HOW GRANTS ARE SCORED

- We follow a system consistent with many government and private funding organizations that deal with a large volume of applications.
- The CJPDC may be divided into teams based on the number of applications to be scored.
- Each team is given a batch of applications to score.

9

PSO SELECTION CRITERIA

PSO makes all final funding decisions and will consider NCTCOG rankings along with other factors including eligibility, reasonableness of the project, availability of funding, and cost effectiveness.

PSO may not fund all applications or may only award part of the amount requested. In the event that funding requests exceed available funds, PSO may revise projects to address a more limited focus.

10

NCTCOG FUNDING RECOMMENDATIONS

Per PSO, COG advisory committees may recommend a project at a lower dollar amount if a program component is determined to be ineligible, unreasonable, and/or not cost effective.

Requested amounts may also be lowered to accommodate funding allocation.

11

NCTCOG FUNDING RECOMMENDATION NOTICE

- This email communication to all CJ-JAG, GVA, JJ-YD and VAW applicants follows TAC language and will include ranking spreadsheets showing which projects **are/are not** recommended for funding.
- Being “recommended for funding” means your project scored 70 or higher.
- **An NCTCOG recommendation for funding does NOT guarantee funding by PSO.**
- **A score of 70 or higher does NOT guarantee funding by PSO.**
- There is no COG appeal process.
- PSO will make all funding decisions.

Don't write a check you can't cash!!

12

THESE ARE COST REIMBURSEMENT GRANTS

If your project is funded, you spend your money first, and request reimbursement from PSO via Financial Status Report (FSR).

13

21

NCTCOG POLICIES & PROCEDURES

MINIMUM SCORE REQUIRED - A minimum score of seventy (70) is required for a NEW or RENEWAL project to be recommended for funding regardless of funding source.

LOCAL FUNDING PARAMETERS – Funding Announcements state “no maximum”; however, each COG may set suggested funding limits.

PROJECTS OUTSIDE COG’S REGION - Funding allocated to the NCTCOG 16-county region may only serve the NCTCOG region. Therefore, applicants desiring to serve counties in other COG regions must submit a separate application to that COG and follow the policies and procedures set forth by that respective COG.

EX-PARTÉ CONTACT - Any form of contact between an applicant agency’s representative, employee or contractor and a committee member in which the application or the scoring of the application is discussed is prohibited. Such contact may result in an applicant agency being ineligible for future funding consideration.

22

PROJECT TYPES

- **NEW PROJECT** – Project is NOT currently funded. NCTCOG Addendum is required. **WILL BE SCORED**.
- **RENEWAL PROJECT*** – Project is currently funded and is at end of prioritization cycle. Workshop attendance is mandatory. NCTCOG Addendum is required. **WILL BE SCORED**. *Note: programmatic progress reports, expenditure rates, and Sustainability information from previously completed grant periods will be provided to the Criminal Justice Policy Development Committee.*
- **NON-COMPETING CONTINUATION PROJECT*** – You’re applying for year two-of-three or year three-of-three in the prioritization cycle. Project must maintain the same scope as what is currently funded. NCTCOG Addendum is NOT required. **MUST SUBMIT EGRANTS APPLICATION – NOT SCORED**.

* Do not generate a new application number; use your current application number to start your renewal or non-competing continuation application.

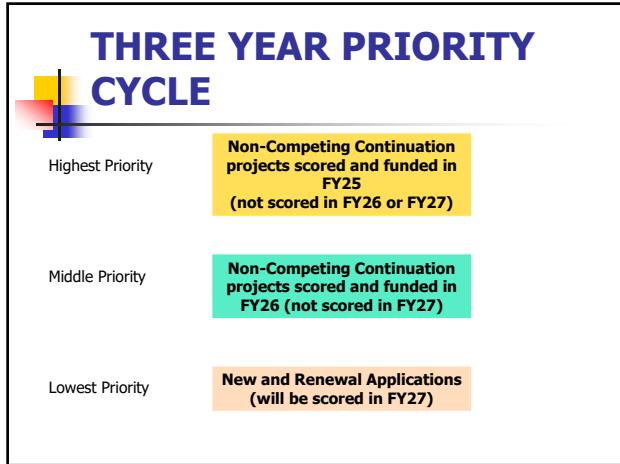

Don't suffer from a grant identity crisis – know your project type!!!

