

Appendix D

Environmental Clearance and Out-Year Projects

Appendix D contains a list of projects that are not planned for construction within the four-year time frame of the TIP, but are referenced in the current Transportation Improvement Program in order to allow engineering, feasibility, environmental clearance or other pre-construction/project development efforts to continue.

Please note that most of these projects are preliminary and do not represent any commitment of construction funding, but strictly intended to pursue environmental clearance and early project development activities. Consistency with the Mobility Plan will be reexamined as alternatives are explored in these studies and environmental clearance efforts.
