

iSWM Work Program Task Items for FY2026

	Task
1	Research “Cumulative Impacts” on Small Footprint Developments (continued from FY24) Research the impact of impervious cover on developments under one acre to assess cumulative drainage effects. Coordinate findings with North Texas communities and develop a memo with research and recommendations for the iSWM subcommittee and NCTCOG, incorporating feedback before finalizing. Led by Halff Associates, reviewed by NCTCOG Staff.
2	iSWM Promotional Presentation for Partnering Organizations (continued from FY25) Identify and coordinate potential promotional events with partner organizations. Develop iSWM promotional training, and presentation materials, and present at up to two events. Co-Led by Halff Associates and NCTCOG Staff.
3	Develop Technical Case Studies (continued from FY25) Continue research and develop guidance on inlet protection devices. Prepare a draft memo for iSWM subcommittee and NCTCOG review, incorporate feedback, and finalize the memo. Led by Halff Associates, reviewed by NCTCOG Staff.
4	Stormwater Quality Monitoring Program Development for Existing iSWM BMPs (continued from FY25) Identify BMPs built to iSWM criteria for monitoring and develop a BMP monitoring program based on national and regional guidance, including EPA/ASCE standards. Finalize the program document following iSWM subcommittee and NCTCOG review. Led by Halff Associates, reviewed by NCTCOG Staff.
5	Identify Short- and Long-Term iSWM Manual Updates; Implement Updates to iSWM Manuals Identify short- and long-term manual updates to be implemented based on feedback received at iSWM subcommittee meetings. Halff Associates will assist NCTCOG staff in implementing short-term updates to the iSWM manuals and provide updated materials to NCTCOG for upload.
6	Identify Short- and Long-Term iSWM Website Changes; Implement Updates to iSWM Website Identify short- and long-term website updates to be implemented based on feedback received at iSWM subcommittee meetings. NCTCOG to implement short-term updates to the iSWM website.
7.	Identify Short- and Long-Term Areas of Modernization for the iSWM program; Implement Updates to the iSWM Program Identify short- and long-term areas of modernization for the iSWM program through discussions at iSWM subcommittee meetings. Halff Associates to assist NCTCOG staff with short-term modernization of the iSWM program.
8.	Project Management NCTCOG staff will lead project management activities, including scheduling meetings, preparing materials, reviewing deliverables and coordinating with work program partners. Halff Associates will provide support services as needed, attend meetings, and assist as the existing budget allows.