23

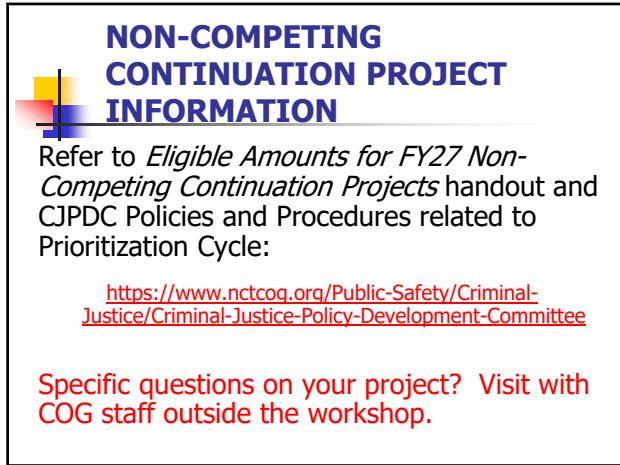

NCTCOG POLICY: THREE-YEAR PRIORITY CYCLE

- Staffing-based projects scored and funded in FY27 will move into a three-year prioritization cycle. These are referred to as *non-competing continuations*. Non-competing continuation projects are NOT scored the second or third year of the three-year prioritization cycle.
- For year two-of-three and year three-of-three the non-competing continuation project will be recommended at an amount not to exceed 100% of the original awarded amount for the remainder of the prioritization cycle.
- Staffing-based projects only: PSO may award a lesser amount to a project *due to depleted funding at the project's priority list position*. In this case, the applicant may request the initial CJPDC-recommended amount when submitting that project's grant cycle two-of-three and grant cycle three-of-three applications. This policy will be applied to the FY26 staffing-based new or renewal projects that received a lesser amount, if applicable.
- NOTE: FY27 non-competing continuation projects may either be submitted at an amount not to exceed 100% of the amount shown on the “Eligible Amounts for FY27 Non-Competing Continuation” spreadsheet or submit the project as a “renewal” and enter back in the competition to be scored.

Units of Local Government, ISDs, Native American tribes, COGs, State Agencies, Public and Private Institutions of Higher Education:

\$300,000 suggested cap for FY27 CJ-JAG applications being scored and prioritized that benefit three (3) or more service areas/jurisdictions.

37

CJ-JAG APPLICATION LIMITS PER CJPDC POLICIES

An agency may submit one new or one renewal non-collaborative CJ-JAG application to be scored **and** may also submit one new collaborative or one renewal collaborative CJ-JAG project to be scored. (A *non-collaborative* project benefits a single entity or jurisdiction; a *collaborative* project benefits two or more entities or jurisdictions.)

A separate eGrants application and separate NCTCOG Addendum must be created if you go this route. The projects will be scored independent of each other.

EXCEPTION: Distinct local government departments may submit one new OR one renewal AND one new collaborative or one renewal collaborative CJ-JAG application to be scored.

For example, a county's juvenile probation department, district attorney's office and sheriff's office may each submit one new OR one renewal AND one collaborative CJ-JAG application to be scored.

CJ-JAG COLLABORATION TIPS AND TRICKS

COLLABORATION EXAMPLES: Multi-Jurisdiction Task Forces; a county purchases communications infrastructure that allows linkage with other jurisdictions; crime lab personnel to process evidence from multiple jurisdictions.

NOT REALLY A COLLABORATION: Agency purchases a mobile watch tower and will loan it out occasionally if neighboring jurisdictions need it.

NOTE: CJ-JAG projects \$125,000 and less may also be collaborations between more than one agency.

39

CJ-JAG PATROL VEHICLE REQUEST LIMIT PER CJPDC POLICY

- Agencies funded for a law enforcement patrol vehicle(s) in FY25 CJ-JAG may not apply for an additional patrol vehicle(s) in the FY26 and FY27 CJ-JAG grant cycles.

40

CJ-JAG EQUIPMENT ONLY POLICY

- Example 1: an agency funded for in-car computers in FY26 may not apply for additional in-car computers in FY27.

49

GENERAL VICTIM ASSISTANCE (GVA) MATCH INFO

- 20% of total project cost.
- Matching funds are considered grant funds and may only be used for eligible, approved budget items.
- Matching funds must be acquired during the grant period.
- Donations must be received during the grant period to be eligible for in-kind match.
- If you exceed the match requirement and your project is awarded, you will be held to the higher amount.

