  - Hosted at Halff Richardson Office on October 1, 2024
  - Approximately 40 attendees, both in-person and virtual
  - Recording and presentation slides will be posted online
- Task 3 – iSWM Implementation Guidance Panel
  - NCTCOG & Halff will host an iSWM guidance panel
  - Expected date is January – February 2025
  - Participants will include the City of Denton and City of Mansfield
- Task 4 – Research “Cumulative Impacts” on Small Footprint Developments
  - Using City of Fort Worth’s Linwood area XPSWMM model as a basis for study
  - Halff presented an example of study findings and will provide the final draft for subcommittee review following the meeting
- Task 5 – Development Submittal and Review Process Memo
  - Halff is developing the memo with the findings from the October 1 Development Submittal and Review Process

## North Central Texas Council of Governments

The FY25 Work Program Tasks include:

- Project Management and Support Services
- iSWM Implementation Guidance for Communities in Region
- iSWM Promotional Presentations for Partnering Organizations
- Stormwater Quality Monitoring Program Development for Existing iSWM BMPs
- Develop Technical Case Studies
- Website Updates
- Guidance or Training in Temporary Sediment Basins
- Guidance on Pipe Utility Crossings
- Expanded Use of Trees in Detention Ponds

Halff provided additional context on some of the FY25 tasks and requested any additional feedback.

- Guidance on Pipe Utility Crossings
  - BMPs to prevent erosion around pipe utility crossings over streams
- Stormwater Quality Monitoring of Existing iSWM BMPs
  - Creating plan for monitoring pollutant removal efficiency of several BMPs in North Texas area installed according to iSWM criteria

4. **iSWM Standard In-Comparison to Public Works Standard Drawings.** NCTCOG will present a comparison of iSWM Standards & Public Works Standard Drawings for update in FY25. (Kate Zielke – NCTCOG)

NCTCOG presented findings from a review of the Public Works Construction Standards Division 1000 and iSWM Construction Controls Standard Details.

NCTCOG reviewed iSWM drawings to see whether:

- A corresponding drawing occurred in newly amended Construction Standards
- The content of a newer drawing was revised

The review found that several drawings need to revise in the iSWM Construction Controls to align with the current Public Works Construction Standards.

After discussion, NCTCOG and the subcommittee decided to ask the Public Works Council would be able to provide any additional funding to support the update of these drawings. Additionally, NCTCOG will prepare a strategy for revisions of the drawings and develop a proposal to present to the Subcommittee at the January meeting.
