She explained that the Board authorized the contracts with the vendors in July 2021 for maximum five (5) year terms and in a cumulative amount not to exceed \$750,000 for temporary staffing services utilizing its cooperative contracts available on TXShare. The requested increase is due to higher than projected utilization for temporary staffing services, due to myriad reasons being experienced industry-wide, including but not limited to, low unemployment rate of 3.5%, high turnover, and tight job market with higher pay/flexibility in hybrid accommodations.

## North Central Texas Council of Governments

*Item 2*

*Exhibit: 2023-02-02-ED*

Meeting Date: February 23, 2023

Submitted By: Edith Marvin, P.E.  
Director, Environment & Development Department

Item Title: Resolution Authorizing Contract with Halff Associates, Inc. for the Integrated Stormwater Management Program

The North Central Texas Council of Governments serves more than 100 local governments in the region which have state stormwater discharge permits. In order to serve them effectively, NCTCOG maintains a set of *integrated* Storm Water Management (iSWM) design manuals and related materials addressing construction and post construction requirements. The iSWM program has assisted NCTCOG's local governments for more than 20 years in achieving their goals of water quality protection, streambank protection and flood control in addition to assisting communities with their stormwater discharge permits.

In 2002, the North Central Texas Council of Governments (NCTCOG) along with more than 60 local governments, developers, and engineers developed the iSWM Program to proactively address stormwater measures related to construction and post-construction minimum control measures, flooding, streambank erosion issues, and as a resource to help meet state permitting requirements. Since the release of the iSWM Manuals, NCTCOG has been promoting their adoption by cities and counties in the region. In 2014, NCTCOG, with the support of the iSWM Implementation Subcommittee and Public Works Council, developed a new implementation strategy for the use of iSWM by local governments.

The Public Works Council and iSWM Implementation Subcommittee provide oversight and policy guidance for this program, funding, and necessary updates. This subcommittee is comprised of local government and private sector professionals in the fields of public works, engineering, stormwater management, planning, and development.

The project consultant, chosen in 2016 to assist with this program, performed under a contract and contract extensions through April 2022. In order to ensure a competitive process and to continue providing projects desired by our member governments, NCTCOG initiated procurement of a professional services firm to assist with the Integrated Stormwater Management (iSWM) Projects. NCTCOG issued RFSQ #NCT-2022-018 on October 27, 2022, to receive qualified responses from engineering consulting firms. NCTCOG received one (1) response by the December 8, 2022, deadline.

The Evaluation Committee reviewed the proposal and is recommending Halff Associates, Inc. to perform the required services. This selection was recommended by the iSWM Implementation Subcommittee on January 11, 2023 to the Public Works Council and by the Public Works Council on February 16, 2023 to this Board. A draft resolution authorizing a contract with Halff Associates, Inc., for a maximum five (5) year term and in an amount not to exceed \$500,000, is attached for Executive Board consideration. The funding to perform the needed projects generally totals approximately \$80,000 annually.

I will provide a brief presentation on this item and will be available to answer any questions prior to requesting Board approval.

Item Title: Resolution Authorizing Agreements for the Receipt of Funds for Planning and Implementation Programs from the Texas Department of Transportation

The Executive Board has previously approved receipt of funding for continuation and enhancement of ongoing transportation and air quality initiatives and for new projects implemented and managed by North Central Texas Council of Governments (NCTCOG) staff. This item reaffirms previous Executive Board approvals and includes the newest Regional Transportation Council (RTC) requested projects. The resolution approving receipt of revenue and execution of necessary agreements is included in agreements with the Texas Department of Transportation (TxDOT). This item allows planning and implementation programs in the region to be administered and managed by NCTCOG that focus on efforts such as education, outreach, safety, congestion reduction, multi-modal transportation opportunities, and air quality.