50

GVA MATCH INFO...continued

- You must provide source(s) of in-kind and cash match on the eGrants Budget tab > Source of Match subtab.
- **NOTE: eGrants does not calculate the match amount for you. When you submit the application the errors section of eGrants will alert you if the match is not met.**

51

CALCULATING GVA MATCH

▪ Formula for GVA Match:

Below are three examples illustrating how GVA match is calculated:

\$80,000 request:

- Step 1: Determine the Total Project Cost by dividing the Amount of OOG Funds Requested by the % OOG Can Pay.
$$\$80,000 / .80 = \$100,000$$
- Step 2: Determine the Minimum Match Required by multiplying the Total Project Cost by the % of Match Required.
$$\$100,000 \times 20\% = \$20,000 \text{ required match}$$

52

CALCULATING GVA MATCH continued

\$100,000 request:

- Step 1: Determine the Total Project Cost by dividing the Amount of OOG Funds Requested by the % OOG Can Pay.
$$\$100,000 / .80 = \$125,000$$
- Step 2: Determine the Minimum Match Required by multiplying the Total Project Cost by the % of Match Required.
$$\$125,000 \times 20\% = \$25,000 \text{ required match}$$

\$500,000 request:

- Step 1: Determine the Total Project Cost by dividing the Amount of OOG Funds Requested by the % OOG Can Pay.
$$\$500,000 / .80 = \$625,000$$
- Step 2: Determine the Minimum Match Required by multiplying the Total Project Cost by the % of Match Required.
$$\$625,000 \times 20\% = \$125,000 \text{ required match}$$

53

GVA POLICIES PER CJPDC

- If you have a traditional non-competing continuation GVA (a project on the Eligible Amounts spreadsheet) and wish to request funding for a new, distinctly different traditional GVA project than what is currently funded, you must submit the new project AND non-competing continuation project within a single GVA eGrants application.
- The NEW, DISTINCTLY DIFFERENT component identified in eGrants will be scored. Please make use of capitalization in eGrants narrative sections to make it easier for reader to discern between NON-COMPETING CONTINUATION components and NEW components.
- The GVA addendum should ONLY address the new component.

MULTIPLE PROJECTS

An agency may submit no more than two (2) VAW applications to be scored. The projects must be ***distinctly different*** projects. This is demonstrated with different problems, target populations, different services, and/or different geographic areas.

72

VIOLENCE AGAINST WOMEN (VAW) MATCH INFO

- 30% of total project cost. (Non-profits are exempt from match requirement.)
- Matching funds are considered grant funds and may only be used for eligible, approved budget items.
- Matching funds must be acquired during the grant period.
- Donations must be received during the grant period to be eligible for in-kind match.
- If you exceed the match requirement and your project is awarded, you will be held to the higher amount.

73

VAW MATCH INFO...continued

- You must provide source(s) of in-kind and cash match on the eGrants Budget tab > Source of Match subtab.
- **NOTE: eGrants does not calculate the match amount for you. When you submit the application the errors section of eGrants will alert you if the match is not met.**

74

CALCULATING VAW MATCH

Formula for VAW Match:

Below is an example illustrating how GVA match is calculated:

\$150,000 request sample:

- Step 1: Determine the Total Project Cost by dividing the Amount of OOG Funds Requested by the % OOG Can Pay.
$$\$150,000 / .70 = \$214,286$$
- Step 2: Determine the Minimum Match Required by multiplying the Total Project Cost by the % of Match Required.
$$\$214,286 \times 30\% = \$64,286 \text{ required match}$$

75

GVA and VAW - VICTIM SERVICES TAB IN EGRANTS

This section addresses:

- Agency Type
- Purpose of Award
- Type of Crime Funding Distribution
- Use of Funds
- Types of Victimization
- Budget and Staffing Profile

76

Victim Services tab info and GVA

Per GVA Eligibility Requirements:

Entities receiving grant funds must demonstrate a record of effective services to victims of crime and financial support from sources other than the Crime Victims Fund; or substantial support from sources other than the Crime Victims Fund.

- A program has demonstrated a record of effective direct services and support when, for example, it demonstrates the support and approval of its direct services by the community, its history of providing direct services in a cost-effective manner, and the breadth or depth of its financial support from sources other than the Crime Victims Fund.
- A program has substantial financial support from sources other than the Crime Victims Fund **when at least 25%** of the program's funding in the year of, or the year preceding the award comes from such sources.

kschmidt@nctcog.org

Use email for TA reviews; COG cannot log into eGrants to see a draft of your application.

