

North Central Texas Council of Governments

TO: Interested Parties

DATE: July 19, 2021

FROM: Emily Beckham
Grants and Contracts Manager

SUBJECT: Request for Proposals for Freight Vehicle Intersection Optimization Services
(Updated due date for proposals)

The North Central Texas Council of Governments has elected to extend the due date for the Freight Vehicle Intersection Optimization Services Request for Proposal. The new deadline for submissions is Friday, August 6, 2021 no later than 5:00 p.m. Proposals should be submitted to Clint Hail, Transportation Planner III, North Central Texas Council of Governments, 616 Six Flags Drive, Arlington, Texas 76011 and electronic submissions to TransRFPs@nctcog.org. Proposals submitted after that time will not be considered and will be returned to the proposer unopened. A revised Request for Proposal and Instructions to Proposers is available on our website at www.nctcog.org/rfp. As always, please continue to check our website for additional updates related to the procurement.

As a reminder about the project, NCTCOG is requesting written proposals from consultant firms (Consultant) to develop, implement, and provide management services for a solution that optimizes the movement of freight vehicles through intersections in the Dallas-Fort Worth region (DFW) by reducing the number of stops at traffic lights by freight vehicles (hereinafter "freight optimization solution" or FOS). The Consultant will be tasked with working with local governments and the freight industry to implement the freight optimization solution and then be responsible for maintaining the FOS, providing regular reporting on FOS operation, and working with industry and local jurisdictions to optimize the FOS and maximize benefits to the region. We appreciate your consideration of this request.
