PUBLIC COMMENTS REPORT

WRITTEN COMMENTS SUBMITTED BY WEBSITE, EMAIL & SOCIAL MEDIA

Purpose

The public comments report is in accordance with the NCTCOG Transportation Department Public Participation Process, which became effective June 1, 1994, as approved by the Regional Transportation Council (RTC), the transportation policy board for the Metropolitan Planning Organization (MPO) and amended on November 8, 2018.

This report is a compilation of general public comments submitted by members of the public from Tuesday, July 20, through Thursday, August 19. Comments and questions are submitted for the record and can be submitted via Facebook, Twitter, fax, email and online.

This month, public comments were received on a number of topics across social media platforms and via email. Bicycle and pedestrian comments were in the majority.

In addition, comments were accepted through a new, online map tool. Users can drop a pin on a location in the region and leave a detailed comment. This month, there were 15 bicycle and pedestrian comments, 10 transit comment and 31 roadway comments. Electric Vehicles

1. Gregory Clayton

To whom it may concern, I am very interested in participating in the Texas clean air act and would like to purchase a 2012 to 14 Nissan leaf but in order to achieve the driving range of 100 said miles the car will require a newer battery. The cost for a new lithium ion battery for this vehicle is at least $10,000., thus making the car reliable but unaffordable for me. Are there any programs out there that can help with this type of situation.

Response by NCTCOG Transportation Staff

Hi Gregory-
Thank you for reaching out. Unfortunately there are no programs I am aware of that help with battery replacement costs at this time. I would encourage you to reach out to Nissan, as many EVs have battery warranties up to 10 years or up to a certain mileage.

Let me know if have any other questions.

1. Four new Tesla supercharger stalls were added in Centerville, TX before the 4th of July weekend at Woody’s Smokehouse, thanks to the swift help of Oncor Electric. The new site provides relief to the Tesla network along I-45 between Dallas and Houston: https://tesla.com/findus/location/supercharger/centervilletxsupercharger. – NCTCOGTransportation (@NCTCOGtrans)

Great job, everyone! How do we get a few more of these dotted around DFW? The more the merrier! – Clayton Meeker (@Clm1403)

I drive daily throughout parts of Tarrant County. There are several areas where I typically see traffic backing up. One is a bottleneck westbound on North Loop 820 at intersection with northbound East Loop 820. There are several bad areas on I35W. One is headed north out of downtown near intersection with 121 going east. Another is heading south into downtown near Belknap. And another is heading south on I35 near Western Center Blvd.

I don’t know if this is something you guys have any say-so on, but the speed limits are very poorly enforced. I see multiple examples of very fast, aggressive, and dangerous driving every day. And there seem to be no consequences for those drivers. It does make the experience of driving the freeways anxiety provoking. Kind of like being in a Mad Max movie at times!

Transit

I had good transportation service to my appointments Amerigroup now does the reservations and use Logisticare van service for transportation must be another company they are using. The van service arrived at my house early and had to go to the infusion center in Fort Worth, Texas for both appointments and we arrived early yet I had the same driver and knew where I was going. I think I solved the transportation problem and I will be getting a bus pass from Trinity Metro van service/ ACCESS paratransit van service thank you for your help trying to solve the problems.

Can you share with the city council my idea that expanded public transportation efforts should be focused around the Lancaster area train station. Buses to and from the train depot could transport passengers to business districts in the city. Late buses could facilitate after hour work related meetings and late work shifts. My dream is to have the commuter passenger line reopen in Granbury. It used to go from there to Fort Worth. We could incorporate stops along the way, for example, Cresson, and maybe Benbrook.
