refinements

Program and
policy updates

Builds upon
performance-
based planning
framework

Launching virtual
public involvement
tools

MAP YOUR EXPERIENCE

www.nctcog.org/mapyourexperience

Available in English and Spanish

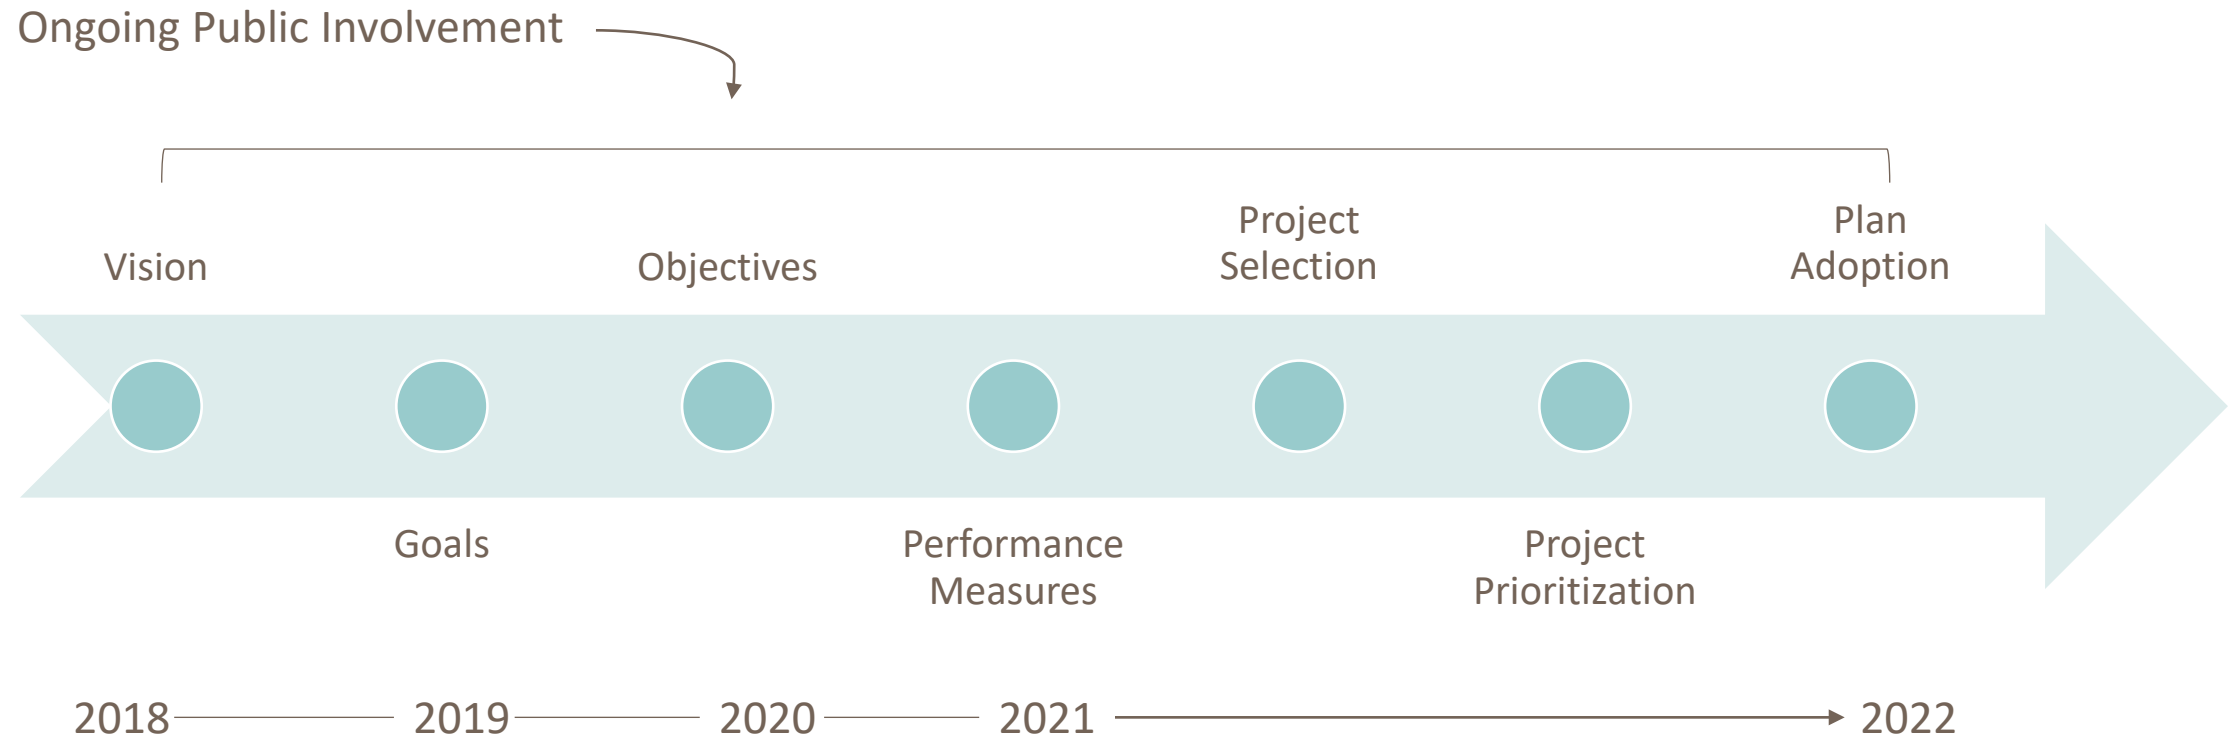

The image displays a promotional graphic for the 'Map Your Experience' web application. On the left, a teal-bordered collage features a central orange location pin icon with the text 'MAP YOUR EXPERIENCE' overlaid. Surrounding the pin are eight small images: a person's feet on stairs, a train, a white car, a bicycle, a bridge at night, and an airplane. To the right is a screenshot of the application's interface. It shows a dark-themed map of North Carolina with city names like Denton, McKinney, Greenville, Lewisville, Flower Mound, Plano, Garland, Dallas, Mesquite, Terrell, Arlington, Cedar Hill, and Waxahatchie. A sidebar on the right contains three reporting options: 'Comment on Pedestrian/Bicycle Issues' (with a bicycle icon), 'Comment on Roadway Issues' (with a car icon), and 'Comment on Transit, Microtransit, and Other Modes' (with a bus icon). The bottom right corner of the interface includes the text 'POWERED BY Esri, HERE, NPS | Esri, HERE, NPS'.

