Conference ID: 561 041 062#

Chair: Wayne Owen, Tarrant Regional Water District Vice-Chair: Glenn Clingenpeel, Trinity River Authority

- 1. Welcome and Introductions.
- 2. Service Recognition, Farewell, and Best Wishes to Chair of Water Resources Council, Wayne Owen. Wayne Owen, Planning Director, Tarrant Regional Water District, will be recognized and thanked for his 27 years of dedicated service to the Water Resources Council and years of dedicated service to NCTCOG overall on regional, collaborative planning. The WRC and NCTCOG thank him for his support, valuable input, and direction.

Wayne Owen stepped down as both a member of the WRC and as Chair. WRC members thanked him for his service and leadership. Per the WRC by-laws, Glenn Clingenpeel, Vice-Chair of the WRC, agreed to step into the role of Chair and finish Wayne's current term as Chair, which expires on September 30, 2021.

### **ACTION ITEMS**

3. Meeting Summary. The January 13, 2021 meeting summary will be presented for approval.

Greg Dickens, City of Hurst, made a motion to approve the January 13, 2021 meeting summary. Stacy Walters, City of Fort Worth, seconded the motion. The motion passed unanimously.

4. Vote on Nominations for Vice-Chair Vacancy. Nominees for Vice-Chair will be presented to the WRC for approval. There is a vacancy in the position of Vice-Chair on the WRC because the current Vice-Chair will be stepping into the Chair position and serving out the remainder of the outgoing Chair's term. The current terms for both the Chair and Vice-Chair positions expire on September 30, 2021.

NCTCOG received one nomination for the new vacancy in the WRC Vice-Chair position: Stacy Walters, City of Fort Worth. Stacy accepted the nomination to serve out Glenn Clingenpeel's

term as Vice-Chair, which also expires on September 30, 2021. Wayne Owen made a motion to appoint Stacy Walters as Vice-Chair of the WRC. Sally Wright, City of Dallas, seconded the motion. The motion passed unanimously.

#### DISCUSSION

**5. Greenhouse Gas Emissions Inventory.** Jenny Narvaez, Transportation Department, NCTCOG, will provide an update on efforts to estimate greenhouse gas emissions for the region, including emissions from wastewater treatment plants.

This agenda item was moved up earlier in the meeting. Jenny Narvaez provided an overview of efforts underway through the North Texas RISE (Regional Integration of Sustainability Efforts) Coalition to estimate greenhouse gas emissions for the water, wastewater, solid waste, and energy sectors in the region. NCTCOG will be examining existing data and reaching out to cities and special districts to fill any gaps in the data. For more information, contact Jenny Narvaez at inarvaez@nctcog.org.

**6. 87**<sup>th</sup> **Texas Legislative Session.** NCTCOG will provide an update on bills of interest. WRC members are also asked to share bills of interest that may have been overlooked.

The bills NCTCOG reviewed can be found in the presentation slides. The full water quality legislative matrix from the 87th Legislative session, compiled by NCTCOG staff, can be found <a href="https://example.com/here">here</a>. WRC members did not discuss any additional bills but did spend time discussing SB 905, which requires TCEQ to develop and make available to the public a regulatory guidance manual to explain rules that apply to direct potable reuse. More information on SB 905 can be found <a href="https://example.com/here">here</a>. Trinity River Authority has been involved in adding substitute language to this bill. Wayne Owen, Chair of the WRC, noted that even though SB 905 does not apply to indirect reuse, interested parties in indirect reuse are following this bill.

**7. 2021 Water Resources Questionnaire Results.** NCTCOG will review the results of the annual questionnaire, which closed on March 8, 2021.

Over 100 responses were received on NCTCOG's annual water resources questionnaire. The results showed that the top concern among respondents is aging water infrastructure followed by urban stormwater runoff and drinking water quality. About 80% of respondents engage in water-related outreach efforts and about 60% noted that those efforts were impacted by COVID-19. More detailed survey results can be found in the presentation slides.

**8. 2021 Update to the North Central Texas Water Quality Management Plan.** NCTCOG will provide an update on the draft deliverable.

The draft of the 2021 Update to the Water Quality Management Plan will be available for public comment in late May. The WRC will vote to recommend the WQMP for approval by the Executive Board at the next meeting.
