

TOTAL MAXIMUM DAILY LOAD 2024 ANNUAL PROGRAM SUMMARY

Strategy 1.3: Regional Participation in Fats, Oils, and Grease Program

The Wastewater and Treatment Education Roundtable hosted the 11th Annual Holiday Grease Roundup, with 52 participants and 61 drop off locations. Participants collected over 9,000 gallons of grease!

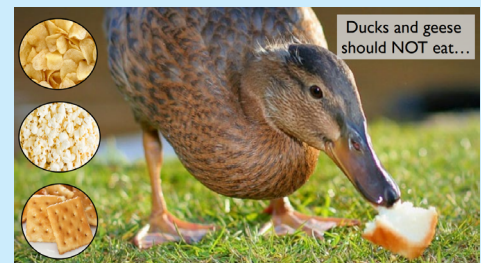

Strategy 2.1: Local Supplemental Environmental Projects

Hosted and facilitated the Supplemental Environmental Projects Webinar, which had 24 attendees. A copy of the presentation is available online [here](#). A recording of the presentation is available [here](#).

Strategy 4.3: Avian Management Plan

Hosted and facilitated the Avian Management & Water Quality Webinar, which had 22 attendees. A copy of the presentation is available online. A recording of the presentation is available [here](#).

Strategy 9.0: Implementation Strategy Evaluation

NCTCOG began preparing for the evaluation of the Implementation Plan Strategies and forming strategy specific task forces that will meet throughout 2025 to evaluate, revise, and update the I-Plan strategies.

For questions or additional information, please contact Casey Cannon at ccannon@nctcog.org or (817) 608-2313.

The North Central Texas Council of Governments is working with stakeholders to implement best management practices to address and prevent bacteria TMDLs in the North Central Texas region. To view the current Implementation Plan, or to utilize available resources, please visit www.nctcog.org/TMDL.

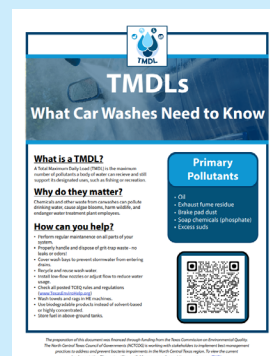

This annual program summary was prepared in cooperation with the Texas Commission on Environmental Quality.

Strategy 7.1: Education & Outreach

SSO Stakeholder Slides are customized to support different branding used by stakeholders. The information on the slides is informative and concise. There is support for every community's objective to implement better water practices.

TMDL Wastewater Educational Flyer highlights practical ways to prevent hazardous materials from compromising our septic systems. These are targeted towards community members to empower them to conserve water. These efforts are a win for all parties involved and promote community engagement and sustainability.

TMDL Wastewater Educational Flyer for Car Washes, Daycares, Restaurants, and Senior Living Center provides information for restaurants, car washes, senior living centers, and day care facilities to help workers understand what TMDLs are, why they matter, and primary pollutants of concern for their business.

Other Highlights:

NCTCOG hosted two Upper Trinity River Basin Coordinating Committee meetings to provide a forum for watershed coordinators to communicate regarding current activities and ongoing efforts in the NCTCOG region.

NCTCOG hosted one TMDL Coordination Committee meeting to give program updates, discuss upcoming projects and share information regarding future plans for the TMDL initiative.

NCTCOG facilitated meetings with the TMDL Stormwater, Wastewater, and Monitoring Technical Subcommittees to plan and coordinate projects focused on reducing bacteria loading.