The Regional Transportation Council approved the programming of funds for these projects at various times, and the approval dates are included in the attached table. In preparation for development and execution of FY2023 agreements and to advance some agreements in early FY2024/FY2025, staff requests Executive Board approval to receive approximately \$29,522,000 (\$25,939,500 STBG + \$2,510,000 CMAQ + \$445,000 RTR + \$313,750 local match, \$313,750 State match + 5,187,900 in RTC Transportation Development Credits in lieu of match). Attachment 1 contains a table detailing individual funding agreements. NCTCOG will coordinate with TxDOT to enter into agreements to receive these funds.

A draft resolution authorizing the receipt of funds for planning and implementation programs is attached for Executive Board consideration. Some redundancy will be included in the Unified Planning Work Program item later in the agenda. I will provide a brief presentation of this item and will be available to answer any questions.

Item Title: Resolution Authorizing Agreement with Swagit Productions, LLC, for Video Web Hosting Service and Equipment/Maintenance

Per Chapter 472 of the Texas Transportation Code, a metropolitan planning organization that serves one or more counties with a population of 350,000 or more is required to broadcast over the Internet live video and audio of each open meeting held by the policy board. Subsequently, the videos must be archived and made available through a web site. The North Central Texas Council of Governments (NCTCOG) has purchased equipment and has been utilizing video web hosting services for the Regional Transportation Council meetings, as well as other Transportation Department and Agency meetings. Subtask 1.02 of the Unified Planning Work Program for Regional Transportation Planning, Program Administration, supports audio and visual activities for meetings including equipment/maintenance.

The current contract for this web hosting service expires in April 2023. NCTCOG proposes to utilize a cooperative contract under The Interlocal Purchasing System (TIPS) to continue video web hosting services and equipment/maintenance for various scheduled meetings held by NCTCOG. These include the meetings of the Executive Board, Regional Transportation Council, and the Workforce Development Board. Swagit Productions, LLC has been providing this service to NCTCOG for the past several years and will be the provider under this new cooperative contract. There is no Disadvantaged Business Enterprise (DBE) participation for this project.

A draft resolution authorizing execution of an agreement with Swagit Productions, LLC to provide video web hosting service and equipment/maintenance for various scheduled meetings, in an amount not to exceed \$115,000 up to a five-year period, is attached for Executive Board consideration. The initial annual cost is \$27,633 for equipment and services, and \$14,763 annually thereafter for continuation of services. In the event that a meeting needs to be held off-site from the NCTCOG offices, a per event cost of \$1,475 will be incurred. This amount could be slightly higher depending on the venue. Funding for the video web hosting service and equipment will be provided through a combination of local funds from the Transportation, Agency Administration, and Workforce Development Departments based on usage of services. I will provide a brief presentation on this item and will be available to answer any questions prior to requesting Board approval.

Item Title: Resolution Authorizing Purchase and Placement of Education Campaigns for Transportation Initiatives in Fiscal Year 2023: Phase 2

Since January 2014, the Executive Board has approved education campaign funding annually for various transportation programs. Fiscal Year (FY) 2023 Education Campaigns for Transportation Initiatives: Phase One was brought before the Executive Board and approved in November 2022. FY2023 Education Campaigns for Transportation Initiatives: Phase Two are ready to move forward and have been included in the FY2022 and FY2023 Unified Planning Work Program (UPWP), which was approved by the Regional Transportation Council (RTC) and Executive Board.