Please do not send a partially completed Addendum or eGrants draft for TA – it's easier to provide assistance when all sections are completed.

Please allow 2 business days for TA feedback to be returned to you. Feedback will be sent via email.

83

PRE-SUBMISSION TA

- COG will provide TA to interested applicants for new, renewal and/or non-competing continuation projects.
- How to get eGrants to COG for review: Log into application, go to Summary tab, click "**Printer Friendly**" link to open box with entire grant, select/copy/paste all info into either a Word doc, pdf, or body of an email and send to COG.
- Email the **eGrants** info and **Addendum (if applicable)** for feedback.

PRE-SUBMISSION TA

- COG will read your draft to check that there are responses to the scoring criteria and PSO's requirements. TA does not evaluate the quality of your responses.
- COG will review budget line item description detail.
- COG TA is advisory in nature and is not intended to address all possible outcomes of the grant application process.
- TA is provided by COG as an additional service to our grant applicants.

COG TA will not save you from a bad idea for a project.

IMPORTANT:

- You will receive an email confirming COG has received your document.
- Identify your agency name in the email subject line.
- Do not send COG Addendum as a pdf file!
- *Do not upload Addendum to eGrants*

88

NCTCOG ADDENDUM: AGENCY INFO

- Agency Name
- Project title (must match project title in eGrants application)
- Application # (7-digit number generated from eGrants)
- Location of Agency Headquarters
- Provide OOG amount requested for this new or renewal project (don't include match in this dollar amount)
- Does this project require collaborations with other entities? YES/NO (If YES, submit applicable MOUs and/or letters of intent)
- **GVA ADDENDUM - IMPORTANT:** If your agency has a GVA application with a non-competing continuation component AND a new, distinctly different component, the GVA Addendum should ONLY address the new component.

89

NCTCOG ADDENDUM: PROJECT SUMMARY (No points assigned for this section)

In **100 words or less**, summarize the proposed project.

Yes, some scorers do count words to see if you exceed the limit!

90

NCTCOG ADDENDUM: DUPLICATION OF SERVICES (No points assigned for this section)

In 100 words or less, describe how the proposed project avoids duplicating or overlapping existing resources or programs within the project's service area and target population.

Remember word limit....!

91

NCTCOG ADDENDUM: SUPPORTING DATA*

****NEW**** In **500 words or less**, provide a narrative explaining what the data indicates and its negative impact on the target population.

Include relevant tables, charts and/or graphs that present **at least three years** of local, comparable data demonstrating the existence, size, and scope of the problem. Ensure all sources are cited.

NOTE: Data citations and text within tables, charts or graphs are not included in the 500-word narrative limit.

HINTS:

- Data should describe local conditions. Do not use statewide or national data for a local problem.
- Using data from outside sources is helpful; however, your agency's internal data may also be used to support the identified problem.
- Hint for renewal projects: you may provide internal data demonstrating service stats over past three years.

* The Addendum's Supporting Data section will be assessed with the eGrants Problem Statement section and eGrants Target Group section (up to 25 points).

92

NCTCOG ADDENDUM: COLLABORATIONS TABLE*

- Using the table, list necessary collaborative partnerships your agency will have with other entities in order to carry out this project.
- If project requires collaborations, submit Letters of Intent from all collaborators, applicable Memorandum of Understanding (MOU), Cooperative Working Agreements, and/or Mutual Aid Agreements to NCTCOG. **Include these documents with your COG Addendum email.**
- Collaborative relationships do NOT involve an exchange of funds. Don't list contractors in this table; the reader will see contractor info in your budget.
- If no collaborations are needed, please put N/A.
- Do NOT copy/paste your eGrants Capacity & Capabilities narrative into the Addendum.

***This table will be assessed with the eGrants Capacity & Capabilities section and the Addendum's Sustainability section (up to 15 points).**

93

More on Collaborations...What's a Collaboration?

The three "C's" - Communicating, Coordinating and Collaborating

Communicating and **Coordinating** are vital project components and involve working with others...but...your project would still function without these relationships.

Communicating and **Coordinating** relationships do NOT need to be listed in the Collaborations table.

94

So....What's a Collaboration?

- The proposed project **will only** function with assistance from an outside agency(ies).
- A high level of joint decision-making and creative input between your agency and another entity(ies) is necessary in order to carryout the project.
- Your agency and another agency are doing the work together!
- Does NOT involve an exchange of funds.

