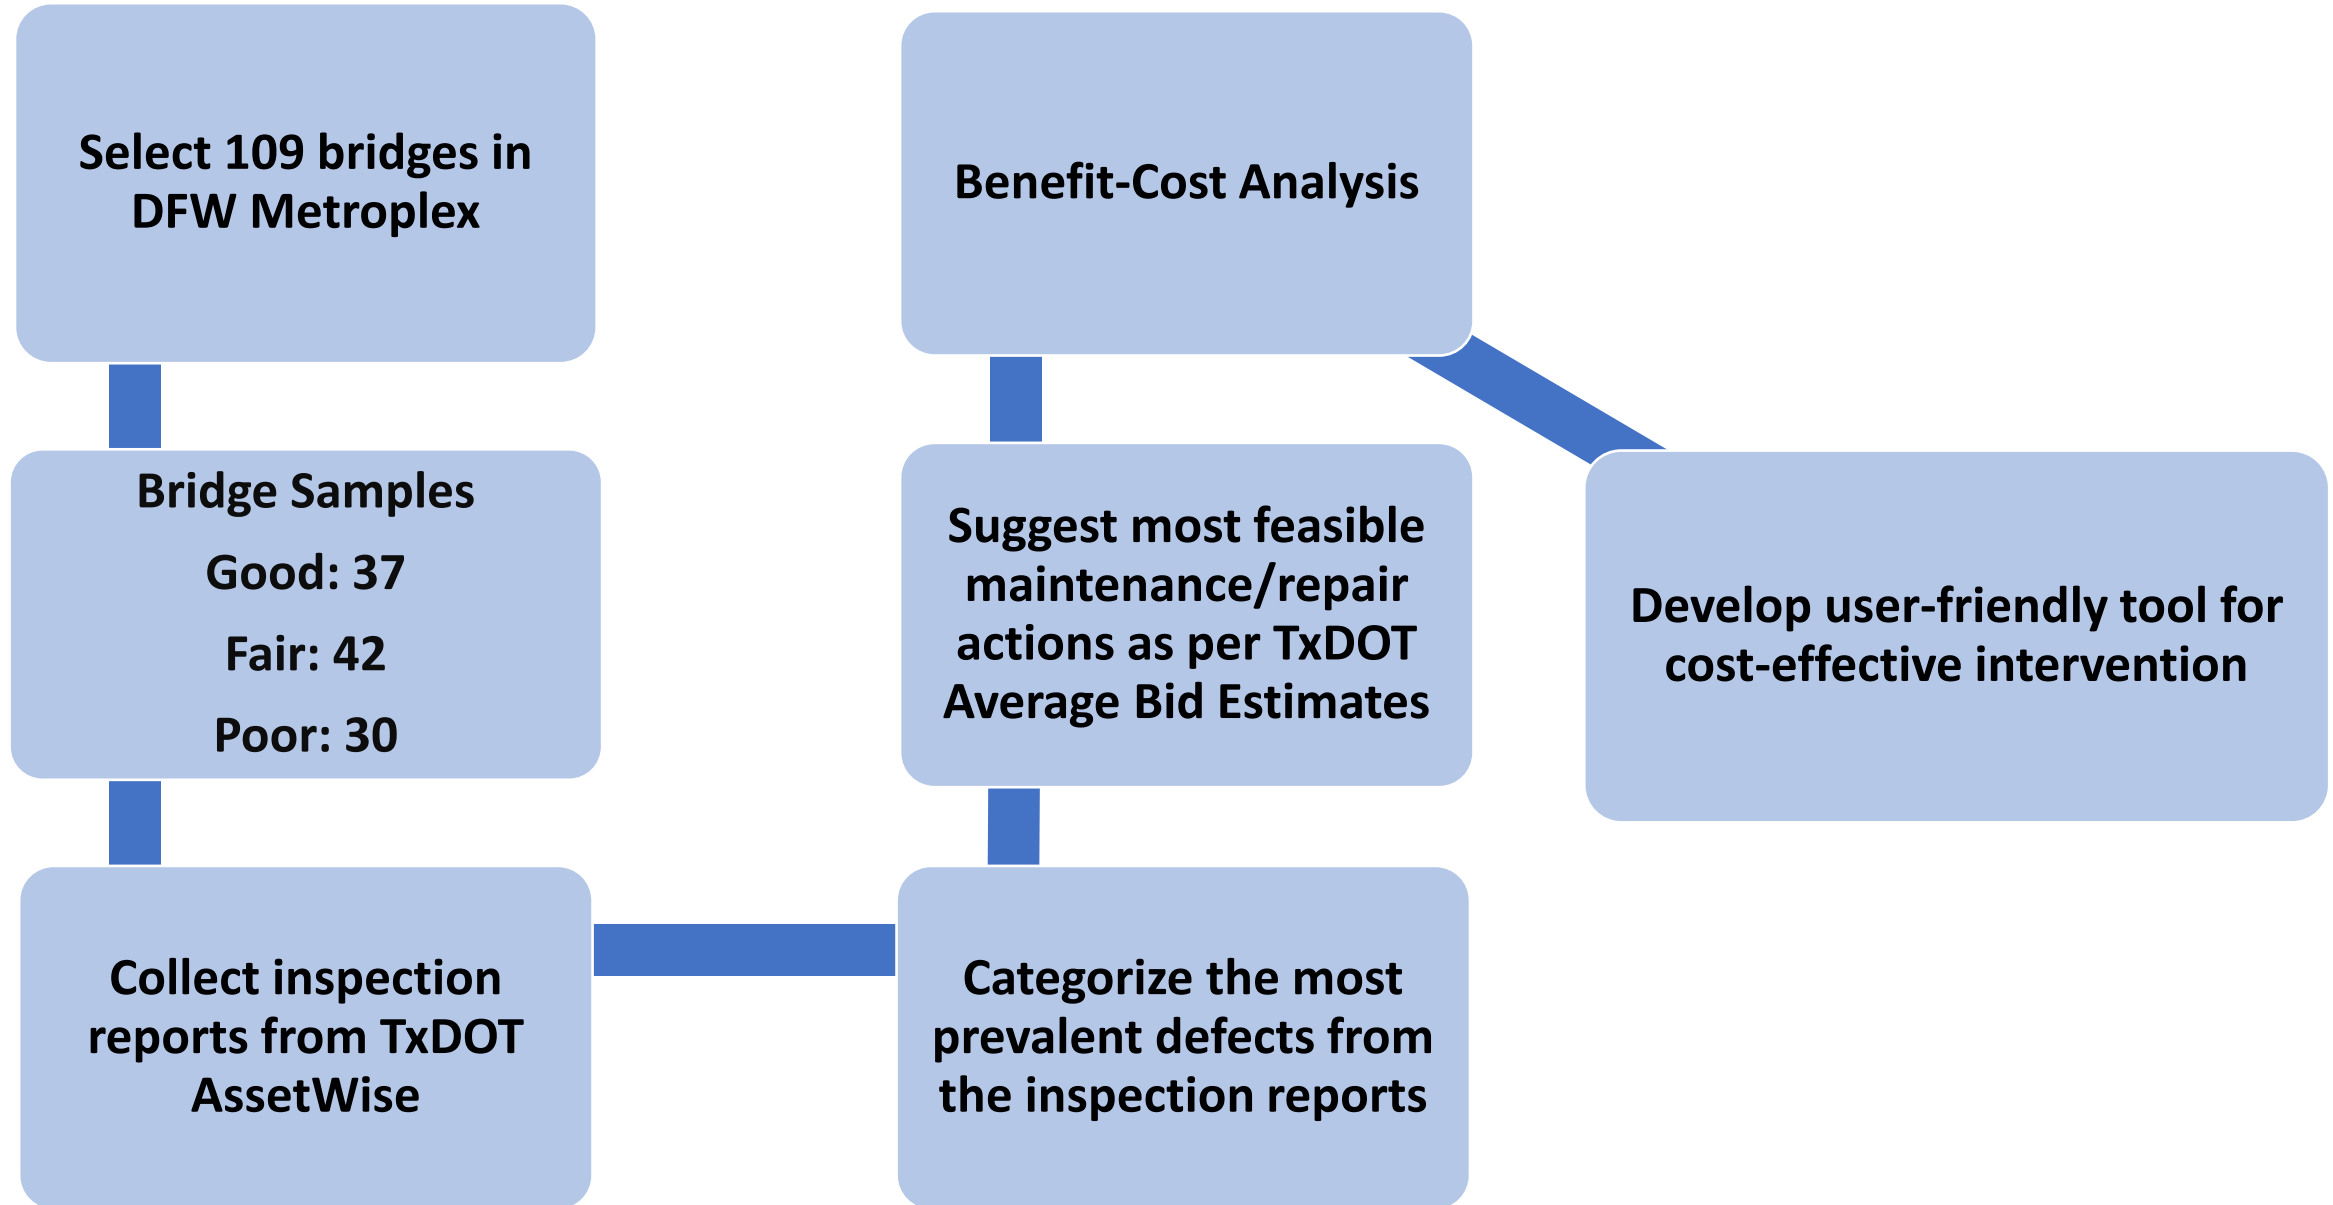

- Project Tasks
- Prevalent Defects in “Fair” Bridges
- Prevalent Defects in “Poor” Bridges
- Maintenance Actions for Repair
- Cost Analysis
- Benefit-Cost Analysis Tool

