      i. a certificate of coverage, prior to the other person beginning work on the project; and
      ii. a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the project;
   e. retain all required certificates of coverage on file for the duration of the project and for one year thereafter;
   f. notify the governmental entity in writing by certified mail or personal delivery, within ten (10) days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project, and
   g. contractually require each person with whom it contracts, to perform as required by paragraphs (a)-(g), with the certificates of coverage to be provided to the person for whom they are providing services.

J. By signing this contract or providing or causing to be provided a certificate of coverage, the CONTRACTOR is representing to the governmental entity that all employees of the CONTRACTOR who will provide services on the project will be covered by workers’ compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-insured, with the commission’s Division of Self-Insurance Regulation. Providing false or misleading information may subject the CONTRACTOR to administrative penalties, criminal penalties, civil penalties, or other civil actions.

The Owner shall retain all construction contingency moneys not used during the construction of the project.

This project is to be completed in the contract time specified. The time of completion is of the essence of this contract. The North Central Texas Council of Governments Standard Specifications for Public Works Construction will be used to determine and apply liquidated damages. No claim shall be made by the contractor to the owner, and no damages, costs or extra compensation shall be allowed or paid by the owner to the contractor for any delay or hindrance from any cause in the progress of completion of the work for this contract. The contractor’s sole remedy in the event of any delay or hindrance shall be to request time extensions by written change orders as provided for in Section 108.8 of the Standard Specifications for Public Works Construction or as otherwise provided in this contract. Should the contractor be delayed by an act of the owner or the owner’s representatives or employees, or should the owner order a stoppage of the work for sufficient cause, an extension of time shall be granted by the owner by written authorization upon written application, which extension shall not be unreasonably denied, to compensate for the delay.
