Regional Public Works Program

FY 2015
October 1, 2014 to September 30, 2015
DRAFT

FY 2015 Components

- Public Works Construction Standards
- Sustainable Public Rights of Way
- *integrated* Stormwater Management (iSWM™) Program
- Hydrologic/Flooding Technical Assistance
- General Public Works Support

Public Works Construction Standards Update

- Public Works Construction Standards Subcommittee and staff to lead construction standards update effort
- Coordinate Construction Standards Review Groups, schedule monthly meetings, and assist with the review and update process as needed
- Complete update of Standards based on priority topics and cost proposal
- Report on update process progress
  - Staff to provide progress reports to the Public Works Council (PWC) at quarterly meetings
  - Maintain webpage for status reports and outreach to committee members and interested parties

Sustainable Public Rights of Way

- Continue the Sustainable Public Rights of Way (SPROW) Subcommittee as a quarterly task force
- Maintain online resource center
- Within available resources, pursue connectivity facilitation, educational outreach, economic implications research, and expansion into new topics
- Conduct education forum focused on relevant topics (partnering, Institute for Sustainable Infrastructure Rating System, complete streets) as developed by the SPROW Subcommittee

iSWM™ Program Implementation & Training

- Track emerging federal and state stormwater requirements for addressing construction and post-construction impacts
- Consider proposed modifications of implementation process and provide assistance to local governments in adopting upon request
- Develop and conduct iSWM technical training classes
• Conduct outreach and education activities
  • Expand iSWM Tools to include additional case studies as information becomes available
  • Expand iSWM Tools to include materials from technical training classes
  • Conduct iSWM presentations to cities and other groups upon request
  • Conduct consultant selection process for future services

**Hydrologic/Flooding Technical Assistance**
- Assist the FEMA RiskMAP update activities
- Support the FEMA Cooperative Technical Partner activities including outreach, training and general support of the FEMA National Flood Insurance Program and mapping activities

**General Public Works Support**
- Administratively support committees, including the PWC and subcommittees
- 16th Annual Public Works Roundup in Spring 2015
- Technical Assistance
- Maintain web sites – iSWM, SPROW, Public Works Construction Standards
- Make presentations to various groups on iSWM, SPROW, Public Works Construction Standards, etc.

*The local cost share will be the same as in FY 2014*