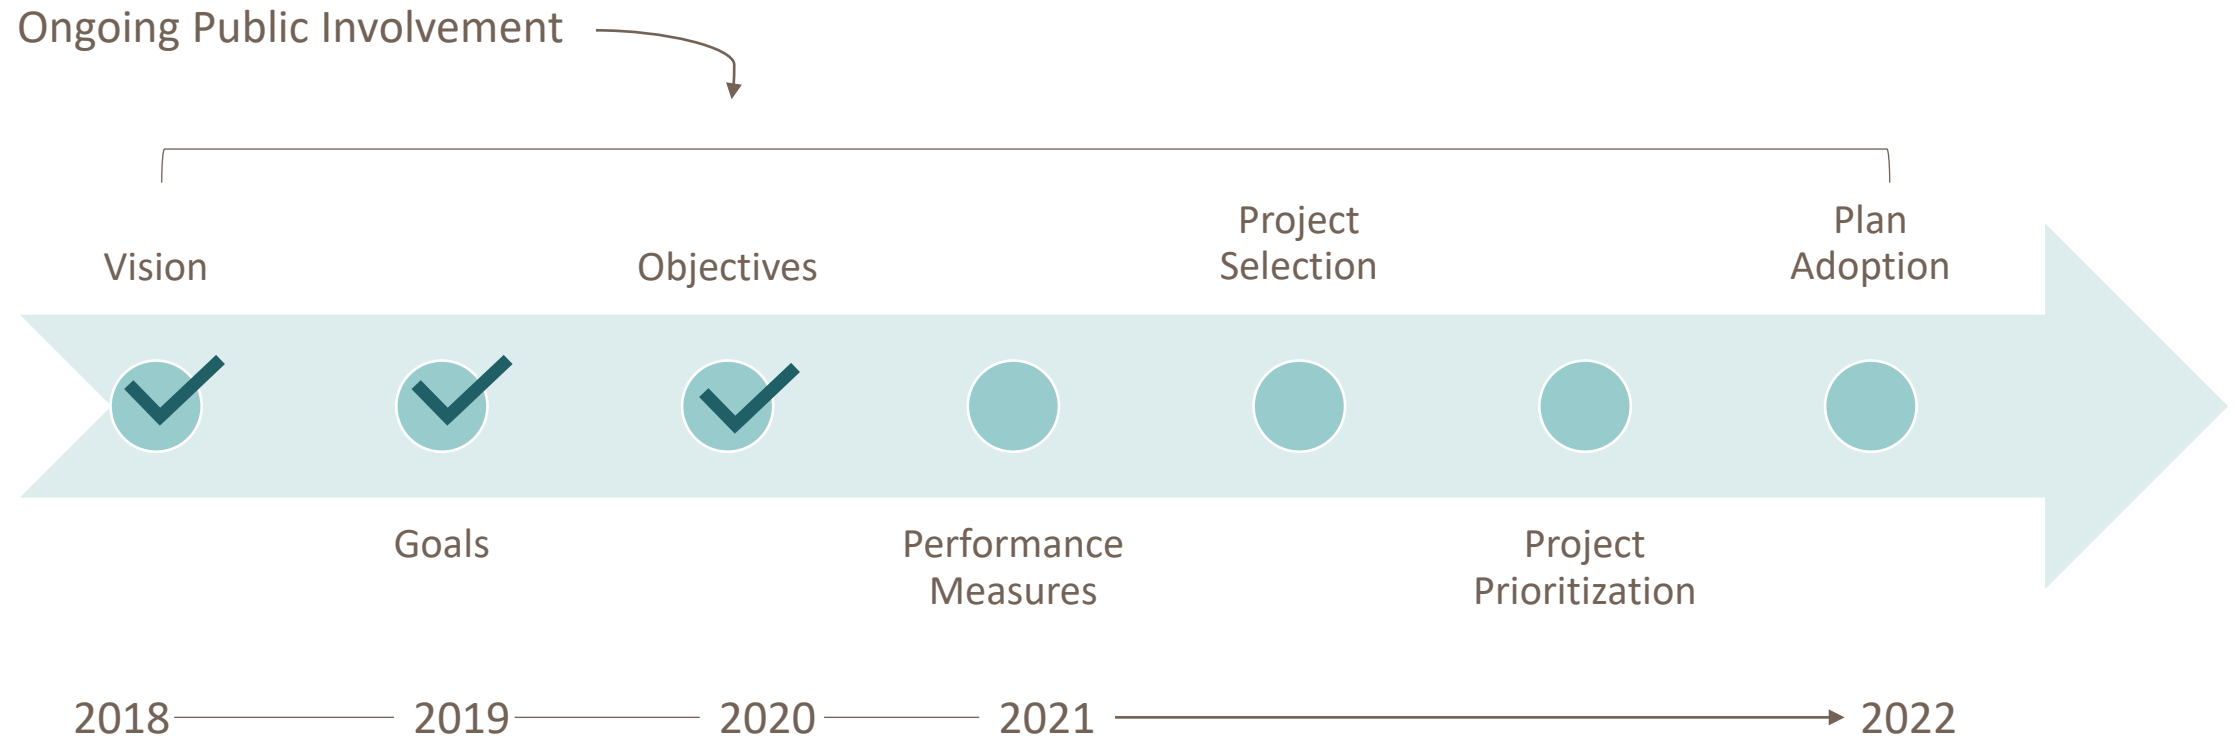

MAP YOUR EXPERIENCE

- Digital tool part of a suite of input tools and processes
- Input will be mapped against plan recommendations to find gaps and areas of need
- Results will be brought back to future meetings

MOBILITY PLAN COMPONENTS

MOBILITY PLAN COMPONENTS

Mobility Plan Vision

To improve the region's mobility today and tomorrow by embracing technology and innovation.

