3. **FY 2021 Training.** NCTCOG staff will give updates or solicit input for FY 2020 training events.
 - a. **Advanced Dry Weather Field Screening Training.** NCTCOG staff will solicit input from the Task Force. We are looking for possible training dates, locations, and instructors. A request was made to create a list of communities that have instructed the training workshop over the past eight years. You can view that list [here](#). It was suggested that communities be assigned to instruct training. There was no strong objection to the suggestion. NCTCOG staff will reach out to communities to encourage members to assist with getting the event scheduled.
 - b. **Industrial Inspectors Workshop.** NCTCOG staff will solicit input from the Task Force. We are looking for possible training dates, locations, and instructors. Discussion on this training will take place at the July meeting. A list has been created of the past instructors for this workshop. NCTCOG staff shared that Peterbilt can not at this time commit to hosting the training due to COVID restrictions. Peterbilt requested that we check back in the summer. City of Denton representative also said he could reach out to Peterbilt to encourage a positive response.
4. **Case Study Presentation.** The City of Grand Prairie will present a case study to the group. Chandani Rana with the City of Grand Prairie gave a presentation on Sanitary Ssewer Overflow investigation. The presentation is posted to the IDDE task force page [here](#).
