What is Access North Texas?

Access North Texas is an ongoing effort to better coordinate public, human service, and community transportation in the 16-county North Central Texas region. This plan focuses on

- older adults,
- individuals with disabilities,
- low-income individuals,
- anyone with transportation challenges.

The process will identify needs and explore solutions that address those needs.

Why attend?

Provide your valuable input through an interactive meeting to identify transportation challenges and available resources. Build partnerships to make the most of limited resources and to improve access to Ellis and Navarro Counties.