Examples:

- All project referrals will come from another entity(ies). With no referrals from that entity, you have no viable project.
- SRO project in which law enforcement agency works with ISD.
- Victim advocate serving multiple law enforcement jurisdictions.
- Equipment will be shared with other entities/jurisdictions.

Feel free to discuss your specific project with COG outside of workshops.

95

NCTCOG ADDENDUM: SUSTAINABILITY*

In 100 words or less:

- Describe your agency's financial commitment to support **THIS** project throughout the grant period.
- Describe your agency's strategy for sustaining **THIS** project beyond the grant period.
- For equipment or technology projects, describe your agency's plan for maintaining the equipment after the grant ends (including routine maintenance, repairs and upgrades).

Did we mention word limit????

***The Addendum's Sustainability section will be assessed with the eGrants Capacity & Capabilities section and Addendum's Collaboration table (up to 15 points).**

96

NCTCOG ADDENDUM: RENEWAL BUDGET INCREASE JUSTIFICATION (No points assigned for this section)

In 100 words or less, for renewal projects with an increase in OOG funding, explain the justification for the increase.

Put N/A if this is NOT a renewal project.

or

Put N/A if this is a renewal with NO budget increase.

Look....it's another section with a word limit!

97

CJ-JAG NCTCOG ADDENDUM: PATROL VEHICLE INFORMATION (No points assigned for this section)

In 100 words or less, provide the following:

- total number of patrol vehicles in the fleet and how many of those have over 100,000 miles;
- your agency's annual patrol fleet maintenance budget; and
- funding source(s) of your agency's patrol fleet budget (i.e., general funds, other grants, Crime Control Prevention District funds).

(Put N/A if this is NOT a request for patrol vehicles.)

Last reminder for word count!

98

HINTS FOR COMPLETING THE ADDENDUM

- **DO NOT** remove instructional information or change font size / margins / page orientation.
- **DO** use the correct addendum for your program category.
- **DO** pay attention to word limits.
- The eGrants Supporting Data section will not allow for tables, charts, or graphs; in eGrants you'll have to describe supporting data in sentence format. This is why COG reviewers use the Addendum to evaluate your Supporting Data – we want to read a narrative that describes the data AND review data tables, charts or graphs.
- All text and tables should be in black and white, as colors may lose clarity when application packets are printed.

NOTE: COG will print your eGrants application for scoring purposes. DO NOT copy/paste any eGrants narrative sections or budget information into the COG Addendum.

99

eGRANTS APPLICATION: PROBLEM STATEMENT*

Describe the nature and scope of the underlying problem in your service area that this proposed project aims to address.

Focus on the root cause; a lack of resources alone does not define the problem.

HINT: Avoid overloading the problem statement section with too much data.

* The eGrants Problem Statement section will be assessed with the Addendum's Supporting Data section and eGrants Target Group section (up to 25 points).

100

eGRANTS APPLICATION: TARGET GROUP*

Describe the agencies, individuals, or other groups that will be served by the proposed project.

Include the size, basic demographics, challenges faced, and any other relevant information about the population served.

Applicants should demonstrate a clear understanding of the target group to show the capacity to effectively implement the project.

* The eGrants Target Group section will be assessed with the eGrants Problem Statement section and the Addendum's Supporting Data section (up to 25 points).

101

eGRANTS APPLICATION: PROJECT APPROACH & ACTIVITIES*

- Provide detailed information on the methodologies, approaches, frequency, and duration of services, as well as the activities to be implemented by the project. Ensure these clearly relate to the Problem Statement.
- Explain the role of grant-funded staff, including contractors and volunteers where applicable, in implementing the project.
- Explain the rationale for selecting this specific model or approach.
- Describe relevant timelines for project implementation.
- For any therapy or licensed counseling, describe the modality or framework that will be used.

HINT: Focus on what grant is paying for – extra info can cause confusion.

* The eGrants Project Approach & Activities section will be assessed with the eGrants Evidence-Based Practices section (up to 25 points).

102

eGRANTS APPLICATION: CAPACITY & CAPABILITIES*

- Describe your agency's background, organizational capabilities, staff capabilities and performance history to carry out this specific project.
- Describe the expected background and qualifications (including contractors) for grant-funded positions.
- If a grant-funded position(s) requires licensure or certification (including contractors), describe required license or certification.
- Briefly summarize collaborative partnerships necessary in carrying out **THIS** project (also complete Collaboration table in NCTCOG Addendum and submit applicable MOUs and/or Letters of Intent to NCTCOG).

