Dallas-Fort Worth-Arlington, Denton-Lewisville
and McKinney Transportation Management Area
2017 FHWA/FTA Certification Action

Rob Franke, P.E., RTC Chair
Mayor, City of Cedar Hill
285 Uptown Blvd.
Cedar Hill, TX 75104

Dear Mayor Franke:

The Fixing America’s Surface Transportation Act ‘FAST Act’ retained the requirements for the Federal Highway Administration and Federal Transit Administration (FHWA/FTA) to review and certify the planning processes for large Metropolitan Planning Organizations (MPOs) not less than once every four years. Past FHWA/FTA certification actions on the Dallas-Fort Worth-Arlington, Denton-Lewisville and McKinney Transportation Management Area (TMA) were reflected in letters and/or reports dated 1996, 1999, 2002, 2005, 2009 and 2013.

The 2017 review of the Dallas-Fort Worth-Arlington, Denton-Lewisville and McKinney TMA planning process relies on several FHWA/FTA methods to monitor and assess the outcomes of the metropolitan transportation planning process including, but not limited to:

- a site visit conducted by representatives from the FHWA/FTA on June 13 to 15 where time was spent with staff from the North Central Texas Council of Governments (NCTCOG), the Texas Department of Transportation (TxDOT) and two transit organizations to discuss the status of the TMAs’ metropolitan transportation planning process;
- review and approval of the MPO’s 2016-2017 Unified Planning Work Program (UPWP);
- review of the 2040 metropolitan transportation plan (MTP);
- issuance of a finding that the MPO’s 2017-2020 Transportation Improvement Program (TIP) resulted from the 3-C (continuing, cooperative, and comprehensive) process;
- issuance of a finding that the MTP meets all the requirements for making a joint conformity determination under the Clean Air Act Amendments of 1990; and
- periodic meeting participation/attendance (e.g., Regional Transportation Council (RTC), TxDOT/NCTCOG Coordination, Planning and Environmental Linkages).

In general, the 2017 review determined the continued existence of a ‘3-C’ metropolitan transportation planning process that satisfies the provisions of 23 U.S.C. 134 and 49 U.S.C. 1607. Based on overall findings, FHWA/FTA hereby certify the Dallas-Fort Worth-Arlington, Denton-Lewisville and McKinney TMA planning process.

RECEIVED

OCT 10 2017

TRANSPORTATION
The Certification Review report that documents the various components of the 2017 review will be provided separately to the Regional Transportation Council (RTC), TxDOT, transit organizations and the North Texas Transportation Authority. The report provides an overview of the metropolitan planning organization certification process; summarizes the various discussions from the site visit and notes commendations and recommendations.

Representatives from our offices are available to formally present the review findings and the FHWA/FTA certification action at an agreed upon future RTC meeting.

If you have any questions regarding the Certification Review process and/or the Certification Review Report, please contact FTA Ronisha Hodge at (817) 978-0576 or FHWA Barbara Maley at (214) 224-2175.

Sincerely yours,

/s/Robert C. Patrick

The Regional Transportation Council (RTC) reaffirms support for formula allocations from the Texas Department of Transportation (TxDOT) and between the western and eastern subregions. New revenues from "Big Projects" will be placed on this project.

TxDOT will take the lead with North Central Texas Council of Governments (NCTCOG) assistance. It is requested that TxDOT initiate efforts in these corridors with the assistance of the City of Dallas, as well as NCTCOG.

The RTC requests that the North Texas Tollway Authority waive primacy in the corridor.

The RTC wishes to see the completion of current TxDOT contracts on SH 183 and US 175 with the center section being the product of this effort.

This effort is responding to the City of Dallas request from August 9, 2017, to reject the Trinity Parkway Alternative Alignment 3C and remove this facility in the Mobility 2045 plan. The RTC requests that NCTCOG staff place this project as a corridor need in the Mobility 2045 plan and commence with public involvement.
October 10, 2017

Mr. Victor Vandergriff
Commissioner
Texas Transportation Commission
Texas Department of Transportation

P.O. Box 5888
Arlington, Texas 76005-5888

RE: City of Dallas Support for the Next “Big Projects” in the Dallas-Fort Worth Region and the Fair Share Allocation of Highway Funds Among Urban Areas

Dear Commissioner Vandergriff and Mayor Franke:

Michael Morris, Director of Transportation at NCTCOG, briefed the Dallas City Council’s Mobility Solutions, Infrastructure, and Sustainability (MSIS) Committee on October 9, 2017 regarding the Texas Transportation Commission’s initiative to fund several critically-needed big projects in the metropolitan areas of the state. In advance of the Regional Transportation Council meeting on October 12th, the City of Dallas would like to communicate its support for the two Dallas-Fort Worth area projects that are largely within the City of Dallas:

