# ABOUT ME

# WHY WE SHOULD TEACH GIS

- It's easy
- It's important
- It gives you input on how the work is done
- It saves you time  
(assuming you're the go-to GIS person)
- It helps build a community of practice
- It's going to help you as a practitioner

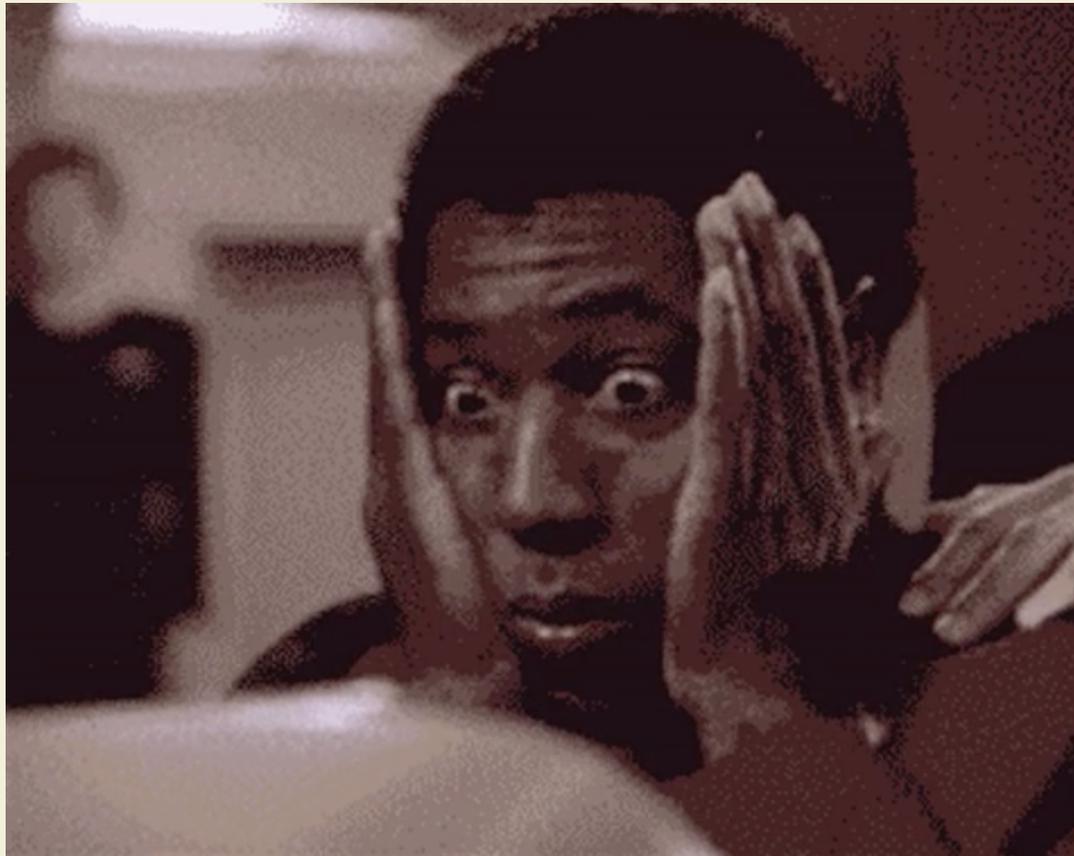

# TEACHING GIS (CIRCA 2007)

# BE INTENTIONAL WITH THE ENVIRONMENT YOU CREATE

# PRESENT IDEAS ONLY WHEN THEY'RE NEEDED

# PRESENT IDEAS ONLY WHEN THEY'RE NEEDED (AND IN THE RIGHT SEQUENCE)

# MAKE THE EXPERIENCE REAL(-ISH)

# MAKE A MAP AS QUICKLY AS POSSIBLE

# OTHER KEY PRINCIPLES

- Focus on process, not product
- Show them what you're doing before you do it
- Let them make the exercise their own

**TEACH THEM HOW TO LEARN  
BY SHOWING THEM HOW YOU LEARN**
