X. SUMMARY

Over $6 billion dollars in transportation projects are detailed in the proceeding pages of the 2008-2011 Transportation Improvement Program. While these projects are individually listed in Chapter VII, a series of maps was developed and displayed below in order to more fully communicate the extent of transportation projects and funding in the Dallas-Fort Worth area.

Exhibit X-1 shows projects that have been completed between May 2005 (when the last transportation improvement program was finalized) and March 2007. Exhibits X-2 through X-5 depict projects approved for funding in the FY 2008-FY 2011 timeframe.
Completed Transportation Projects
 Since May 2005

Legend
- Addition of Lanes
- Bike/Pedestrian
- Bottleneck Removal
- Grade Separation
- HOV