1. IH 635 LBJ Freeway East from US 75 to and including the IH 30 Interchange

2. Dallas CBD Interstate Freeways – SH 183 / IH 35E / IH 45 / US 175

The IH 635 LBJ Freeway East project has long been identified as the next highest priority now that the Southern Gateway (IH 35E / US 67) and the Lowest Stemmons projects are moving forward to construction. The community strongly supports the IH 635 LBJ Freeway East project, and it is imperative that it, including the Skillman/Audelia bridge replacement project, move as quickly as possible to construction.

The Dallas City Council took action on August 9, 2017 to reject the Trinity Parkway as a reliever route around downtown Dallas. The CBD Interstates project will address mobility needs along highways feeding into and around the Dallas Central Business District. TxDOT, NCTCOG, and the City of Dallas need to work cooperatively to define this project and build community consensus on improvements that will provide needed capacity and enhance the urban neighborhoods through which they pass.

Finally, the City understands and agrees that the DFW region has invested heavily for many years in highway projects that support state and regional mobility priorities using toll roads, tolled managed lanes, and local bond funds. This investment was predicated on an understanding that federal and state highway
funds would be formula allocated so that our region would not be in a disadvantage for future project selections.

The City of Dallas MSIS Committee voted unanimously to support the RTC policy positions for the projects identified in the DFW region, and to reaffirm support for formula allocation of federal and state highway funding from the Texas Department of Transportation.

The City of Dallas appreciates the efforts of the Texas Transportation Commission and the Regional Transportation Council to identify and commit funding to large highway projects. We look forward to working with TxDOT on the design and implementation of these projects.

Sincerely,

Lee M. Kleinman
Mobility Solutions, Infrastructure, and Sustainability Committee

DALLAS — The stretch of highway just north of downtown Dallas where Woodall Rodgers Freeway and the Dallas North Tollway flow into Interstate 35E is getting much needed relief.

As part of TxDOT’s Texas Clear Lanes initiative, the Lowest Stemmons project will build two direct connector lanes along either side of I-35, dramatically easing congestion on that 2-mile stretch of highway.

“The Texas Clear Lanes initiative is intended to ease congestion on roads across the state,” said Kelly Selman, chief engineer of the Dallas District. “The Lowest Stemmons project is vital to North Texas, because this stretch of I-35 is one of the state’s most congested.”

About 240,000 cars use Lowest Stemmons daily. The stretch of I-35E ranked as the eighth most congested highway in Texas this year. The $79 million project runs from I-30 to just north of Oak Lawn Avenue and will be substantially complete in early 2019.

Also in Dallas County, TxDOT recently started the US 67 widening project—a breakout project from the Southern Gateway. It also began last month through coordination between TxDOT and the cities of Duncanville and Cedar Hill.

The goal of the $59 million US 67 widening project is to increase capacity, manage traffic congestion, and improve operations and local access. The project will widen US 67 from two lanes to three in each direction.

Various intersection improvements are also part of the project. In addition, some entrance and exit ramp locations will be swapped and frontage road sections will be widened to provide auxiliary lanes for smoother merging near intersections.

Part of the project is the construction of two U-turn lanes, one at Belt Line Road and one at FM 1382, and a new traffic signal at Wintergreen Road.

Construction began with the establishment of the work zone in September and the project is expected to be substantially complete in mid-2019. Funding includes contributions from the cities as well as funds from Proposition 1 and the state.

Report a pothole:
As one of its goals, TxDOT works to keep the highways passable during inclement weather.

At the height of TxDOT’s response to Hurricane Harvey:

- **Over 2,500 employees**
- **Over 2,000 pieces of equipment**
- **Over 2.4 million cubic feet of debris removed (equal to 45 football fields covered 1 foot deep in garbage)** as of Sept. 2017

**Hurricane Harvey**

TxDOT employees from across the state were prepared prior to the arrival of Hurricane Harvey and quickly moved into the affected areas to begin the arduous task of cleanup, repair and restoration of impacted roadways throughout Southeast Texas. At the storm’s peak, 539 highways were closed or flooded. A week later, TxDOT had inspected over 700 bridges and reopened over 90 percent of the highways, but over $50 million in infrastructure repairs will be needed. During the catastrophic flooding, TxDOT crews also conducted high water rescues saving nine people. During Hurricane Harvey, the toll-free TxDOT Travel Information Line (800-452-9292) received 163,000 calls with 5 million hits to TxDOT’s DriveTexas.org website. All 25 TxDOT districts have participated with the hurricane response. TxDOT will continue to assist with the cleanup effort as long as it takes.

