Regional Pedestrian Safety

Action by Regional Transportation Council (RTC)  
February 14, 2019

Regional Safety Position

“Even one death on the transportation system is unacceptable. Staff will work with our partners to develop projects, programs, and policies that assist in eliminating serious injuries and fatalities across all modes of travel”

Dallas and Fort Worth are designated by FHWA as Pedestrian Safety Focus Cities

7 States Account for 54% of Pedestrian Deaths, Jan-June 2020

Regional Pedestrian Safety Action Plan

NCTCOG initiated the regional PSAP in response to a decade of increasing pedestrian-involved crashes and fatalities

• Complements Mobility 2045
• Enhances Mobility 2045 goals and policies with a more targeted focus on pedestrian safety
• Creates a specific roadmap for activities, investments, and improvements in the region
• Creates a guide/template for partners to develop detailed local plans

Note: A future request will entail an equivalent bicycle safety plan to be completed.
Key Elements of the Regional Plan

1. **Demographics and contributing factors** based on reported crashes

2. **Pedestrian Crash density maps**

3. **Priority Pedestrian safety corridors** based on areas with highest reported crash history

4. **Goals and Policies** in support of RTC safety position and regional coordination

5. **Action Plan** to guide pedestrian safety projects and programs
Plan Goals:

- **Eliminate** all serious injury and fatal pedestrian crashes across the region by 2050 (Supports RTC and the TxDOT/TTC safety goals)

- **Balance the safety and needs** of all users of all ages and abilities in the transportation system design, maintenance and operation phases, with priority given to the most vulnerable users

- **Provide a high level of comfort** in the design, construction and maintenance of transportation facilities

- **Integrate** within roadway design the most direct facility alignments that prioritize safe pedestrian movements

- **Implement** all reasonable pedestrian safety countermeasures to achieve adopted regional safety performance targets

Per prior RTC direction, staff continues to work with TxDOT and private sector partners to complete additional NTE phases and other public/private partnership (PPP) projects.

Recent projections indicate general purpose and TEXpress capacity improvements are anticipated to be triggered in mid-2022, with an open-to-traffic date of June 2024.

The private sector partner is currently coordinating with TxDOT to advance the first item.

The private sector partner will be paying for these improvements in these amounts:

CMP Overview

One of 5 federally-mandated planning documents
(MTP, TIP, UPWP, Public Participation Plan, CMP)

Required for urbanized areas with populations exceeding 200,000
(also known as Transportation Management Areas “TMA”)

First enacted under ISTEA (1991) as Congestion Management System (CMS)
1994: First regional CMS adopted by Regional Transportation Council
2005: CMS amended via MTP Update
2013: Most recent update of CMP for NCTCOG
Why Do We Need Such a Process?

- Manage Travel Demands
- Reduce Single Occupancy Vehicle Travel
- Improve Efficiency of Transportation System
- Improve Safety for all Using System
- Maximize Transportation Funds
- Justify Additional Capacity is Needed
- Coordinate with Regional Partners

2022 UNIFIED TRANSPORTATION PROGRAM (UTP) AND REGIONAL 10-YEAR PLAN UPDATE

Surface Transportation Technical Committee
May 28, 2021
BACKGROUND

• Texas House Bill (HB) 20 requires that Metropolitan Planning Organizations (MPO) develop 10-Year Plans using performance-based planning and project selection methods

• Includes projects funded with Category 2 (MPO selected), Category 4 (TxDOT District selected), and Category 12 (Texas Transportation Commission selected)

• Regional 10-Year Plan was originally approved by the Regional Transportation Council (RTC) in December 2016

• This plan is updated annually in conjunction with the development of TxDOT’s UTP
ACTIVITIES UNDERTAKEN SINCE LAST UPDATE

• TxDOT began developing the 2022 UTP.

• NCTCOG staff has coordinated with the TxDOT Districts regarding project updates (e.g., costs/funding, environmental clearance and let dates), and potential new projects.

• Proposed new projects were scored using the same process used in previous years.

• To satisfy a March 12, 2021 deadline set forth by TxDOT, a draft project listing was developed that included project scores, project revisions, and potential new projects.
PRINCIPLES FOR THE DEVELOPMENT OF THE REGIONAL 10-YEAR PLAN

• Project should be included in Mobility 2045
• Focus on system versus new, stand-alone projects
• Fully fund existing projects before funding new projects
• Ensure equity of county allocations
• Maintain toll lanes/toll managed lanes on selected corridors
• Re-fund previously unfunded projects, when possible
• Ensure all RTC projects are approved in 2022 UTP (including “placeholders”)
• Projects must be scored and should have a score sufficient to qualify for funding

PROPOSED STBG/CATEGORY 2 FUNDING EXCHANGE

- Given that Surface Transportation Block Grant (STBG) funds are not being obligated as quickly as needed, a STBG/Category 2 funding exchange is being proposed.
- Two projects were identified for this proposal: US 287 in Johnson and Tarrant Counties and State Loop 9 in Dallas and Ellis Counties.
- The US 287 projects have ~$34M of Category 2 funding, which will be exchanged with ~$34M of STBG funds.
- The State Loop 9 projects have ~$107M of Category 2 funding, which will be exchanged with ~$107M of STBG funds.
- Both projects were selected because they can be let in FY 2021, which will allow the region to quickly reduce the carryover balance of STBG funds.
- A proposal will be brought back with specific projects on which to program the freed-up Category 2 funds.