*The eGrants Capacity & Capabilities section will be assessed with the Addendum's Collaboration table and Addendum's Sustainability section (up to 15 points).

103

eGRANTS APPLICATION: PERFORMANCE MANAGEMENT (up to 20 points)

NOTE: This scoring factor based on info provided in Performance Management section AND on info provided on eGrants Measures tab

- Describe project's goals and objectives.
- Describe methods, mechanisms, or tools used to generate outcome and output measures.
- Describe how your agency will collect, track, and maintain the data necessary to assess whether the project is achieving its goals and objectives throughout grant period.
- Explain how the data will be analyzed. Applicants should demonstrate that collected data will be accurate, maintained, and analyzed in a way that allows the agency to adapt to evolving project needs and assess overall effectiveness.
- Describe what the baseline, or current state is, for output and outcome measures.

104

...MORE ON PERFORMANCE MANAGEMENT

Hints for addressing Performance Management:

- Goals focus on the target population and are broad statements that indicate the general intentions of the project to achieve some outcome.
- Objectives are clear, tangible, and specific:
 - To [reduce/increase/ enhance/etc.] [something], by [x amount], by [dd/mm/yy date].
 - A project can have multiple objectives.

105

...and MORE ON PERFORMANCE MANAGEMENT

Applicants should give confidence that the collected data will be accurate, maintained, and analyzed in a manner that enables agency to adapt to changing assessments of the problem or project performance, and to evaluate and document the project's effectiveness.

Data Collection —> Data Analysis —> Good Decision Making

Baseline hint: Baseline info is numeric and is the "current state" – it's a 12-month estimate of what you're doing now for the output/outcome measures. This helps the reader compare current levels to the projected target levels.

106

TIPS/TRICKS FOR eGRANTS MEASURES TAB

- Selecting an activity on the eGrants Activities tab will cause all outputs/outcome measures linked to that activity to display on the Measures tab.
- Estimate quantities for each measure that apply to the project or enter a "0" if a measure is not applicable.
- Measures should be estimates only of activities that occur during the project period and are achieved with grant funds.
- Make sure target levels cover the duration of the grant period!

IMPORTANT! Per PSO – do not create CUSTOM MEASURES.

107

eGRANTS APPLICATION: EVIDENCE-BASED PRACTICES*

- Describe the research or evidence used to select the methods, approach, and activities described in your project narrative. Whenever possible, cite specific studies, research, evidence, or published best/promising-practices models that support the project's design.
- For equipment or technology projects, describe evidence or reference best/promising-practices models to justify the proposed purchase.
- If the project approach and activities are not based on existing evidence, explain why the method is considered promising and how it is expected to achieve the desired outcomes.

*** The eGrants Evidence-Based Practices section will be assessed with the eGrants Project Approach & Activities section (up to 25 points).**

108

LOCAL PRIORITIES (up to 5 points)

CJ-JAG Equipment-Only projects: up to 10 points

- When assigning Local Priorities points, scorers will assess the extent to which the project addresses a local priority(ies).
- Ensure your project aligns with at least one priority.
- Refer to NCTCOG FY27 Local Priorities handout at <https://www.nctcog.org/public-safety/criminal-justice/grant-application-workshop-information>

NOTE: There is not a "Local Priorities" narrative section on the application or on the Addendum.

109

eGRANTS APPLICATION:

BUDGET (up to 10 points)

CJ-JAG Equipment-Only projects: up to 5 points

- Budget items must be eligible, reasonable, and essential, and should directly support the project's goals and activities.
- Each budget line item must have sufficient detail to justify its inclusion in the project.

IMPORTANT! See Funding Announcement and Guide to Grants for list of unallowable costs

110

COMPLETING THE BUDGET IN EGRANTS

Refer to PSO's **User's Guide for Creating an Application** and **Guide to Grants** for specific information on budgetary line items.

These documents are on NCTCOG's FY27 Grant Application Workshop webpage and on PSO's Resource website at <https://egrants.gov.texas.gov/resources>.