**I-820 East Loop**

A public hearing will be held for the I-820 East Loop Oct. 5 at 7 p.m. at The Link in Richland Hills. The proposed improvements would reconstruct I-820 from SH 121/183 to Randol Mill Road, and SH 121 from Handley Ederville Road to the south interchange with I-820. The first phase is scheduled to begin in 2018. The $200 million Congestion Relief project will add one mainlane each direction on I-820 and provide new bridges and direct connections.

**PAVED**

On Oct. 13, TxDOT will host an event at its district office in Fort Worth highlighting upcoming subcontracting opportunities for construction and maintenance projects in the Fort Worth area. Projects Adding Value by Expanding Diversity (PAVED) is an initiative to increase disadvantaged business enterprise (DBE) participation in heavy highway construction projects. The TxDOT projects will include the I-820 East Loop.

**I-35W**

An open house for I-35W will be held Oct. 3 in Fort Worth at the Alliance Town Center. The public will learn about upcoming milestones on current construction and plans for extending the project north. The next phase from U.S. 81/287 to Eagle Parkway is estimated to be underway in 2018. The project from north of I-30 to U.S. 81/287 is on track for completion in fall 2018.

HARVEY response

Hurricane Harvey made landfall on Aug. 24 as a Category 4 hurricane, flattening structures along our Texas coast and flooding some cities with an unprecedented 50 inches of rain. TxDOT assisted in 24-hour recovery operations to remove debris, inspect bridges, repair traffic signals, and repair and reopen damaged roads.
TxDOT uses new technology to be more efficient

The Fort Worth District has been at the forefront of several new research methods that have resulted in a better infrastructure and environment. Working closely with researchers at the University of Texas, the district is using engineered materials such as geocells and geofoam to bolster the earth, and slow down the settling of roadways and bridges.

The district is currently working with industry partners to evaluate Intelligent Compaction as a safer alternative to nuclear density gauges for measuring soil and aggregate density. Tests show that this method provides better quality and quicker, more accurate results.

Using these new technologies is making TxDOT more efficient and will have positive impacts on the industry for years to come. Research has been the foundation for the department and will continue to take us into the future.

On a statewide effort, TxDOT will join research teams from Fort Worth, Dallas, Arlington and other Texas cities at the Texas Mobility Summit 2.0 in Houston on Oct. 15-17. Hosted by the Texas Innovation Alliance, the summit is an effort to generate collaborative solutions to the state’s mobility challenges and to discuss the role emerging technologies will play in improving safety and enhancing mobility. For more information, go to www.ctr.utexas.edu.

TxDOT is implementing new research methods. UPPER LEFT: Shaped like honeycomb and filled with granular material, geocells create a stiff layer below the pavement. UPPER RIGHT: TxDOT uses geofoam under bridge approach slabs on U.S. 67 in Cleburne to prevent soil settlement. Similar to Styrofoam coffee cups, the engineered material helps keep bridge approaches smoother. LOWER LEFT: Intelligent Compaction occurs when a computer is used on a compaction roller to measure vibrations for more uniform and longer-lasting pavements.
OVERVIEW
The initial $1 billion DFW Connector project simultaneously designed and built 8.4 miles in Grapevine, Southlake and Irving, and it doubled the size of the existing highway system around the north DFW International Airport entrance.

Funding constraints required some original DFW Connector segments to be deferred. However, since 2013, TxDOT has been able to identify funding for FM 2499, new SH 121/360 ramps, the SH 121/360 interchange, and SH 121 interchanges at I-635 and FM 2499.

FM 2499 work included rebuilding the mainlanes from SH 121 to Denton Creek. The SH 121/360 ramps project constructed new on-ramps from the southbound SH 121 frontage road (William D. Tate Avenue) to SH 121 and SH 360.

Currently under construction is the SH 121/360 interchange, and construction is estimated to begin in 2019 on the SH 121 interchanges at I-635 and FM 2499.

PROJECT HISTORY
- March 2006 – Texas Transportation Commission authorized request for CDA proposals.
- March 26, 2009 – CDA conditionally awarded to North Gate Constructors.
- Jan. 2013 – TxDOT identified $90 million in funding for FM 2499.
- Sept. 2014 – TxDOT signs $17 million contract for the SH 121/360 ramp project.
- Feb. 2016 – SH 121/360 interchange project approved for Texas Clear Lanes congestion relief funding.
- Aug. 30, 2016 – SH 121/360 interchange groundbreaking held.
- March 2017 – SH 121 interchanges at I-635 and FM 2499 approved for TCL congestion relief funding.

