Transportation Conformity Determination for the Mobility 2045 Metropolitan Transportation Plan (MTP) and 2019-2022 Transportation Improvement Program (TIP)

Mr. James M. Bass, Executive Director
Texas Department of Transportation
125 E. 11th Street
Austin, TX 78701-2483

Dear Mr. Bass

We have reviewed the documentation supporting the transportation conformity determination for the Mobility 2045 Metropolitan Transportation Plan (MTP) and 2019-2022 Transportation Improvement Program (TIP) adopted by the D/ FW MPO’s Regional Transportation Council (Policy Board) on June 14, 2018. Based upon our review and consultation with the U.S. Environmental Protection Agency (EPA), the Texas Commission on Environmental Quality (TCEQ), and the Texas Department of Transportation (TxDOT), we hereby find:

- that the Mobility 2045 MTP and 2019-2022 TIP meet all the requirements for making a joint conformity determination under the Clean Air Act Amendments of 1990.

Additionally, we find

- that the Mobility 2045 MTP satisfactorily complies with the requirements of 23 CFR §450.324 regarding the development and content of metropolitan transportation plans in air quality non-attainment areas; and

- that the 2019-2022 TIP satisfactorily complies with the requirements of 23 CFR §450.326 regarding the development and content of transportation improvement programs in air quality non-attainment areas.

The interagency consultative partners have indicated that they have no unresolved issues concerning this conformity determination in their letters dated: November 16, 2018 for TxDOT, November 19, 2018 for TCEQ and November 16, 2018 for EPA. The conformity determination and procedures used to make this determination are in accordance with the provisions of the transportation conformity rule (40 CFR Parts 51 and 93), dated August 15, 1997, as amended.
This action

- restarts the four-year time clock associated with the update of the MTP. Accordingly, an updated MTP and corresponding transportation conformity determination will be required by November 21, 2022;

- satisfies the requirement that transportation conformity be determined within two years of the effective date of EPA’s adequacy determination of motor vehicle emissions budgets for transportation conformity purposes (November 23, 2016);

- satisfies the requirement that transportation conformity be determined within one year of the effective date of EPA’s non-attainment area designation in accordance with the 2015 8-hour ozone standard (August 3, 2018); and

- addresses transportation conformity in accordance with the 2008 8-hour ozone standard.

The Federal Highway Administration (FHWA) acts as executive agent for the Federal Transit Administration (FTA) on metropolitan transportation plan and transportation improvement program air quality conformity determinations. Accordingly, this letter will serve as a joint FHWA/FTA conformity determination.
