• Characteristics of NCTCOG budgeting and contrasts with typical local government budgeting.
  – Funding is comprised primarily of grants and local contracts for services.
  – Each grant is a separate contract with its own grant period and funding amount. Grants can encompass more than one fiscal year.
  – Continuously evolving as program needs change and funding opportunities become available. Additional awarded funding approved during the budget year.
  – Scope of work, funding, and expenditure limitations are regulated by the individual grant or contract, rather than the planned program summary.

• High inter-departmental dependency and cooperation.
  – Common objectives (i.e. environmental, air quality and transportation programs).
  – Multi-disciplinary approach (i.e. operating departments, computer services, finance and accounting teams).
Funding Changes of Note since the August Board Presentation:

- Workforce Development
  - Texas Workforce Commission Child Care allocation – ($4.6 million increase).

- Environment & Development
  - Public Works Local Funding – ($100 thousand increase).

Net Funding Increase of $4.7 million from August Board Presentation.

**Total FY2022 Funding of $288.8 million.**
• **Funding Changes of Note:**
  - Texas Workforce Commission – ($52.7 million increase)*.
  - Federal Transit Administration – ($7.9 million decrease).
  - Texas Department of Transportation – ($6.5 million increase).
  - Transportation Local Contracts – ($3.8 million increase).
  - Environmental Protection Agency – ($2.0 million increase).
  - Transportation In-Kind – ($1.8 million increase).

• **Cyclical Funding Changes** – Programs administered on a two-year cycle, with the first year for planning and the second year for implementation.
  - Research and Information Services: Aerial Photography – ($4.2 million decrease).

* Increase from August presentation of $4.6 million. Originally budgeted at $48.1 million increase.

RESOLUTION ACCEPTING THE WESTERN REGION SOLID WASTE CAPACITY STUDY PRESENTATION

North Central Texas Council of Governments

Western Region Solid Waste Capacity Study

NCTCOG Executive Board
September 23, 2021
Edith Marvin, P.E.
Purpose of the Western Region Solid Waste Capacity Study

- Identify the landfill capacity challenges of the 8-county Western Region and develop strategies for addressing them.

8-County Study Area, known as the Western Region
Landfill Capacity Challenges of the Western Region

- Less solid waste infrastructure in the Western Region
  - 5 of the NCTCOG region's 18 municipal solid waste landfills are in the Western Region. One only has 1-2 years remaining capacity. (Weatherford)

- A 45% increase in population is projected in the Western Region between 2020 - 2050.

- Under a “no-change” scenario, landfill capacity in the Western Region is estimated to be full by 2036.

Strategies to Address Landfill Capacity Challenges

- Cooperative planning & engagement of stakeholders in the Western Region to -
  - Divert waste from landfill (improve management of organics, i.e. brush, wastewater sludge, and food waste)
  - Increase landfill capacity (construct one or more landfills)
  - Educate public and promote awareness

*A summary of all the strategies discussed in the Western Region Solid Waste Capacity Study can be found [HERE](#).

REQUESTED EXECUTIVE BOARD ACTION

Seeking Executive Board’s acceptance of the Western Region Solid Waste Capacity Study as consistent with the Regional Solid Waste Management Plan, *Planning for Sustainable Materials Management in North Central Texas, 2015-2040*, and authorization for transmittal to TCEQ.