FM 2499 PROJECT FACTS
LENGTH: 1 mile
NUMBER OF LANES
- Two mainlanes in each direction built below the existing grade level, allowing commuters to bypass two intersections
- Two frontage road lanes in each direction at grade level

COST: $92 M (FUNDED ENTIRELY BY TXDOT)
- Cat. 12 (Texas Transportation Commission approval in Jan. 2013)

CONSTRUCTION DATES
- Construction start: Aug. 2013
- Substantial completion: Summer 2016

SH 121/360 RAMPS FACTS
COST: $17 MILLION
CONSTRUCTION DATES
- Construction start: Early 2015
- Substantial completion: Nov. 2015

SH 121/360 PROJECT FACTS
LENGTH: 1.6 miles
SCOPE: New direct connectors for SH 114, SH 121 and SH 360

COST: $61 MILLION
CONSTRUCTION DATES
- Substantial completion: 2018

TRAFFIC COUNTS (VEH PER DAY, 2015)
- SH 114/121 north of SH 360: 184,000
- SH 360 south of SH 114/121: 71,000

ORIGINAL PHASE DFW CONNECTOR PROJECT FACTS
LENGTH: 8.4 miles
NON-TOLL LANES (WIDEST POINTS)
- 6 to 8 WB, 6 EB between William D. Tate Avenue and International Pkwy.
- 4 to 7 NB and 3 to 6 SB at SH 121 near DFW Airport’s north entrance

TEXPRESS LANES
- Four miles, two in each dir. on SH 114

COST: $1 B (FUNDED BY TXDOT)
- TxDOT: $696 million; ARRA funds: $261 million; Prop. 14 bonds: $17.2 million; Prop. 12 bonds: $32 million
- ROW: $127 million (Prop. 14 funds)

CONSTRUCTION DATES
- Construction started: Feb. 2010
- Final acceptance: March 2014
OVERVIEW

Interstate 35E (I-35E) serves the rapidly growing areas of southern and central Denton County, as well as the major Dallas suburbs immediately north of I-635. This corridor functions as a major artery for hundreds of thousands of commuters, as well as a primary link to major universities in the city of Denton, including the fourth-largest university in the state, the University of North Texas (UNT). In addition, I-35E is an important truck corridor and accommodates more than 12,000 trucks daily. The interstate also handles almost 200,000 total vehicles daily near I-635, and 128,000 vehicles a day across Lewisville Lake. Furthermore, due to the lack of continuous frontage roads across Lewisville Lake, there are no viable north-south commuting alternatives to I-35E at this crossing. Therefore, it is imperative to provide motorists reliable alternatives with a combination of continuous frontage roads and TEXpress managed lanes.

The $4.8 billion project, proposed to be constructed in phases, would rebuild the entire 30-mile corridor and provide reversible managed lanes that feature dynamic pricing to keep traffic moving at 50 mph. Approximately $1.4 billion in funding has been identified for Phase 1 of this project, which includes SH 121 regional toll revenue (RTR) funds dedicated to Denton County. Phase 2 of the project will occur when the additional funding becomes available.

PROJECT HISTORY
- 1950s and 1960s – I-35E constructed
- Began 1998 – Major Investment Study for future expansion
- Sept. 30, 2009 – Express Lane Demonstration Program approval by Federal Highway Administration
- March 2012 – The Senate Bill (SB) 1420 Committee determined that Phase 1 of the project should be delivered as a design-build project with public financing and utilizing the Regional Transportation Council managed lane policy.
- Issued 1/23/12; Received 3/23/12 – Request for Qualifications (RFQs)
- Issued 7/13/12; Received 11/12/12 – Request for Proposals (RFPs)
- Dec. 13, 2012 – AGL Constructors, comprised of Archer Western, Granite and LANE Constructors, were selected and awarded the contract
- May 17, 2013 – Contract Executed
- May 2013 – TxDOT issued Notice to Proceed (NTP) 1 to AGL to begin design; Sept. 2013 – NTP 2 for construction
- Late October 2013 – Construction began

ENVIRONMENTAL REVIEW STATUS
- Environmental Assessment Public Meetings: 2008
- Environmental Assessment Process: 2003-2012 (complete)
- Finding of No Significant Impact by FHWA:
  - 12/28/11 – South segment; 1/28/11 – Middle segment; 1/31/12 – North segment
- All Public Hearings have been completed
- Phase 1 FHWA environmental concurrence:
  - 2/15/13 – South segment; 4/18/13 – Middle segment; 3/11/13 – North segment

