MPO Milestone Policy: Round 2

The MPO Milestone Policy identifies projects funded by the Regional Transportation Council (RTC) at least 10 years ago that have not advanced to construction. Project sponsors have been asked to review these projects and confirm whether they are still interested in pursuing them. Staff will present the list of these projects along with recommendations to ensure that they are implemented in a timely manner.

End of 2020 Ozone Season, Compliance with Federal Requirements & Future Outlook

November marks the end of the 2020 ozone season for North Central Texas. Staff will present an update on current air quality standings, compare current standings against previous ozone seasons, and highlight potential implications facing the region for not meeting Federal attainment requirements. Current studies of COVID-19 on air quality will also be covered.

2020 Changes in Regional Trail & Shared Bicycle Use

Staff will provide an update and overview of changes in the use of the regional trail network, including time of day, day of week and mode share.

Regional Rail Information System

NCTCOG staff is working with regional rail partners to develop and implement a Regional Rail Information System (RRIS). This system will maximize efficiency on shared-use freight and passenger rail networks by allowing all rail agencies to exchange timely, accurate and actionable information on train movements in the region. NCTCOG will be publishing a Request for Proposals to solicit interest from potential consultants and will provide an overview of project activities to date.
