   - Wilson Creek - 4.08 mi.
   - Rowlett Creek - 4.51 mi.

- 300 miles of regional trails in proximity to major employment centers.
- 341 miles of regional trails in full development.
- Over 300 miles of regional trails are displayed on the map and highlighted due to their regional connectivity, proximity to major employment centers, and access to transit stops and schools.
- These highlighted trails travel through a wide variety of environments and numerous attractions along the way. In addition there are hundreds of miles of local trails located in cities throughout the region. Find one near you at: nctcog.org/bikeweb

People all over the region walk and bike to get to work or school, access transit stops, run errands, visit friends and exercise. The use of shared-use paths (trails) help to reduce vehicle congestion on roadways, improve air quality, and enhance the health of residents across North Texas.

We encourage you to explore each of the highlighted trails to see for yourself how active transportation can benefit you in your daily life. For safety tips when bicycling in North Texas visit: LookOutTexans.org
1 Tarrant County

Tarrant County has an extensive network of trails providing walking and biking access to numerous destinations. The Trinity Trails include a system of shared-use paths along or near the Trinity River and its tributaries in central Fort Worth, extending eastward through Arlington to Dallas County. In Fort Worth, there are over 30 miles of off-street trails for walking, running, cycling, and other uses. The city’s trail network connects with 21 parks, the Fort Worth Botanic Garden, Fort Worth Zoo, downtown Fort Worth and the Historic Stockyards, and the Naval Air Station Joint Reserve Base Fort Worth.

In Arlington, the Village Creek and River Legacy Trails span 13 miles, beginning in west Arlington and leading through River Legacy Park. The Cotton Belt Trail in the northern portion of the county currently extends more than 12 miles along the former Cotton Belt railroad and provides access to many neighborhoods. TIE Rail commuter rail stations, business districts, schools, and city parks through North Richland Hills, Keller, Hurst, Colleyville, and Grapevine.

For more information about trails in Tarrant County can be found at: streamsandvalleys.org and naturallyfun.org/trails.

For the latest maps and other trail information visit nctcog.org/bikeweb and the various websites hosted by cities, counties, and bicycle clubs throughout our region.

2 Dallas County

An extensive network of off-street trails extends outward from central Dallas to throughout Dallas County. The trail network travels through a diverse range of urban neighborhoods, greenways and parks with connections to various Dallas Area Rapid Transit (DART) bus stops and light rail stations.

In Irving, the Campion Trail is a master-planned, 22-mile greenbelt along the Ben Fork and West Fork of the Trinity River. In southern Irving, the Campion Trail connects with the Trinity Skyline Trail in Dallas and the Lone Star Trail in Grand Prairie near Running Bear Park, extending west to Lone Star Park entertainment complex at Beltline Rd./I-30 which contains the Verizon Theatre, a horse racing track, and a minor league baseball stadium. Trails in northern Dallas provide several access to numerous communities including a vast network of trails and on-street bikeways across Richardson leading to destinations in southern Collin County.

More information about these trails can be found at: dallasparkstrails.com or nctcog.org/Dallas/Trails.

3 Denton County

The Denton Branch Trail travels 19 miles along the Denton County Transportation Authority (DCTA), a train commuter rail line. The Rail Trail generally parallels IH 35E primarily in the right-of-way of the former Missouri-Kansas-Texas Railroad, extending from the Downtown Denton Transit Center on the north to the DCTA Hebron Station in Lewisville on the south.

The trail provides safe access for bicyclists and pedestrians to numerous destinations including schools, shopping centers, and residential areas. The trail also connects to commuter rail stations and the cities of Denton, Lake Dallas, Corinth, Hickory Creek, Highland Village, and Lewisville. More information can be found at: dcta.net/service-overview/a-train-rail-trail

For the latest maps and other trail information visit nctcog.org/bikeweb and the various websites hosted by cities, counties, and bicycle clubs throughout our region.

4 Collin County

A series of trails meander through several cities in Collin County providing access to many destinations throughout the county, making it possible to complete walking or biking trips across Plano, Allen, McKinney, and Frisco.

There are currently more than 70 miles of trails in Plano and the citywide network in Allen consist of more than 45 miles of trails focused on connecting to major destinations. Both McKinney and Frisco have a growing network of trails that connect neighborhoods to numerous destinations including parks and community centers.

More information about trails in Collin County can be found at: plano.gov/trails, cityofAllen.org/trails, mckinneytexas.org/trails and frisco.gov/trails.

5 Fort Worth to Dallas Regional Trail

The Fort Worth to Dallas Regional Trail is currently in various stages of engineering design and construction from Downtown Fort Worth in the west through the cities of Arlington, Grand Prairie, and Irving to Downtown Dallas on the east.

Currently various sections of the trail are open in each of the cities and trail users can access numerous schools, employment centers, and Trinity Railway Express rail stations throughout the corridor. Construction of the remaining trail sections is anticipated to be fully complete by late 2023, resulting in a more than 53-mile continuous trail alignment connecting the five cities. The regional trail has been highlighted by area mayors as a resource and asset for economic development, tourism, and community health.

More information about the Regional Trail can be found at: nctcog.org/FWtoDALtrail