Good: NBI rating 7-9

Fair: NBI rating 5-6

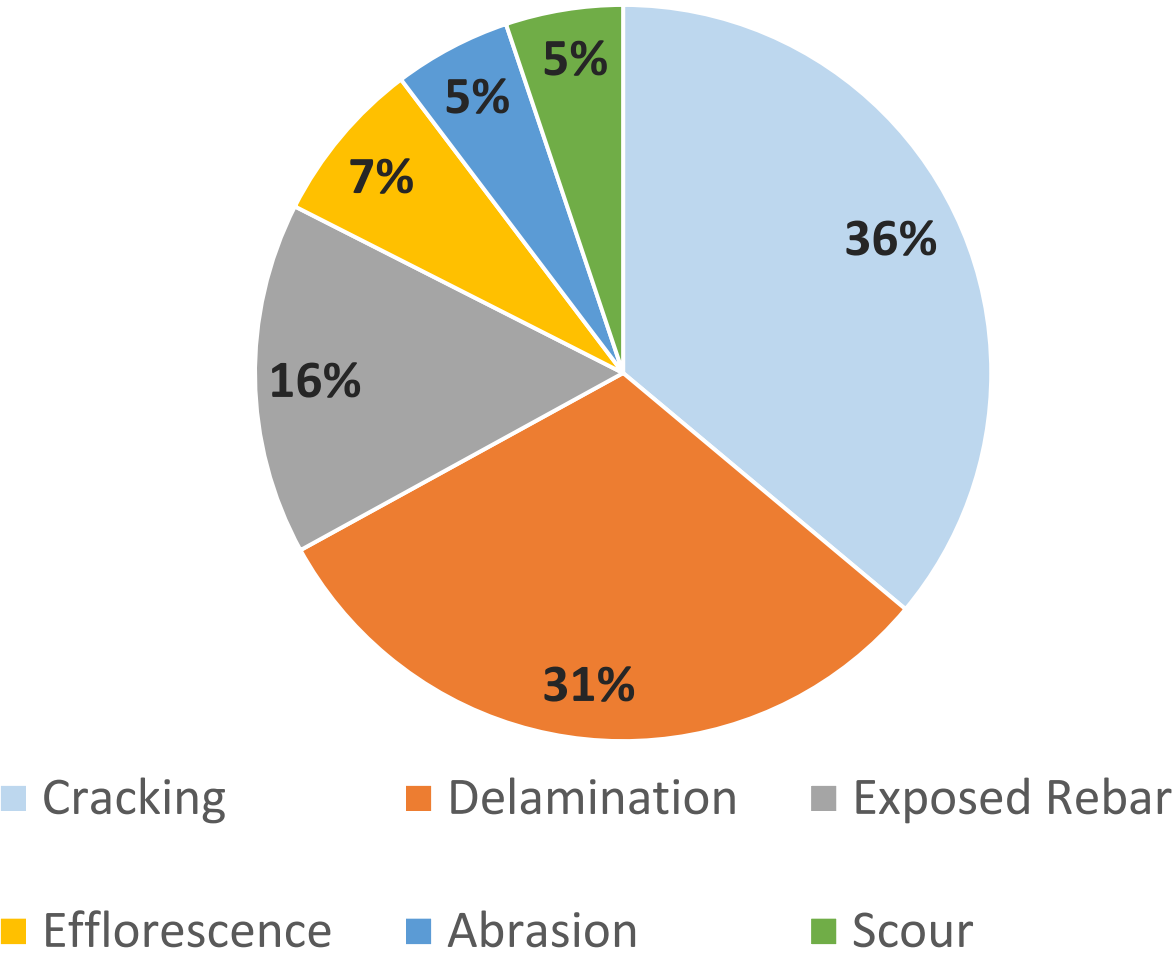

Poor: NBI rating 1-4

Project Task Flowchart