Combining education campaign efforts within the Transportation Department has resulted in increased website traffic, greater public participation, and lower costs. Additional benefits received include efficiencies with media outlets such as improved staff coordination; increased timeliness; a broader audience reach, including historically underserved populations; and cross-program communication. FY2023 education campaigns will be taken in phases so that we can be strategic in how the North Central Texas Council of Governments (NCTCOG) staff plans and implements messages. In Phase Two, education campaigns will be in multiple languages and may be presented through out-of-home advertising, print, screen, online, audio, and social media mediums. Phase Two will support the programs listed below:

- Care Care Awareness
- Drive Aware North Texas
- Engine Off North Texas
- Freight North Texas
- HOV 2+ Incentive (GoCarma)
- Know Before You Fly
- National Drive Electric Week
- Ozone Season Emissions Reduction Campaign (Air North Texas)
- Report Smoking Vehicles
- Saving Money and Reducing Truck Emissions
- Transit COVID Recovery Campaign
- Flexible Funding for Public Involvement/Notifications

Attachment 1 contains a summary of activities and description of each of the programs. Attachment 2 contains the funding sources and amounts, including match. Staff is seeking

Executive Board approval to spend up to \$1,041,000 for the purchase and placement of department education campaigns that will initiate in FY2023 during our Phase Two approach.

Additional information and a draft resolution authorizing the purchase and placement of Transportation Department education campaigns is attached for Executive Board consideration. I will provide a brief presentation on this item and will be available to answer any questions prior to requesting Board approval.

## Summary Education Campaigns for Transportation Initiatives in Fiscal Year 2023: Phase Two

The Car Care Awareness Program aims to spread the message of proper vehicle maintenance to educate the public and give them the tools they need to be a part of the regional air quality solution by keeping their vehicles running cleanly and efficiently. NCTCOG partners with nonprofits, community organizations, chambers of commerce, and auto repair facilities at clinics, workshops, and events to educate North Texans about proper vehicle maintenance and what to do when the check engine light illuminates. NCTCOG staff provides information and resources related to keeping vehicles compliant with the State's vehicle inspection program and the importance of reducing emissions in the Dallas-Fort Worth (DFW) region. This effort will be funded with \$15,000 of Surface Transportation Block Grant Program (STBG) funds and RTC Transportation Development Credits (TDCs) in lieu of cash match.

The Drive Aware North Texas Campaign aims to provide driver safety awareness in the region. In North Texas between January to September 2020, there was an increase in fatal and serious injury crashes after the COVID-19 pandemic began. Speeding was by far the highest contributing factor for fatal and serious injury crashes. Male drivers between the ages of 18-24 were the most likely to be involved in a crash due to the speeding, and fatal and serious injury crashes in general. A regional campaign to educate young male drivers, as well as all North Texas drivers, about the importance of safe driving is integral to developing a culture of safety for shared roadways in the North Texas area. Messaging will emphasize the dangers of speeding and include other reckless road behaviors. All messaging will be aimed at educating and establishing respect between North Texas drivers. This effort will be funded with \$300,000 in STBD funds and RTC TDCs in lieu of cash match.

The Engine Off North Texas Campaign aims to provide outreach to enhance effectiveness of anti-idling efforts, which will help minimize the region's pollution related to mobile sources. This effort will be funded with \$21,000 in STBG funds and RTC TDCs in lieu of cash match.

The Freight North Texas Campaign aims to educate audiences on safety related to freight vehicles and railroad crossings and how to operate around these vehicles and infrastructure, as well as freight drivers to watch out for other motorists. This effort will be funded with \$150,000 in STBG funds and RTC TDCs in lieu of cash match.

The HOV 2+ Incentive Program promotes carpool discounts with GoCarma, which rewards HOV 2+ drivers on tolled managed lanes in the region during weekday peak periods. Messages will encourage users of those tolled managed corridors to carpool and receive rewards through the program. This effort will be funded with \$160,000 in STBG funds and \$40,000 in match funds from the Texas Department of Transportation (TxDOT) for a total project cost of \$200,000.

The Know Before You Fly Campaign provides education to the general public and Unmanned Aircraft Systems (UAS) recreational and commercial operators to promote UAS applications, careers, and safe use within the region. This effort will be funded with \$10,000 in RTC Local funds.