PROJECT FACTS
- South seg. (I-635 to PGFB): 7.5 miles
- Middle seg. (PGFB to FM 2181): 12.1 miles
- North seg. (FM 2181 to US 380): 10.5 miles
- Additional general purpose lane in each direction: North of SH 121 to US 380
- Two reversible TEXpress Lanes (toll lanes) from I-635 to Turbeville/Hundley
- New SB bridge over Lewisville Lake
- Belt Line Road intersection reconstruction
- Intersection/bridge improvements at Dickerson, FM 407, Garden Ridge, S. Denton/Oak, Turbeville/Hundley, Corinth, Post Oak, North Texas Blvd.
- Substantial completion: Fall 2017

PROJECT PROGRESS
- Mainlanes, frontage roads and entry/exit ramps are in their final configuration.
- Park improvements continue at Copperas Branch Park in Highland Village.
- Final paving and striping will be completed by the end of Fall 2017.

FUNDING
- Federal – $460 million
- State – $979 million (including $534 million in Denton County RTR funds and $285 million TIFIA loan funds),
- Local – $14 million
### PROJECT LIMITS

#### Roadway and Limits

**South:**
- North of I-35 to President George Bush Turnpike
  - Existing frontage road (FR) lanes (Each dir.): 2 - 3
  - Existing main lanes (Each dir.): 3
  - Interim*** FR lanes (Each dir., 2016): 2 - 3
  - Interim*** general purpose lanes (Each dir., 2016): 3
  - Interim*** reversible managed lanes (2016): 2

**Middle:**
- President George Bush Turnpike to Turbeville Rd.
  - Existing main lanes (Each dir.): 2 - 3
  - Existing HOV lanes (Each dir.): 2
  - Interim*** FR lanes (Each dir., 2016): 2 - 3
  - Interim*** general purpose lanes (Each dir., 2016): 3
  - Interim*** reversible managed lanes (2016): 2

**North:**
- Turbeville Rd. to U.S. 380
  - Existing FR lanes (Each dir.): 2 - 3
  - Proposed frontage road lanes (Each dir., 2030): 2 - 3
  - Proposed general purpose lanes (Each dir., 2030): 4
  - Proposed managed lanes (Each dir., 2030): 4

* Discontinuous. ** PGBT to SH 121. *** Interim configuration relies primarily on use of existing pavement for expansion. Final configuration involves reconstruction of remainder of the corridor.

**NOTE:** Highlighted areas are not to scale.

INTERSTATE 35W
TxDOT PROJECT TRACKER

OVERVIEW
The Interstate 35W improvement project spans 18 miles in Fort Worth and includes a section that is currently ranked number 23 on the state's most congested roadway list. Plans to reduce the congestion by doubling capacity include interim projects to reconstruct the existing lanes and add TEXpress Lanes in each direction.

The project will be built in segments. The NTE Mobility Partners Segments 3, LLC (NTEMP3) is constructing Segment 3A, from north of I-30 to north of I-820 including the I-35W/I-820 interchange. The Texas Department of Transportation (TxDOT) constructed Segment 3B, from north of I-820 to US 81/287. Segment 3C, from US 81/287 to Eagle Parkway, is estimated to begin construction in 2018. I-35W currently carries 119,000 vehicles daily near downtown Fort Worth and 141,000 north of I-820. Approximately 11 percent of the vehicles are trucks.

PROJECT HISTORY
- January 29, 2009 – CDA conditionally awarded to NTEMP
- July 6, 2011 – NTEMP3 and TxDOT completed a Facility Implementation Plan (FIP) for 3A/3B
- April 24, 2012 – The U.S. Department of Transportation announced that TxDOT has entered the final stage in the process for a $531 million Transportation and Infrastructure Finance and Innovation Act (TIFIA) loan to help construct Segment 3A
- Sept. 2012 – TxDOT awarded a contract for 3B to Lane Construction
- March 1, 2013 – A facility agreement between TxDOT and NTEMP3 was signed
- Sept. 19, 2013 – 3A financial close

THE 3B PORTION: (I-820 to US 81/287)
- This segment is substantially complete with all lanes in their final location. The contractor is currently completing finish work on corridor aesthetics.

THE 3C PORTION: (US 81/287 to Eagle Parkway) This project is estimated to begin construction in 2018.

