2020 APPORTIONMENT FUNDING AND PROGRAM OF PROJECTS DEVELOPMENT

EDGAR HERNANDEZ, SENIOR TRANSPORTATION PLANNER
DYLAN HERNANDEZ, TRANSPORTATION PLANNER
Authorization Act passed (FAST Act); Apportionments authorized annually

Authorization Act signed; Annual apportionments signed

Apportionment funds distributed to Department of Transportation
Funding appropriated through federal formula process

Funding to urbanized areas distributed using Census data, transit service metrics (NTD), and agency need

North Central Texas Urbanized Areas

Congress

President

Department of Transportation

Federal Transit Administration

North Central Texas Council of Governments

Dallas-Fort Worth-Arlington Urbanized Area

Denton-Lewisville Urbanized Area

McKinney Urbanized Area
A LOOK BACK: 2019 APPORTIONMENT DISTRIBUTION

DISTRIBUTION BY PROJECT TYPE

- Maintenance: 75%
- Vehicles: 8%
- Operations: 6%
- Other Capital Items: 11%

What is POP Development?

- Process by which traditional transit providers work with NCTCOG to determine funding needs based on current funding levels once the FTA apportionment is released
- Traditional Transit Providers – agencies providing public transportation services and recognized by the state as rural or urban transit districts
- NCTCOG staff review funding requests and work with providers to accommodate those requests within the confines of the current year apportionment in accordance with applicable regulations
- Per NCTCOG’s Regional Transportation Council policy, small provider urbanized needs will continue to be met first with the transit authorities receiving the remainder of the funds
- Awarded funding will be communicated through the Split Letter sent out by NCTCOG
  - Split Letter – establishes the allocation of apportionment funds

</tbody>
</table>

*1st Split Letter will address 2020 POP placeholders submitted through the May 2020 TIP modification cycle
Only expenses attributable to the urbanized area will be eligible for reimbursement

Two Split Letter Process

Subrecipients: 2020 Apportionment will account for capital expenditures through June 2022

Subrecipients: List of anticipated procurements will need to be submitted before award if requesting funding for project administration and capital projects

Subrecipients: Procurement timelines, 3-5 year Capital Improvement Plans, Cost Allocation Plans, and Architectural statements for Intelligent Transportation Systems projects
Focus on National Transit Database reporting
- More service provided and reported in the urbanized area = More urban funds for the region

Plan ahead on how formula funds will be used for urban services
- Ensure financial resources are proportionate to the federal funding requested
- Ensure a local match is in place for the federal funding requested

NCTCOG requirements to continue receiving formula funds
- Work with your Project Managers to develop your Program of Projects
- Submission of annual audits
- Adequate financial controls carried out by qualified personnel with checks and balances in place

FTA requirements must be met to continue receiving formula funds
- FTA’s Certifications and Assurances
- Direct recipients can reach out to their FTA planner for further information

REPORT YEAR 2019 REPORTING UPDATES

NCTCOG has submitted an Annual NTD Report for The City of Cleburne Transportation, Public Transit Services, SPAN Inc., and STAR Transit to the National Transit Database (NTD), meeting the reporting deadline of January 30th for agencies with a fiscal year ending in August or September.

- CTS' Report Year 2019 NTD report will be submitted on or before April 30th

What to expect after the initial submission of your NTD report

- NCTCOG will request each of our subrecipients submit the final audit for all federal grant programs once available. This audit will be reviewed and the financial data for each NTD report will be updated accordingly.
- NCTCOG will work diligently to close out each NTD report upon receipt and subsequent review of the final audit. Upon closeout, each transit agency will be provided with a copy of their NTD report closeout letter confirming the report was officially accepted by the FTA.
Beginning in Report Year 2018, all recipients of FTA funding are required to submit an IAS-FD once every 10 years.

What is the Independent Auditor Statement for Financial Data?

The Independent Auditor Statement for Financial Data (IAS-FD) is a written statement provided by an independent firm which states all financial data presented in the NTD report is compliant with the Uniform System of Accounts (USOA) and as such, conforms to the accrual basis of accounting per FTA’s USOA Section 1.4.

Agency’s will be required to renew their IAS-FD if their accounting system undergoes major changes prior to the decennial benchmark.

- Major changes to an accounting system would include any deviation from the following NTD requirements,
  - The reporting agency records revenues and expenses using the accrual basis of accounting, per USOA Policy Manual
  - The reporting agency has followed the accounting guidance specified throughout the USOA Policy Manual
  - The reporting agency has cross-walked its chart of accounts to the object classes employed in the USOA and has adequately documented this crosswalk

This requirement is not retroactive. As such, any agency that submitted a waiver for this requirement in Report Year 2018 will be required to submit an IAS-FD with their Annual NTD Report in Report Year 2019 and will still be required to renew their IAS-FD in Report Year 2028.
City of Cleburne Transportation, Public Transit Services, and SPAN Inc., submitted an IAS-FD with their Report Year 2018 NTD Report. Each agency will be required to renew their IAS-FD in Report Year 2028.

As a full reporter, STAR Transit has continued to comply with NTD reporting requirements and most recently submitted an IAS-FD for Report Year 2011. STAR will be required to renew their IAS-FD in Report Year 2021.

CTS was granted a small systems waiver for the IAS-FD requirement in Report Year 2018. CTS will submit their IAS-FD in Report Year 2019. CTS will be required to renew their IAS-FD in Report Year 2028.
Beginning with Annual Reports to be submitted for Report Year 2020, NCTCOG will request supporting documentation for funds earned and expended on operations and capital projects be submitted in conjunction with your financial data. This would include items such as Request-for-Reimbursement forms submitted to TxDOT, and documentation regarding TDCs used in lieu of local match.

- All supporting documentation submitted should detail the federal, state, and local match.
- Draft Audits have become a necessary component of our initial review. When available, this documentation should be submitted with all other supporting documents pertaining to the financial data being reported by your agency.
- NCTCOG will request a copy of the final audit prior to submitting the final version of your NTD report.
- Annual Reporting will kick-off in October to allow subrecipients and NCTCOG more time to meet reporting deadlines.
- Communication/Responsiveness