The National Drive Electric Week event is an outreach opportunity to educate attendees on vehicle technologies that aim to reduce vehicular emissions. Attendees get to speak with electric vehicle owners and vendors and see the latest technologies. The event held in the

Dallas-Fort Worth region is one of the largest events held for this effort annually. The outreach for this effort will be funded with \$10,000 in STBG funds and RTC TDCs in lieu of cash match.

The Ozone Season Emissions Reduction Campaign promotes transportation-related clean air strategies and activities in the Dallas-Fort Worth nonattainment area. Air North Texas is the ozone season emission reduction campaign and partnership that promotes a consistent and comprehensive message about the importance of clean air and is a resource for clean air issues and hosts an annual Clean Air Action Day to encourage North Texas to do at least one thing to improve air quality. This effort will be funded with \$205,000 in Congestion Mitigation and Air Quality Improvement Program (CMAQ) funds and RTC TDCs in lieu of cash match.

The Report Smoking Vehicles Program is designed to inform vehicle owners their vehicle may be creating excessive smoke and emitting pollutants, which are harmful to our health and environment, and on ways to fix their vehicle. This effort will be funded with \$15,000 in STBG funds and RTC TDCs in lieu of cash match.

The Saving Money and Reducing Truck Emissions Program aims to provide outreach to small to medium sized trucking fleets and heavy-duty truck owners/operators on strategies focused on fuel savings and emissions reducing strategies. This effort will be promoting a series of webinars offered to this audience that address common interest topics in the trucking industry. This effort will be funded with \$5,000 in STBG funds and RTC TDCs in lieu of cash match.

The Transit COVID Recovery Campaign aims to educate North Texans that the transit agencies are here to serve riders as the riders are ready to come back to using transit or riding for the first time since North Texas' public transit experienced a significant decline in ridership during the COVID-19 pandemic. Transit is a good alternative to driving alone to work and can lower the amount you spend on gas and vehicle maintenance. Taking transit allows you to avoid the stress of driving and fighting traffic congestion by leaving the driving to the transits. Whether by bus, rail or rideshare, Dallas Area Rapid Transit, Denton County Transit Authority, and Trinity Metro are prepared to serve the needs of the North Texas Region and to get riders where they need to go. This effort will be targeted to Limited English Populations in transit service areas. This effort will be funded with \$100,000 in CMAQ funds and RTC TDCs in lieu of cash match.

The Flexible Funding Category is for Public Involvement/Notifications only if additional needs are not funded and approved under Phase One, in November 2022, should arise. Public Involvement, which focuses on notifications of public input/meetings, aims to provide reasonable opportunities for the public to learn about and comment on the region's transportation plans according to requirements of the Infrastructure Investment and Jobs Act. Funds in the amount of \$10,000 allocated for this category will be determined based on the program needing the support, but the majority of our funding for these efforts will come from Transportations Planning Funds (TPF), CMAQ, STBG, and TDCs utilized in lieu of match. Also, funding could potentially come from RTR and Regional Transportation Council Local Funds. All funding used is supported within the FY2022 and FY2023 UPWP.

Item Title: Resolution Approving Modifications to the FY2022 and FY2023 Unified Planning Work Program for Regional Transportation Planning

The Unified Planning Work Program for Regional Transportation Planning (UPWP) is required by federal and State transportation planning regulations. This document provides a summary of the transportation and related air quality planning tasks to be conducted by Metropolitan Planning Organization (MPO) staff over a two-year period and identifies associated funding. The FY2022 and FY2023 UPWP was approved by the Regional Transportation Council and NCTCOG Executive Board in July 2021 and identifies the activities to be carried out between October 1, 2021, and September 30, 2023.

