### 1. **Welcome and Introductions.**

## **DISCUSSION**

2. **Municipal Pollution Prevention Mock Self-Inspections/Site Tours.** The Task Force discusses potential site tour locations.

The group did not provide any suggestions for site tour locations. NCTCOG staff asked the DFW Airport if that would not be a possible location but due to safety restrictions.

Howard Redfearn gave an overview of the tour in Mansfield so that the task force could get an idea of what a site tour consists of.

3. **FY16 Project Discussion.** The group continues its discussion on the development of a training module geared toward Water Utilities/Public Works regarding water main breaks, sewer overflows, or other discharges.

NCTCOG staff informed the group that the videos are finalized and will be sent out so that they can be used for training. Staff also informed the group that the learning management system is available and the videos with questions and answers will be created.

NCTCOG also stated that there will be other stormwater trainings available for use the members of the group.

4. **FY17 Project Discussion.** The group reviews the content of the "Preventing Stormwater Pollution: What We Can Do" videos.

5. **FY18 Project Approval.** The group approves the continuation of updating the video series.
