# FY25 Special Project Update

## Municipal Pollution Prevention BMP Posters Refresh - **Updated Photos.**

- Examples of feedback:
  - Leaking Vehicles - would be good to have a photo showing a vehicle leaking or a drip pan being used.
  - Clippings and Trimmings - need a photo of the mower blowing inward from the street. The stormdrain inlets also needs a new photo.
  - Washing Vehicles – the photo is a bit dark. Should include sand traps that are regularly clean due to the mud and silt entering the sanitary sewer system.
  - Street Maintenance Cleanup - update cleaning equipment and absorbent.
  - Water Main Repair - show a picture of a dewatering bag.
