

Ready to Drive Electric

There are rebates and incentives available from the state and federal government to assist consumers with purchasing electric cars. Up to **\$10,000** can be saved on electric car* purchases by combining federal and state incentives. Learn more at www.nctcog.org/AQfunding

Federal Incentives

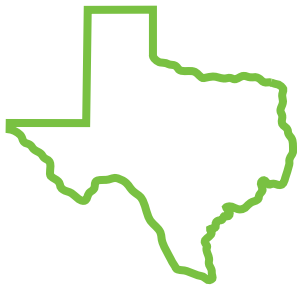

Qualified Plug-In Electric Drive Motor Vehicle Tax Credit

Individuals who purchase a qualified electric car* are eligible for up to a \$7,500, nonrefundable tax credit.

Previously Owned Clean Vehicle Tax Credit

Individuals who purchase a qualified used electric car* are eligible for up to a \$4,000, nonrefundable tax credit. The price of the used vehicle cannot exceed \$25,000.

State Incentives

Light-Duty Motor Vehicle Purchase or Lease Incentive Program (LDPLIP)

The LDPLIP can provide a \$2,500 rebate to individuals who purchase or lease a new electric car*. This rebate is available on a first-come, first-served basis starting September 1 of each odd-numbered year.

Electric Infrastructure

Alternative Fuel Infrastructure Tax Credit

Consumers who purchase qualified residential fueling equipment, such as charging infrastructure, between January 1, 2023, and December 31, 2032, may receive a tax credit of up to \$1,000.

Local Incentives

Local governments and utilities can offer incentives for purchasing electric cars and the installation of charging infrastructure! Check with your local representatives to find out if incentives are offered.

*Electric car refers to both battery electric and hydrogen fuel cell electric vehicles.

Dallas-Fort Worth (DFW) Clean Cities is a program of the North Central Texas Council of Governments and the Regional Transportation Council. For more information go to www.dfwcleancities.org.
