

RTC Information Item

2023 Transportation Conformity and Mobility 2050

Action Possible Action Information Minutes: 10

Presenter: Jenny Narvaez and Brendon Wheeler, NCTCOG

Item Summary: Staff will provide an overview of efforts on a 2023 Transportation Conformity analysis and development of the next Metropolitan Transportation Plan, Mobility 2050.

Background: On April 24, 2023, the Environmental Protection Agency (EPA) published a Notice of Adequacy for the 2020 Motor Vehicle Emissions Budgets for the purpose of transportation conformity, with an effective date of May 24, 2023. This adequacy determination requires transportation conformity to be performed within two years of the effective date. Staff will present draft emission results from the analysis. The current regional Metropolitan Transportation Plan (Mobility 2045 Update) was not updated for this analysis.

Currently under development is a new multi-modal transportation plan, Mobility 2050. A draft timeline for this next plan will be highlighted.

Additional information is provided in [Electronic Item 8](#).

Performance Measure(s) Addressed: Air Quality, Roadway, Transit
