SUBJECT: Request for Proposals for the North Central Texas Regional Transit 2.0: Planning for Year 2050

The North Central Texas Council of Governments (NCTCOG) is requesting written proposals from consultants for the North Central Texas Regional Transit 2.0: Planning for Year 2050 project. NCTCOG is working with transportation authorities and cities in the North Texas region to increase communication and collaboration among agencies to address expanding transit services to areas with transit needs in the Dallas-Fort Worth region. A comprehensive transportation partnership study, "Regional Transit 2.0", is being sought to develop a more aggressive transit legislative program, increase membership in a transportation authority, collaborate between transportation authority systems, as well as other efforts, to better understand and address long-term transit needs in the Dallas-Fort Worth region. This initiative is being requested by the Regional Transportation Council, which is comprised primarily of local elected officials, and serves as the Metropolitan Planning Organization for the Dallas-Fort Worth Metropolitan Area. The anticipated budget for this effort is approximately \$1,000,000 - \$2,000,000.

Proposers must submit one hard copy or one flash drive of the submission to Michael Morris, P.E., Transportation Director, North Central Texas Council of Governments, 616 Six Flags Drive, Arlington, Texas 76011.
