Summary of Presentations

The Unified Planning Work Program (UPWP) summarizes transportation activities for NCTCOG’s metropolitan planning area, which covers a 12-county region. The UPWP is divided into five major task areas:

- Administration and Management
- Transportation Data Development and Maintenance
- Short-Range Planning and Programming and Air Quality and Transit Operations
- Metropolitan Transportation Plan
- Special Studies and System Operations

The modifications included in this round of amendments address additional funding for air quality management and regional transportation studies as well funding adjustments for transit initiatives and automated vehicle technologies.
The RTC will take action on the FY2020 and FY2021 UPWP modifications in October 2019.

**Proposed Modifications to the List of Funded Projects presentation:**

A comprehensive list of funded transportation projects through 2022 is maintained in the Transportation Improvement Program (TIP). Projects with committed funds from federal, State and local sources are included in the TIP. To maintain an accurate project listing, this document is updated on a regular basis.

The current modification cycle includes project updates and adjustments for transportation initiatives in Cedar Hill, Dallas, Frisco, Garland, Haltom City, Hurst and Weatherford. Additionally, proposed projects to be added to the TIP include a feasibility study on the construction of a Texas U-turn at Northwest Highway and Dallas North Tollway as well as a City of Irving bicycle master plan.