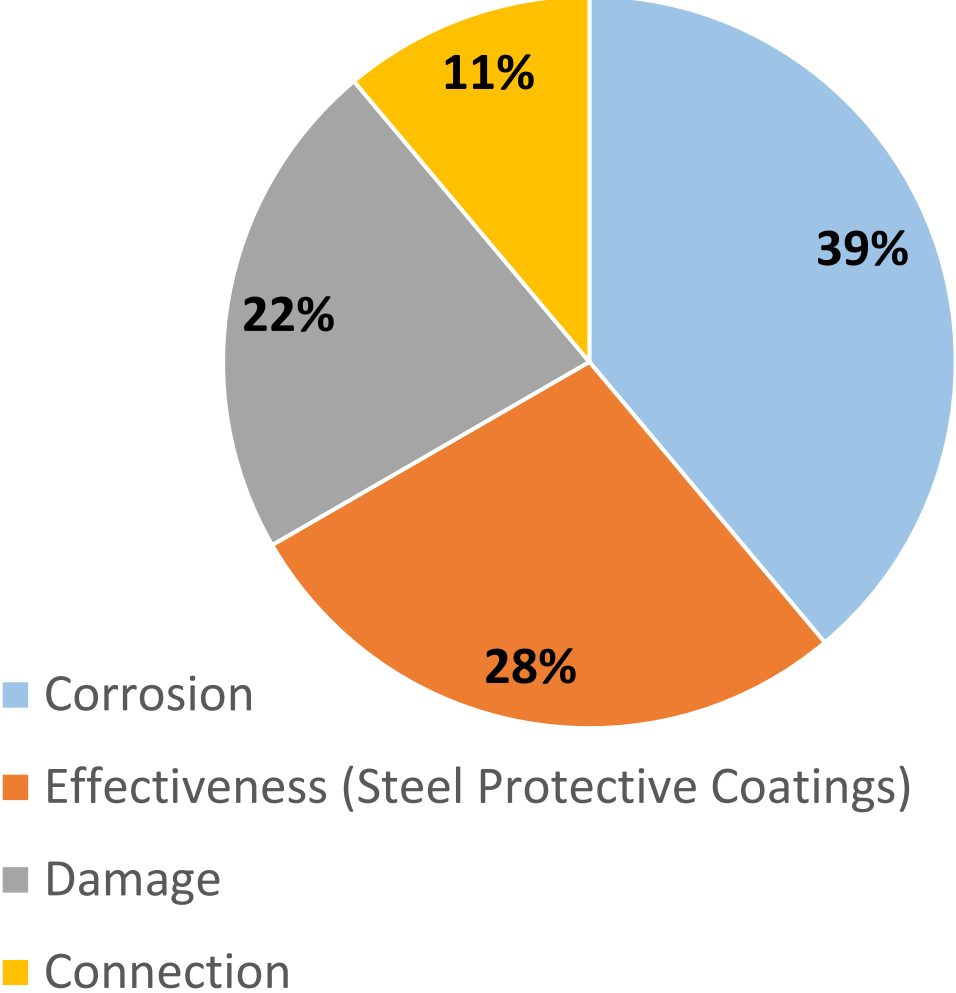

Defects in Fair Bridges (AASHTO Bridge Element Inspection Manual)