PROJECT FACTS
LENGTH
- Segment 3A (I-35W from N of I-30 to N of I-820 including the I-35W/I-820 interchange) 6.5 miles
- Segment 3B (I-35W from N of I-820 to US 81/287) 3.6 miles
- Segment 3C (I-35W from US 81/287 to Eagle Parkway) 8 miles

TEXPRESS LANES
- Segments 3A, 3B, & 3C: Two SB lanes (3C Proposed)
- Max. initial travel cost: 75 cents per mile

COST
- Segment 3A: $1.4 billion
- Segment 3B: $244 million
- Segment 3C: $700 million (proposed)

FUNDING
- Segment 3A: $531 million federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan; $442 million developer equity; $274 million Private Activity Bonds (PABs); $145 million provided by Metropolitan Planning Organization; $46.5 million interest income
- Segment 3B: $135 million Category 12; $65 million Fund 6

RIGHT OF WAY
- Segment 3A: Complete
- Segment 3B: Complete

CONSTRUCTION DATES
- Segment 3A: Construction start - May 2014; estimated completion - 2018
- Segment 3C: Estimated construction start - 2018

PROJECT PROGRESS
THE 3A PORTION: (I-30 to I-820)
- 82% complete
- Over 5.6 million man hours worked
- Finished sound wall installation just south of the Trinity River
- In the upcoming months:
  - Traffic switch on northbound I-35W south of the Trinity River
  - Reopening on-ramp to northbound I-35W from Northside Drive
**SEG** Roadway and Limits

**3C** I-35W from US 81/287 to Eagle Parkway

- Existing lanes (Each dir.) ** 2
- Frontage lanes (Each dir.) ** 2 - 3

**Interim Configuration**

- Mainlanes (Each dir.) 2
- TEXpress Lanes (Each dir.) 2
- Frontage lanes (Each dir.) 2

**SEG** Roadway and Limits

**3B** I-35W from north of I-820 to US 81/287

- Existing lanes (Each dir.) 2
- Frontage lanes (Each dir.) 2

**Interim Configuration**

- Mainlanes (Each dir.) 2
- TEXpress Lanes (Each dir.) 2
- Frontage lanes (Each dir.) 2

**Ultimate Config. as Proposed in Regional Mobility 2030 Plan**

- Mainlanes (Each dir.) **** 4
- TEXpress Lanes (Each dir.) 2 - 3
- Frontage lanes (Each dir.) 2 - 3

**SEG** Roadway and Limits

**3A** I-35W from north of I-30 to north of I-820

- Existing lanes (Each dir.) 2 - 3
- Frontage lanes (Each dir.) ** 2

**Interim Configuration**

- Mainlanes (Each dir.) 2 - 3
- TEXpress Lanes (Each dir.) 2
- Frontage lanes (Each dir.) ** 2

**Ultimate Config. as Proposed in Regional Mobility 2030 Plan**

- Mainlanes (Each dir.) **** 4
- TEXpress Lanes (Each dir.) 2
- Frontage lanes (Each dir.) 2 - 3

**SEG** Roadway and Limits

**3A II** SH 121 Interchange ****

**NOTE:** Highlighted areas are not to scale.

* Segments identified by number do not denote priority or sequence. ** All segments will include one-way frontage roads at identified locations and connections to all existing and proposed improvements. *** Discontinuous. **** Potential deferment of additional mainlanes. ***** Currently not funded. Ultimate capacity remains a priority to the region.

OVERVIEW

The Horseshoe Project will improve traffic flow in the heart of downtown Dallas. The $798 million project will replace the I-30 and I-35E bridges that cross the Trinity River, as well as reconstruct the interchange. The project will also feature the construction of the Margaret McDermott Bridge, Dallas’ second signature bridge designed by Santiago Calatrava. The project was aptly dubbed the “Horseshoe Project” due to its U-shape (see map) and has been given the highest priority due to the increasing bridge maintenance costs.

Within the project limits, I-30 and I-35E carry more than 460,000 vehicles per week day ranking it the 20 most congested roadways in Texas. There is rapid deterioration of bridges built in the 1930s and 1950s which has led to increasing maintenance and repair costs in recent years. Local stakeholders raised the priority to develop a financially attainable solution that addressed the safety and congestion concerns.

Pictured above: An aerial view of the Horseshoe Project looking east toward downtown Dallas of the new I-30/I-35E interchange.

PROJECT HISTORY

- Sept. 2012 – Federal Environmental Clearance
- Nov. 2012 – Conditional Award/Selection
- Feb. 2013 – Contract Execution
- Apr. 27, 2013 – Groundbreaking ceremony in downtown Dallas

PROJECT PROGRESS

- Construction continues on Dallas’ second signature bridge, the Margaret McDermott Bridge on I-30 over the Trinity River. Both the EB and WB arches are complete. Crews have started placing the deck.