111

eGRANTS BUDGET LINE ITEM: PERSONNEL

- Grant personnel positions must be on separate line items – don't combine two identical positions in one line item. Per PSO's *General FAQs*, each personnel line item description should state the following:
 - the specific position title;
 - Employee name or initials (except for volunteer line item), *OR* put VACANT if position exists but is currently vacant, *OR* indicate as NEW if position will be created if application is funded;
 - if position is currently filled, the first date of employment;
 - brief description of the position's responsibilities under the grant;
 - total annual salary and the employee paid portion of fringe benefit and taxes (regardless of how much the grant covers);
 - other compensation (overtime, on-call, stipends, bonuses);
 - if % of salary (including match, if applicable) allocated to grant is less than 100%, include % of time spent working on the grant in description.

112

eGRANTS BUDGET LINE ITEM: PERSONNEL *continued*

- If applicable, include fringe benefits in the description. The line item description MUST have the fringe amount noted separately. For example: "\$50,000 annual salary plus \$15,000 fringe benefits." Don't include fringe benefits as a separate line item.
- The % of salary cell refers to the **percentage of salary to be funded from the grant (including match, if applicable)**. *See page 15 of PSO's General FAQs for % of salary calculation formula.*
- GVA and VAW applicants using volunteers as in-kind match:
 - The volunteer line item should include description of eligible services provided by volunteers; number of volunteer hours; and rate per hour to support the total.
 - If using volunteers with different valuation rates, please separate these into separate line items.

113

eGRANTS BUDGET LINE ITEM: PROFESSIONAL AND CONTRACTUAL SERVICES

- Each contracted service should be listed on a separate line item. If a contract includes several services, it should be explained in the line item description.
- Describe each contractual deliverable, rate, number of clients served if applicable, location where services will be performed, and a brief explanation and purpose for the contract.
- Contracting services out without going through a procurement process violates state and federal rules. Your agency must have written procurement policies.
- Vendors or contractors should not be identified by name in the description unless you have gone through your agency's procurement process.
- Keep in mind, grantee defines contract deliverables, not the contractor/vendor!

114

eGRANTS BUDGET LINE ITEM: *TRAVEL AND TRAINING*

Each travel and training line item description must include:

- the purpose and description of the travel **AND**
- the applicant agency's travel guidelines along with the mileage, per diem, and lodging rates.

If known at time of submission, PSO requires you describe specific conferences/trainings...and list those on separate line items.

115

BUDGET LINE ITEM: *TRAVEL AND TRAINING* *continued*

- Out of state and international travel MUST include the following in the description:
 - how the event is related to grant activities
 - how attendance at the event will impact the project's goals and objectives
 - justification as to why agency personnel must go out-of-state rather than attend a similar training in-state

116

eGRANTS BUDGET LINE ITEM: *EQUIPMENT*

- PSO defines equipment as tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit cost of \$10,000 or more, or less if grantee chooses to capitalize items costing less.
- Items under \$10,000 should be placed in Supplies & Direct Operating Expenses.
- In equipment description, be specific on how equipment will accomplish the activities.
- Purchasing equipment without going through a procurement process violates federal and state rules. Your agency must have written Procurement policies.
- Vendors must not be identified by name unless you've gone through your agency's procurement process.
- If multiple units of the same item are to be purchased, the number and cost per item must be included in the line item description. (Example: 4 computers @ \$10,000 each.)

117

More on Procuring Equipment or Contracted Services

From Department of Justice (DOJ) Grants Financial Guide:

*"To ensure objective contractor performance and preserve full and open competition, contractors that develop or draft **statements of work, requirements, specifications, or invitations for bids** must be excluded from competing for those procurements."*

What does this mean? A potential vendor or contractor may **NOT** assist with writing the application if you intend to contract with that entity if project is funded.

118

eGRANTS BUDGET LINE ITEM: **SUPPLIES AND DIRECT OPERATING EXPENSES**

- Items with a per-unit cost of less than \$10,000, are directly related to the delivery of services, and do not fall under one of the other budget categories should be itemized under supplies with a brief description and justification.
- This budget category also includes other direct costs such as leases for space, project supplies, office supplies, communications, utilities.
- All costs must be prorated.
- NOTE: When calculating cost for space and utilities, ensure that costs are based on percent of square footage. You must indicate amount of square footage and rate per square foot in the budget description.