Concrete Elements

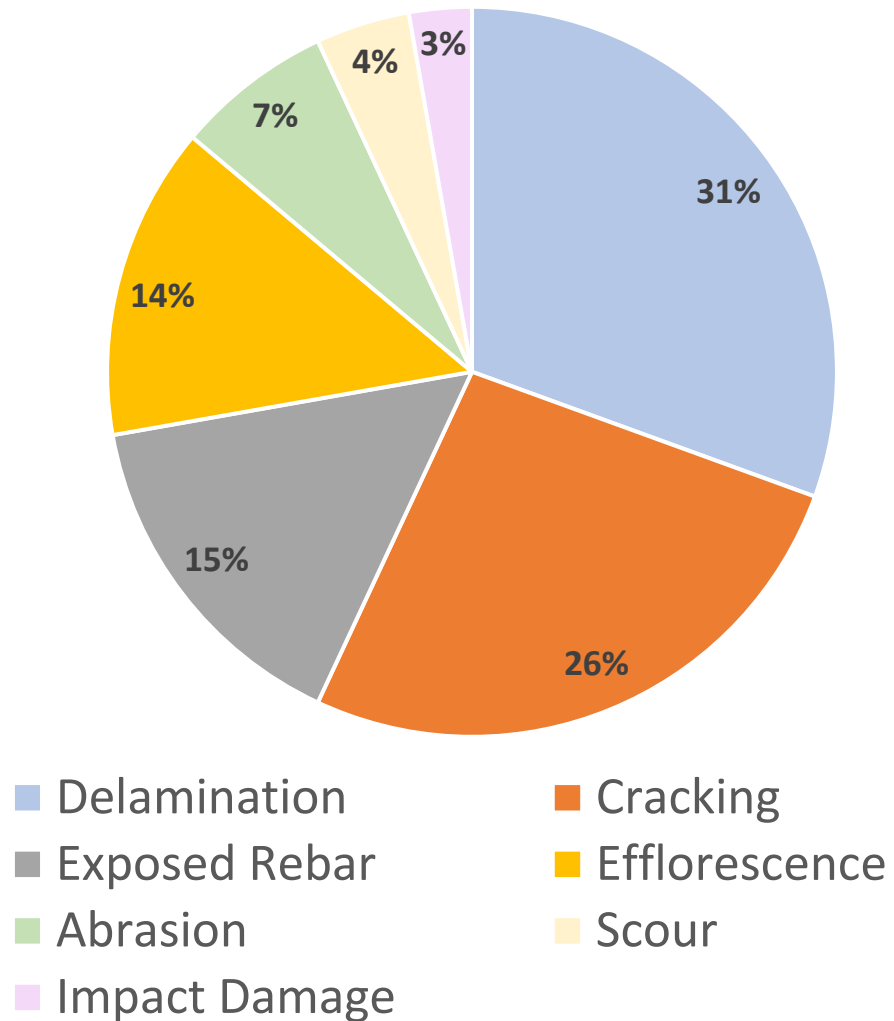

Steel Elements

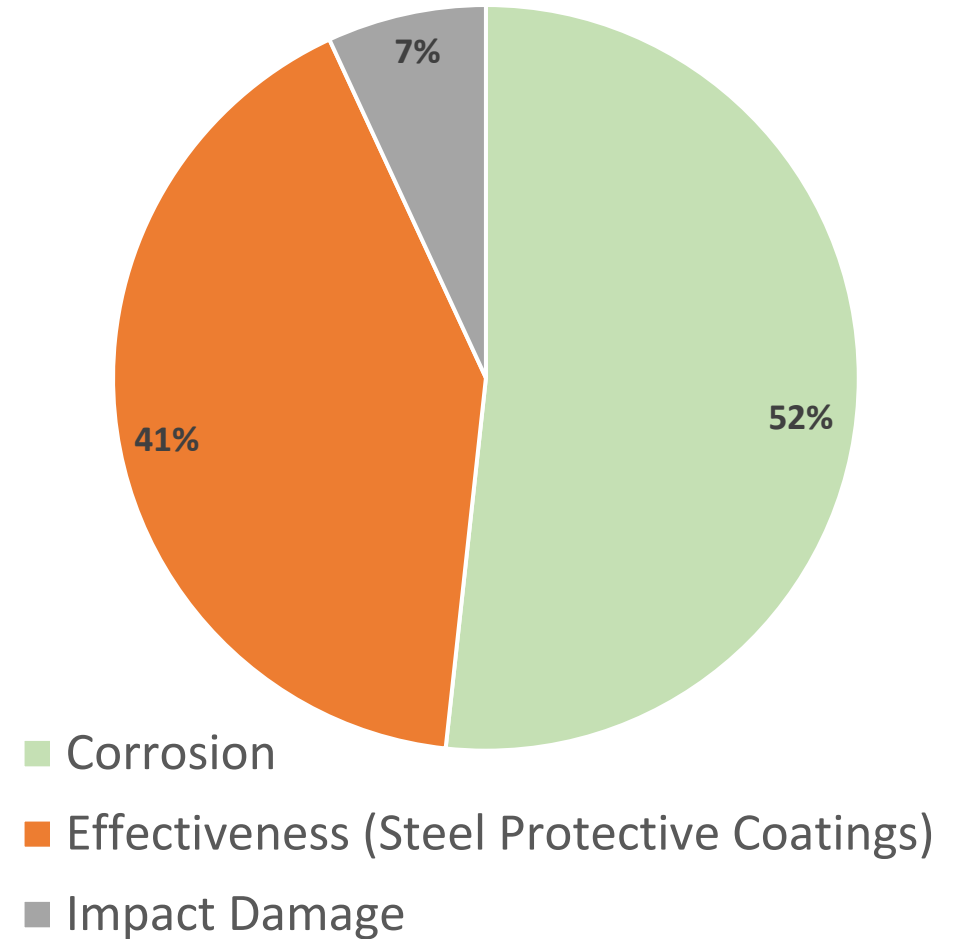

Defects in Poor Bridges

Concrete Elements

Steel Elements

Defects from Inspection Reports

Cracks

Delamination

Abrasion

Exposed Rebar

Cracking of a Fair Bridge Deck

Bridge ID: 180570000911196

- 2017 inspection report
 - Deck riding surface had cracks (~1/4" wide) along repairs.
 - Several cracks in deck soffit.
 - Deck component rating Poor.
- 2020 inspection report
 - Deck rating was still 4.
 - Had minor to moderate transverse and block cracking.
 - Most extensive in spans 5 and 6: some cracks spaced as close as 12 in.
 - Recommendation: replace deck.

Average Low Bid Unit Price for Cracking

Condition state	Defects	From TxDOT Concrete Repair Manual	Feasible Intervention From TxDOT	Bid Item No	From TxDOT Average Low Bid Estimates	Units	Avg. Bid Price \$
1	Cracking	Insignificant crack	Rout And Seal	7806004	Concrete crack repair(discrete, rout and seal methods)	LF	99
2	Cracking	Insignificant crack	Surface Seal	7806010	Concrete crack repair (discrete, surface seal methods)	LF	118
3	Cracking	Unsealed crack	Epoxy Injection	7806002	Concrete crack repair (discrete, inject methods)	LF	131
4	Cracking	Moderate Cracking	Gravity Fed Sealant	7806001	Concrete crack repair (discrete, gravity methods)	LF	52

Source: *Workbook: Bid Item Average Cost*,
tableau.txdot.gov/views/BidItemAverageCost/BidItemAvgCostDashboard?%3Aembed=y&%3AisGuestRedirectFromVizportal=y&%3Aorigin=card_share_link.