- The I-35E and I-30 mainlanes are substantially complete.

- The eastbound I-30 and northbound I-35E direct connector to Woodall Rodgers opened in June 2017.

PROJECT FACTS

This project is made possible by legislation passed in 2011, which provided TxDOT with additional tools in the form of “design-build” authorization as well as additional Proposition 12 funding.

The new tools provide the opportunity to close the project funding gap and construct the project at least four years sooner than conventional project development methods could. Utilizing design-build allowed the project to get underway by late-2013 and be substantially complete as early as summer 2017.

PROJECT DETAILS

- Length: 5 miles
- Limits:
  - I-30 from Hotel Street west to Sylvan Avenue
  - I-35E from Eighth Street north to Commerce Street
- Right Of Way:
  - All parcels are acquired and are held in the name of the State of Texas
- Construction Dates:
  - Construction began in October 2013 and is scheduled for completion in summer 2017
OVERVIEW
The Midtown Express (SH 183 Managed Lanes Project) is an interim project that will increase the capacity and reconstruct portions of State Highway (SH) 183, SH 114 and Loop 12. SH 183 has served North Texas’ growing transportation needs since the 1940s. The current roadway dates back to 1959, and has remained relatively unchanged since 1973 when an additional mainlane in each direction was added. Today, the highway serves as a primary artery between Dallas and Fort Worth, but it can no longer adequately meet the demand of 150,000 to 170,000 vehicles per day. Plans include increasing the capacity of SH 183 and portions of SH 114 and Loop 12, with the addition of TEXpress (toll managed) Lanes. The TEXpress Lanes will feature dynamic tolling managed to keep traffic moving at 50 mph. The ultimate project for these roadways is not currently funded.

PROJECT HISTORY
- 1998-2000 – Major Investment Study for future expansion
- 2002 – Unsolicited proposal received for SH 183/I-820 corridor redevelopment between Interstate 35W (I-35W) and I-35E
- February 20, 2013 – A Request for Qualifications (RFQ) issued
- November 7, 2013 – TxDOT issued a final Request for Proposals (RFP)
- May 29, 2014 – Southgate Mobility Partners given conditional award
- June 24, 2014 – Financial Public Hearings held simultaneously in Dallas County and in Tarrant County
- November 20, 2014 – The contract between TxDOT and SouthGate executed
- December 2, 2014 – The project reached Notice to Proceed 1 (NTP1) and February 5, 2015 – Notice to Proceed 2 (NTP2)

PROJECT PROGRESS
- SH 114
  - Construction is scheduled to complete and the TEXpress Lanes are scheduled to open in late 2017.
  - Final paving is 50% complete.
- SH 183 – Recent milestones include:
  - Traffic on westbound SH 183 in Euless switched into its permanent alignment from Ector Dr. to SH 121.
  - All bridge beams are set on Esters Rd. bridge over SH 183.
  - Construction is 70% complete.
- SH 183 - Current construction:
  - Constructing bridges and walls at all major intersections along SH 183 in Dallas, Irving and Euless.
  - Switching traffic onto the new Trinity River bridge this fall.
- Loop 12
  - Major traffic switches implemented on north and southbound Loop 12 between I-35E and SH 183 to accommodate bridge work.

MIDTOWN EXPRESS PROJECT (ESTIMATED OPERATION: 2018)
- Length
  - SH 183 from SH 121 to I-35E: 14.8 miles
  - SH 114 from SH 183 to International Parkway: 10.5 miles
  - Loop 12 from SH 183 to I-35E: 2.5 miles
- Cost
  - $847.6 million (Design and Construction)
- Funding
  - Funding sources include CAT 2, 7, 10 and 12. TxDOT has applied for a Transportation Infrastructure Finance and Innovation Act (TIFIA) loan

RIGHT OF WAY
- Acquisition is 99% complete

PROJECT
- Obtain right of way/ relocate utilities
- Reconstruct portions of frontage roads
- Reconstruct portions of mainlanes
- Construct one TEXpress Lane in each direction on SH 183 and Loop 12.
- Construct one TEXpress Lane in each direction on SH 114 from SH 183 to SH 161 and one WB TEXpress Lane on SH 114 from SH 161 to Intl. Pkwy.