Listed below are proposed modifications to the FY2022 and FY2023 UPWP. Included in these amendments are a project scope update, two funding adjustments, and the creation of a new UPWP chapter to reflect transportation projects that are expected to be initiated by NCTCOG in FY2024 through FY2026. The projects in this new chapter have been approved by the Regional Transportation Council (RTC) for inclusion in the Transportation Improvement Program (TIP) and are outside of the timeframe of the current Work Program. The intent to reference these RTC-approved FY2024 through FY2026 projects now in the current FY2022 and FY2023 UPWP is to aid in the federal consistency review of the Transportation Improvement Program with the Unified Planning Work Program. The Regional Transportation Council approved the proposed modifications at its February 9, 2023, meeting.

**The following modification reflects a new initiative proposed for inclusion in the Unified Planning Work Program that has not yet been approved by the Executive Board:**

- X. NCTCOG Planning and Implementation Activities Beyond the FY2022 and FY2023 Unified Planning Work Program (add new chapter to reflect NCTCOG-implemented transportation projects for FY2024 through FY2026 approved by the Regional Transportation Council for inclusion in the Transportation Improvement Program)

**The following modifications affect existing projects for which text updates and/or financial adjustments are being proposed:**

- 5.08 Roadway and Railroad Safety – Transportation Safety Planning (add \$50,000 State Planning and Research funds and update text to reflect the development of an inventory and coordination of safety activities across the region, and the provision of a report on implemented activities to the Texas Department of Transportation)

3.03 Air Quality Management and Operations – Regional Energy Management (add \$100,000 Department of Energy funds and \$20,000 Regional Transportation Council Local funds to reflect receipt of a grant award to continue work activities)

Additional information and a draft resolution authorizing approval of the proposed UPWP modifications are attached for Executive Board consideration. Staff will provide a brief presentation on this item and be available to answer any questions prior to requesting Board approval.

Item Title: Resolution Appointing a Legislator as an Ex-Officio Member of the North Central Texas Council of Governments Executive Board

House Bill 2160 became law after the 82nd Session of the State Legislature. It requires Councils of Governments to offer an ex-officio, non-voting seat on each of their Executive Boards to a member of the legislature whose district is located wholly or partly within their region. The Executive Board, by resolution in January 2013, specified the process for choosing a legislator to fill this seat which includes transmitting letters to each of the eligible legislators asking them to acknowledge their interest in holding this seat, with the understanding that they will be placed in a lottery to assure an impartial selection. NCTCOG transmitted the letters and received ten (10) replies of interest. The lottery will be conducted when this item is considered, and the legislator chosen in this lottery will be appointed by a resolution of the Board to hold this seat through January 31, 2025. A listing of the legislators who expressed an interest in this seat is as follows:

Senators:

Senator Nathan Johnson  
Senator Drew Springer

Representatives:

Representative Yvonne Davis  
Representative Salman Bhojani  
Representative Glenn Rogers  
Representative Venton Jones  
Representative Terry Meza  
Representative Richard Hayes  
Representative Victoria Neave  
Representative Kronda Thimesch

**North Central Texas Council of Governments  
Executive Board Member Attendance Policy**

**Section 1.**

The North Central Texas Council of Governments (NCTCOG) Executive Board has historically conducted its meetings in-person at the NCTCOG business offices in Arlington, Texas. However, as a governmental body that extends into three or more counties, it is permitted to conduct open or closed meetings by videoconference call under Texas Government Code Section 551.127(c). The Executive Board continues to encourage in-person attendance but wishes to provide limited opportunity to members to participate remotely via videoconference call.

A member of the Executive Board may participate remotely via videoconference call no more than two (2) times per calendar year. Participation via videoconference call in excess of this limit will not be permitted and in such instance the member will be counted as absent with no opportunity to vote.

Notwithstanding anything to the contrary herein, NCTCOG reserves the right to conduct any open or closed meetings via videoconference call in the event business needs require. In these instances, all members are permitted to participate remotely via videoconference call, except the presiding officer, and it will not count toward the limit identified in the paragraph above.

**Section 2.**

An Executive Board member must be in attendance for at least seventy-five percent (75%) of the scheduled items on the posted agenda for a meeting in order to be recorded as present for that meeting.
