

## Regional Code Adoption Survey 2017 - Summary

- **What additional assistance could/would your city desire in relation to the code adoption process, amendment adoption, or contractor/builder/trades training about codes?**
  - 18 of 25 respondents would like contractor/builder/trades training
  - Other responses:
    - Cost analysis based on current adopted codes vs. proposed codes for residential and commercial development
    - Advice for how small communities can keep up with all the new requirements and how city staff and third-party inspections will be impacted
    - Plan submittal checklists for residential and commercial applicants
    - Energy Code amendments
    - Permit fee survey information
    - More timely completion of amendment process
    - Expand reasoning statements on the recommended amendments

# Work Program Feedback from RCCC Members

- Regarding charging a fee for regional amendments: Consider a “request for waiver of fee” option for smaller communities which might not have the budget for purchasing the amendments.