ULTIMATE PROJECT (ESTIMATED OPERATION: TBD)
- Cost
  - $2.5 billion (funding not identified)
- Project
  - Add one mainlane in each direction in some locations
  - Up to three TEXpress Lanes in each direction in some locations
  - Continuous frontage roads where applicable
  - Diamond Interchange completion

SCHEDULE
- Construction Start: April 2015
- Substantial Completion (Est.): 2018
- Ultimate construction to begin when funds become available
SH 183: (BETWEEN SH 121 AND I-35E)

FALL • 2017

MIDTOWN EXPRESS • PROJECT TRACKER
OVERVIEW
SH 360 has mirrored the growth of southern Tarrant County for decades. The Texas Department of Transportation (TxDOT) first developed and opened portions of SH 360 in 1958, and the department has regularly improved and expanded one of the region’s major north-south arteries ever since. South of Interstate 20, TxDOT has completed four projects since 1994 that extend mainlanes to Green Oaks Boulevard SE and extend frontage roads to US 287. Construction on the SH 360 toll lanes south of I-20 to US 287 began in November 2015 as part of a public-public partnership between TxDOT, the North Texas Tollway Authority (NTTA), and the North Central Texas Council of Governments (NCTCOG). The initial SH 360 project will add two toll lanes in each direction from approximately two miles south of I-20 near East Sublett Road to US 287. The project is being built using the design-build construction method, which typically cuts construction time in half.

PROJECT HISTORY
- 1994 – First frontage road project south of I-20 (I-20 to New York Avenue)
- 1997 – Frontage road project (New York Avenue to East Broad Street)
- 2003 – Frontage road project (East Broad Street to US 287)
- 2006 – Interchange project at Green Oaks Boulevard including mainlanes from I-20 to Sublett Road
- Dec. 5, 2013 – The Regional Transportation Council (RTC) approved a resolution to financially backstop TxDOT’s $300 million loan to develop, finance and construct SH 360
- Jan. 16, 2014 – Environmental clearance received
- Feb. 19, 2014 – NTTA’s Executive Board approved the TxDOT/NTTA Project Development Agreement (PDA)
- Feb. 27, 2014 – The Texas Transportation Commission (TTC) approved the PDA and authorized TxDOT to issue a Request for Qualifications (RFQ)
- Mar. 11, 2014 – TxDOT issued an RFQ
- Sept. 8, 2014 – TxDOT released the final Request for Proposals (RFP)
- Feb. 26, 2015 – The Texas Transportation Commission conditionally awarded the development contract to Lane-Abrams Joint Venture
- May 15, 2015 – The contract between TxDOT and Lane-Abrams Joint Venture was executed
- Oct. 21, 2015 – Groundbreaking held

PROGRESS

BRIDGE OPENINGS
- Lynn Creek Parkway/Webb Lynn Road: Opened May 2017
- Broad Street: Opened June 2017
- Heritage Parkway: Opened July 2017
- Debbie Lane/Ragland Road: Opened Sept. 2017
- Sublett Road/Camp Wisdom Road: est. early 2018
- Holland Road: est. early 2018
- US 287 over SH 360: Spring 2018
- Lone Star Road: Spring 2018
- New York Avenue: Spring 2018

PROJECT FACTS
LENGTH
- Green Oaks Boulevard to US 287: 9.7 miles

COST
- Initial project cost: $340 million with the partnerships

INITIAL PHASE
- Sublett Road/Camp Wisdom Road to Debbie Lane/Ragland Road: four toll lanes each direction
- Debbie Lane/Ragland Road to US 287: three toll lanes each direction
- US 287 interchange improvements, will include direct connectors to and from SH 360 northbound.
- Funds for the ultimate phase have not been identified.

ULTIMATE PHASE
- Sublett Road/Camp Wisdom Road to Debbie Lane/Ragland Road: four toll lanes each direction
- Debbie Lane/Ragland Road to US 287: three toll lanes each direction
- US 287 interchange improvements, will include direct connectors to and from SH 360 northbound.
- Funds for the ultimate phase have not been identified.

TRAFFIC COUNTS (VEHICLES PER DAY, 2016)
- At Bardin Road: 94,000
- At Southeast Parkway: 56,000
- At Holland Road: 32,000
- Anticipated traffic south of I-20 (2030 projection): 174,000

ANTICIPATED SCHEDULE (INITIAL)
- Start of construction: November 2015
- Substantial completion: Spring 2018
NOTE: Project area is not drawn to scale in order to emphasize details.

Roadway and Limits
SH 360 from Sublett Road/Camp Wisdom Road to Debbie Lane/Ragland Road
SH 360 from Debbie Lane/Ragland Road to US 287