119

eGRANTS BUDGET LINE ITEM: **INDIRECT COSTS**

- If you have never received a federally recognized or state approved indirect cost rate, PSO may approve indirect costs in an amount **not to exceed 15%** of the approved modified total direct costs (MTDC).
- See page 27 of Guide to Grants for MTDC Calculation instructions.**
- An **excess of 15%** can be charged if the applicant has an approved cost allocation plan from their federal or state cognizant agency. Must be submitted to PSO for review.
- Provide a brief description of Indirect charges.

120

BUDGET HINTS

- Budget expenses should directly support the project's activities. Provide enough sufficient detail so the reader clearly understands what the project is funding. If the reader must guess how an item will be used, then you don't have enough detail.
- The line item description should answer: Is the line item reasonable? necessary? and allocable (does it fit in this project)?
- Understand what costs are eligible and what are ineligible – refer to lists of prohibited items in the Funding Announcement and Guide to Grants.
- Explain what you'll be buying (equipment, supplies), quantity, what it's used for, who uses it. Costs in the budget must support the activities.
- GVA applicants with non-competing continuation AND new components: make notation of **CONTINUATION** or **NEW** within **EACH** budget line item description.

121

126

eGRANTS DOCUMENTS TAB

- Lobbying
- Debarment

127

HINTS FOR eGRANTS

- Read ALL Fund Source Information and Requirements on the Narrative tab.
- Respond to all Project Narrative components. Don't put N/A in any Project Narrative sections – if you do, PSO will consider it incomplete!
- Non-Profits have a Fiscal Capability tab which requires info on agency's IRS tax exempt status, accounting methods and internal control systems.
- There's a 2-hour time-out feature on each tab. Use the Save button frequently to make sure you don't lose information.
- You can't do any formatting in eGrants – i.e., bullet points, bolding, tabs, tables.
- Avoid using "etc" or "but not limited to" in your application.
- For areas that do not apply to your project: You must respond with 0 or N/A to prevent errors when submitting.

128

EGRANTS TRAINING IN OUR REGION

The Office of the Governor's Public Safety Office staff will conduct one-day eGrants training sessions in **Southlake on February 24, 25, and 26**.

- **Who Should Attend:** Agencies with a current or pending PSO grant(s) are encouraged to attend. The class will benefit grant managers, program staff and/or finance staff. This training is open to everyone - even if you're not a grant official.
- Register here:
https://fs3.formsite.com/OOG_HSGD/eGrantsTrng/index

129

GRANT PRELIMINARY REVIEW REPORT (PRR) PROCESS AFTER YOU SUBMIT APPLICATION

- What's a PRR? PSO grant managers will perform an in-depth compliance review on the eGrants application.
- The PRR review of an application requesting revisions does not guarantee funding nor is it meant to suggest the project will be funded.
- Your PSO grant manager may contact you for eGrants revisions before the application is scored and prioritized.
- The original submission of your eGrants application is the version that will be scored.**
- A PRR is NOT performed on the Addendum.

130

BE AWARE OF THE REPORTING, MONITORING, AND CIVIL RIGHTS REQUIREMENTS FOR FUNDED PROJECTS

- Quarterly financial reporting via eGrants
- Programmatic progress reporting via eGrants
- OOG monitoring staff will conduct either an on-site audit or desk review audit of all funded projects.
- Civil Rights:
 - All funded agencies, regardless of project type, must comply with Civil Rights statutes.
 - Civil Rights compliance is heavily monitoring by OOG staff.
 - A Civil Rights Training document and other information is provided on OOG's resource page in the Civil Rights section:
<https://egrants.gov.texas.gov/resources/civilrights>

131

SUPPLANTING

Definition: Using grant funds to replace any other existing federal, state or local funds.

Awarded funds must be used to supplement existing funds for program activities and not replace (supplant) funds that have been appropriated, allocated or disbursed for the same purpose. Grant monitors and auditors will look for potential supplanting during reviews. Violations may result in a range of penalties, including suspension of future funds, suspension or debarment from receiving federal or state grants, recoupment of monies provided under the grant, and civil or criminal penalties.

Example: Your agency has already budgeted funds to hire a rocket scientist and purchase a vehicle for him/her. You may not apply for grant funds to pay for your rocket scientist or that vehicle in order to "free" up money in your agency's budget. If you replace your local funds with federal funds, that is considered "supplanting".

132

APPLICATION MELTDOWN PREVENTION

It's never a good idea to wait until February 12th to log into eGrants for the first time and/or start the NCTCOG Addendum.

Sending your draft to COG for technical assistance at 4:30 pm on February 12th is probably not a terrific strategy either.