Example: Cost of Intervention for Cracking

Bridge ID :091-022200017105017 (Fair)

	Total Quantity	Units	CS1	CS2	CS3	CS4
Reinforced Concrete Abutment	106	ft.	96	10	0	0
Delamination/Spall/Patched Area	2		0	2	0	0
Cracking (RC and Other)	8		0	8	0	0

Cost for feasible solution to fix cracking (per Linear Foot)

Condition State	Defects	Feasible Intervention from TxDOT	Item No	Description	Units	Avg. Bid (\$)
2	Cracking	Epoxy Injection	7806002	Concrete Crack repair (Discrete, Inject methods)	LF	131.67

Total cost to fix cracking= \$131.67 x 8 = \$ 1053

Calculate Fields

Project Extension Ideas

Frequency of Preventative Maintenance

- Develop a preventive maintenance schedule based on the predictive models.
- Recommendations for types and scheduling of periodic inspections, maintenance, and assessment to prevent or delay the progression of defects.

Implementation of social/environmental justice as a benefit

- Consider environmental justice in the decision process, minimize displacing marginalized communities, address pollution disparities, and encourage community engagement.

Project Extension Ideas

Priority setting of bridges for rehabilitation

- Develop a prioritization framework considering the vulnerability of each bridge to climate-triggered extreme events, the consequences of failure, and the importance in the transportation network.

Comprehensive defect list and intervention strategies

- Compile a comprehensive list of common bridge defects based on historical data and expert knowledge.
- Identify effective intervention strategies for each type of defect, including repair methods and preventive measures.

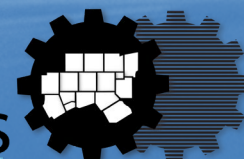

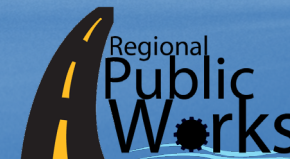

THANK YOU

5. Promotion of TXShare's Pavement Analysis Contract

Presented by:

Diane Palmer-Boeck, NCTCOG's TXShare

North Central Texas
Council of Governments
Environment & Development

The TXShare Cooperative Purchasing Program is the direct outcome of municipal governments partnering together to identify common needs for public entities across and beyond the state of Texas.

No longer must you shop cooperative programs and hope that you'll find a suitable solution to your purchasing needs, come to TXShare and let us build it, instead!

Various TXShare Opportunities

- Pavement Analysis Services
- Regional Early Flood Warning and Detection
- Water Utility Materials and Parts

SURVEY

- Street (Concrete/Asphalt) and Sidewalk Repairs
- Pump & Motor Maintenance
- Street Striping
- Street Panel Lifting
- Street Crack Sealing

- **Article Collaboration**
 - **TML: TXShare Leads Infrastructure Enhancement with Awarded Pavement Analysis Contracts**
- Joint Training and Workshops
 - Newly Awarded Contracts
 - Potential RFP's
 - Roundtable Discussions
- Shared Resources Platform
 - Potential Marketplace to your contracting needs
- Innovation Labs
 - Through research and possible RFI's
 - Provide an environment to learn/experiment with new and emerging technologies

6. Regional Public Works Draft FY25 Work Program

Draft FY25 Work Program

Continuation of:

- General regional public works activities
- Public Works Construction Standards
- Sustainable Public Rights of Way
- integrated Stormwater Management program
- Hydrologic and flooding technical assistance
- Regional training and presentation opportunities

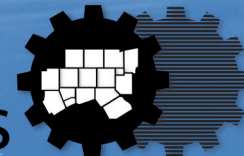

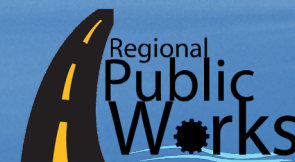

6. Regional Public Works Draft FY25 Work Program

Additional program activities for FY25:

- Labor force and career paths
- TXShare contracts
- Partnerships to explore training opportunities
- Other program activities?