MOBILITY PLAN GOALS

Four goal themes

Nine goals

Mobility

- Improve Transportation Options
- Support Travel Efficiency Strategies
- Ensure Community Access to System and Process

Quality of Life

- Enhance Environment and Lifestyles
- Encourage Sustainable Development

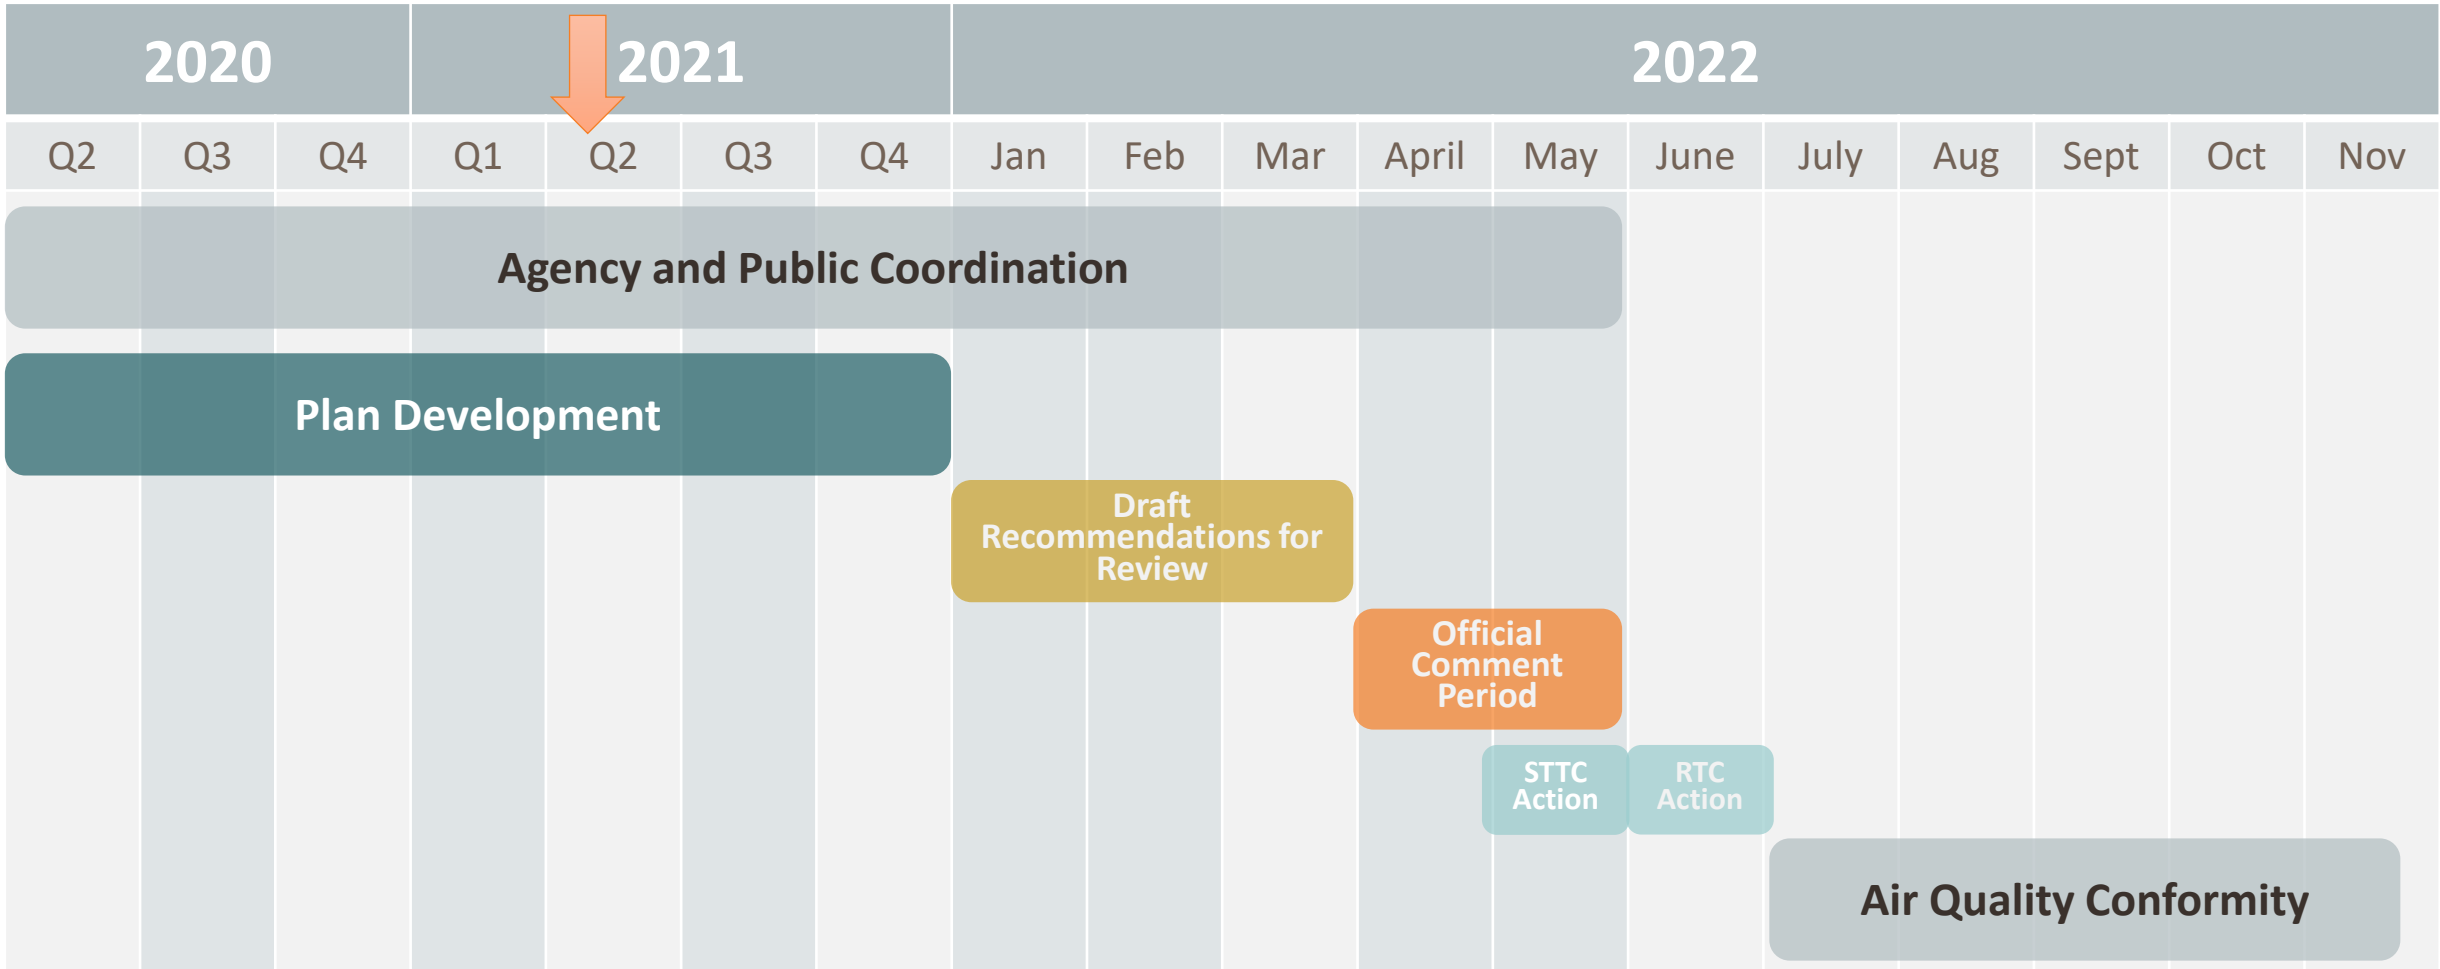

System Sustainability

- Ensure Adequate Maintenance, Safety, and Reliability
- Pursue Long Term, Sustainable Financial Resources

Implementation

- Provide Timely Planning and Implementation
- Develop Cost Effective Projects and Programs

MOBILITY PLAN SCHEDULE

Notes:

- Public meetings held during highlighted months.
- Regional Transportation Council action on Mobility 2045 scheduled for June 9, 2022.
